

MR. TOYNBEE ON DEAFNESS.

Illustrated with 100 Engravings on Wood, 8vo., cloth, 15s.

The Diseases of the Ear; their Nature, DIAGNOSIS, and TREATMENT. By JOSEPH TOYNBEE, F.R.S., F.R.C.S., Aural Surgeon to, and Lecturer on Aural Surgery at, St. Mary's Hospital; Consulting Aural Surgeon to the Asylum for the Deaf and Dumb.

"Mr. Toynbee has worked hard, and worked too in the right direction; and we congratulate him on the result he now gives us of his twenty long years' experience. His book is worthy of the profession to which it is addressed, and is an exceedingly valuable addition to medical literature. To any one accustomed to the examination of the ear, it is impossible not to admire the faithfulness with which the various cases and descriptions of diseases are given."—EDIN. MED. JOUR.

John Churchill, New Burlington Street.

Post 8vo., cloth, 7s 6d.

On Epilepsy & Epileptiform Seizures; their Causes, Pathology, and Treatment. By EDWARD H. SIEVEKING, M.D., Physician to, and Lecturer upon *Materia Medica* at, St. Mary's Hospital.

"The above is a brief and imperfect outline of the chief subjects discussed in Dr. Sieveking's able work, which we recommend to the Profession as containing a great amount of valuable information, put together with great skill and learning, and exhibiting no small amount of original observation."—MED. TIMES AND GAZETTE.

"The author's chapters on the treatment of this intractable malady are, in our opinion, the best in the book"—THE LANCET.

"In glancing thus cursorily at a few of the interesting topics discussed by Dr. Sieveking, we have by no means done justice to the merits of his work—a volume which bears on every page the impress, not only of the learned and accomplished physician, but of the experienced and reflecting practitioner."—DUBLIN MED. PRESS.

"Dr. Sieveking's work should be read and carefully studied by every physician practising, for of late years there have been few more valuable contributions to practical medicine, in aiding our knowledge of a most obscure disease."—DUBLIN QUARTERLY JOURNAL.

John Churchill, New Burlington Street.

Third Edition, 8vo., cloth, 12s 6d.

On Rheumatism, Rheumatic Gout, and SCIATICA; their Pathology, Symptoms, and Treatment. By HENRY WILLIAM FULLER, M.D., Cantab., Fellow of the Royal College of Physicians, Physician to St. George's Hospital.

"We can cordially recommend Dr. Fuller's work as a sound practical treatise on this important class of diseases."—MED. TIMES and GAZ.

"This work has gained too high a reputation to require elaborate praise: all that we will say is, that the present edition deserves all the good opinions which have been expressed of its predecessors."—BRIT. MED. JOURNAL.

John Churchill, New Burlington Street.

WILLIAM POLLARD, PRINTER, NORTH STREET, EXETER.
