

Publications from the United Nations

The Work of the International Law Commission—3rd Edition

Provides a general introduction with sufficient references to facilitate further research: Part I outlines the origin and background of the development and codification of International Law; Part II gives an account of the organization, programme and methods of work of the Commission; and Part III is devoted to brief descriptions of the various topics and sub-topics of international law which have been dealt with by the Commission. Appended annexes contain the text of the Statute and others of selected conventions adopted by the General Assembly.

Sales No. E.80.V.11 \$16.00
