

# CLAY MINERALS

VOLUME 11, NUMBER 1, MARCH 1976

## CONTENTS

EDITORS NOTE	1
BARBARA S. NEUMANN. Lath-shaped montmorillonites in Surrey	3
P. CHASSIN. Influence de la stereochemie des diols sur la formation des complexes interfoliaires de la montmorillonite calcique	13
P. CHASSIN. Signification de la mesure des surfaces totales des argiles avec l'ethane 1·2 diol	23
R. J. COLLINS. A method for measuring the mineralogical variations of the spoils from British collieries	31
C. S. EXLEY. Observations on the formation of kaolinite in the St. Austell granite, Cornwall	51
PETER BAYLISS. An unusual weathered profile from Orange, N. S. W., Australia	65
<b>Notes</b>	
D. H. YAALON and M. WIEDER. Pedogenic palygorskite in some arid brown (calciorthid) soils of Israel	73
G. PETRUZZELLI, G. GUIDI and P. SEQUI. Electro-optical measurement of clay shrinkage	81
C. D. CURTIS. 'Unmixed' $\text{Ca}^{2+}/\text{Mg}^{2+}$ saponite at Calton Hill, Derbyshire	85
Book Review	91
