The editors invite submission of research articles and review articles bearing upon problems in international relations and comparative politics. Manuscripts should be double-spaced and submitted through the Web-based submission system, ScholarOne Manuscripts, at <http://mc.manuscriptcentral.com/wp>. Articles may be up to 12,500 words in length, including notes and references. Tables, figures, appendixes, and supplementary materials need not be included in the word count. Word count should be indicated. Manuscripts that exceed the limit *will not be considered*. Guidelines for articles and special issues, abstracts of forthcoming and recently published articles, and other information can be found on the *World Politics* Web page, at <https://wpj.princeton.edu>; digital versions of articles can be found at [cambridge.org/wpo](http://cambridge.org/wpo).

Authors can expect to receive decisions on their submissions within four months. Procedures for reviewing manuscripts are based on the anonymity of the author and the confidentiality of readers' and editors' reports; author anonymity is preserved, as well, during the editorial decision-making process. Self-references should therefore be removed. Referees are drawn from Princeton and other institutions; published articles have usually been reviewed by at least two non-Princeton reviewers and often, but not in all instances, one of the editors. Referees for the previous calendar year are acknowledged annually in issue 4 of the journal. In the case of an article deemed to be inappropriate for *World Politics*, the editors strive to notify the author within a month of submission that the article has been withdrawn from consideration.

*World Politics* does not consider material that has already been published (including in a foreign language), has been concurrently submitted elsewhere, or is already slated for publication even in a somewhat different form, such as a chapter of a book. This policy applies to both print and online formats. For these purposes, an online format that would preclude consideration by the journal refers to a refereed presentation and/or a copyrighted working paper. Examples of pre-published materials that may be considered are print working papers and online papers on an author's own homepage or Web site. Certain material already scheduled for publication, such as a chapter of a book, may be considered by *World Politics* if it is to appear no earlier than nine months after the likely date of publication in the journal. Dual submission and dual publication are not permitted while a piece is under consideration at *World Politics*. These restrictions apply to all copyrighted publications (including book chapters, journal articles, and/or working papers). Statements of fact and opinion appearing in the journal are the responsibility of the authors alone and do not imply endorsement of the editors or publisher. The journal does not publish communications to the editor or rejoinders to specific articles. Scholars who believe they have been challenged are encouraged to submit an article that will advance the scholarly debate.
