The Weak Body of a Useless Woman

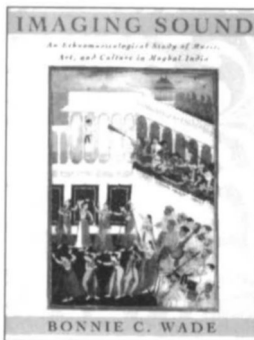

Matsuo Taseko and the Meiji Restoration

Anne Walthall

"Challenging monogendered depictions of the Meiji Restoration, Anne Walthall's painstaking pursuit of the life of a wealthy and cultivated peasant woman during the formative decades of modern Japan yields an utterly fresh sense of the Restoration itself, the uses of poetry, and the multifarious manifestations of a reactionary nativist ideology. It wonderfully complicates our sense of modern Japanese women's history."—Norma Field, author of *From My Grandmother's Bedside: Sketches of Postwar Tokyo*

Japanese Law

An Economic Approach

J. Mark Ramseyer and Minoru Nakazato

"With characteristic wit and readability, Ramseyer and Nakazato provide concise, lucid analysis of substantive Japanese legal principles. But *Japanese Law: An Economic Approach* is much more than a standard introductory reader in foreign and comparative law. In every chapter, the authors deliver body blows to the 'conventional wisdom' about Japan and its legal system, convincingly demonstrating the power of economic analysis in the realm of Japanese law."—Curtis Milhaupt, Washington University School of Law

Siddha Traditions in Medieval India

David Gordon White

"David White has done us a great service by presenting us with such a wide-ranging and thorough piece of research into a challenging subject, rarely met with in European-language works, although certainly still a popular field in India and Tibet. It is a masterly synthesis of a huge range of new material on a difficult topic, and White's insights occur with a bewildering frequency."—*Asian Studies Review*

NEW TITLES IN ASIAN STUDIES

Even the Gods Rebel: The Peasants of Takaino and the 1871 Nakano Uprising in Japan, by Selçuk Esenbel

Even the Gods Rebel reexamines much of the history of nineteenth-century rural Japan through the lens of a single uprising. In this way, we learn about conflict, growth, community, political influence, administration, and the transition from Tokugawa to Meiji. By showing that the Nakano rebellion arose from the peasant tradition of communal uprisings, Esenbel has produced a powerful and original reinterpretation of the causes of change in rural Japan.

The Ming-Qing Conflict, 1619–1683: A Historiography and Source Guide, by Lynn A. Struve

This exciting new resource is an indispensable aid for scholars and students of the late imperial period (late Ming through Qing dynasties). Part 1 ("A Sino-Cultural Historiography") features a 400-year intellectual history of Chinese interpretations of the Qing conquest. Part 2 ("The Best Primary Sources") presents a comprehensive annotated bibliography of resources available to scholars, including materials of Manchu, Japanese, Korean, and European origin. The annotations focus upon the origins of the physical texts as well as the potential biases they may contain.

Self-Representation and the Peasant 'Other' in Modern Chinese Literature
YI-TSI MEI
FEUERWERKER

In the 20th century, Chinese elites viewed the division between intellectuals and peasants as a central concern of literature, and focused on the confrontation between the writer/intellectual self and the peasant "other." The author argues that in the process, they created the "peasantry," the downtrodden masses seen as proper objects of political action and shifting ideological agendas.

The Wages of Affluence

Labor and Management in Postwar Japan

ANDREW GORDON

Andrew Gordon goes to the core of the Japanese enterprise system—the workplace—and reveals a complex history of contest and confrontation. Though the Japanese model produced a dynamic economy, managerial hegemony was achieved only after a bitter struggle that undermined the democratic potential of postwar society. Beginning with the Occupation reforms and their influence on the workplace, Gordon traces worker activism in the 1950s and '60s, and how it gave way to management victory in the 1960s and '70s. He illuminates the Japanese system with frequent references to other capitalist

nations, and looks to Japan's future, rebutting hasty predictions that Japanese industrial relations are about to be dramatically transformed in the American free-market image.

The Massachusetts Institute of Technology

announces the

S.C. Fang Endowed Chair in Chinese Language and Culture

MIT's School of Humanities and Social Science invites applications and nominations for this tenured appointment. Applicants should have a distinguished record of scholarship and teaching. The primary appointment will be in Foreign Languages and Literatures. Applications will, however, be invited from a wide range of humanistic disciplines including: Anthropology, Cultural Studies of Science and Technology, Foreign Languages and Literatures, History, Media Studies, Philosophy, and Sociology. Joint appointments with related MIT departments will be considered.

MIT has developed a strong program in Chinese language and culture, student internships in China, and support for collaborative research with Chinese academics. It has China specialists on its faculty in Comparative Literature, History, Political Science, Management, and Urban Studies and Planning. The School of Humanities and Social Science has six graduate programs, including a Ph.D. in the History and Social Study of Science and Technology, and a new Masters degree in Comparative Media Studies. We expect the successful candidate to teach undergraduate courses related to China in the candidate's specialty as well as graduate courses where appropriate.

Consideration of applications will continue until the position is filled. MIT is an affirmative action employer and welcomes applications from women and members of minority groups.

Applicants should submit a letter of application with a curriculum vitae as well as names of three references to:

NEW

A JOURNEY INTO CHINA'S ANTIQUITY

THIS significant new publication tells the story of China's rich history and civilization through a collection of excellent photographs and textual descriptions of thousands of precious relics and remains drawn largely from the collection of the National Museum of Chinese History, Beijing. Arranged chronologically in four volumes, the book vividly portrays the rise of the Chinese civilization, following its trails from remote antiquity in the Palaeolithic Age through the end of the Qing dynasty. Along the way it explores the achievements in science, economy, social life, literature and arts of the Chinese people. Rare artifacts, portraits, books, and historical documents never before published were exclusively photographed for these four volumes.

Together with other experts, archaeologist and curator of the National Museum of Chinese History, Yu Weichao, provides authoritative texts for each section and entry. This publication is perfect for the scholars and teachers who search for excellent teaching materials; for the librarians who wish to provide the general reader reliable sources of Chinese civilization; and for the art lovers who look for unique artifacts of inspiration.

Volume 1: Palaeolithic Age – Spring and Autumn Period

Volume 2: Warring States – Northern & Southern Dynasties

Volume 3: Sui Dynasty – Northern & Southern Song Dynasties
