The American Political Science Review is political science's premier scholarly research journal, providing peer-reviewed articles and review essays from subfields throughout the discipline.

Perspectives on Politics seeks to provide a space for broad and synthetic discussion within the political science profession and between the profession and the broader scholarly and reading publics.

PS: Political Science & Politics provides critical analyses of contemporary political phenomena and is the journal of record for the discipline of political science reporting on research, teaching, and professional development.

The Journal of Political Science Education is an intellectually rigorous, peer-reviewed quarterly journal that publishes evidence-based and theoretically informed scholarship on teaching and pedagogical issues in political science.
