Theories of the Symbol

By TZVETAN TODOROV

Translated by CATHERINE PORTER

"*Theories of the Symbol* initiates a major methodological (re)-turn: the move away from structuralist-semiotic tendencies to other forms of literary philosophy and history. It is this change of critical terrain which no doubt will direct us toward redefining and determining the future modes of literary theory. On this point, Todorov is, as usual, *ahead of the game*."
