Editorial

Diagnostic accuracy of intra-operative assessment of de-epithelisation of the malleus, mortality and epistaxis, the left-sidedness of Zenker's diverticulae, and laryngeal stenosis and three-dimensional printing: *M Hussain, J Fishman, E Fisher* 449

Review Article

Aural fullness and transtympanic ventilation tubes in Ménière's disease: a scoping review: *C Sevilla, J Goody, DM Baguley, AV Kasbekar* 450

Main Articles

Manubrio-incudo-stapedioplasty for reconstruction of Austin–Kartush type B ossicular defects: *U Düzenli, AF Kiroğlu* 457

Diagnostic accuracy of intra-operative assessment of de-epithelisation of the malleus by the surgeon in type 1 tympanoplasty compared to histopathological examination: *AP Azeez, V Letha* 462

The effect of intratympanic oxytocin treatment on rats exposed to acoustic trauma: *FC Akin Ocal, GG Kesici, SG Gorgen, R Ocal, S Erbek* 466

Pre-operative prediction of cholesteatomas from radiology: retrospective cohort study of 106 cases: *D Selwyn, J Howard, P Cuddihy* 477

Anatomical variation of the sphenoid sinus in paediatric patients and its association with age and chronic rhinosinuitis: *H Odat, D Almardeeni, M Tanash, M Al-Qudah* 482

One-year all-cause mortality for 338 patients admitted with epistaxis in a large tertiary ENT centre: *MJ Corr, T Tikka, CM Douglas, J Marshall* 487

A new technique of revision septoplasty using semi-penetrating straight and circular incisions of the nasal septum: *L Wei, L Wang, W Lu, T Jiang, Z Liu, M Wang, X Wu, Z Wang* 494

Endoscopic transnasal image-guided approach to diagnosis in orbital apex and optic canal lesions: *SN Unadkat, CE Rennie, WE Grant* 501

Value of patient-reported symptoms in the follow up of patients potentially cured of laryngeal carcinoma: *J Brandstorp-Boesen, U Zätterström, J F Evensen, M Boysen* 508

Why do Zenker's diverticulae occur more often on the left than the right side?: *NA Fitchat, S Maharaj, MO Kwete* 515

Argon plasma coagulation tonsillectomy versus coblation tonsillectomy: a comparison of efficacy and safety: *R Loh, L Stepan, E Zhen, C-KL Shaw* 520

Ten years of ENT Scotland meetings: an appraisal of the publication rates of trainee-presented scientific papers: *P Asimakopoulos, G Charalampidis, KM Chakravarthy, C Mamais* 526

Clinical Records

Feasibility and potential of three-dimensional printing in laryngotracheal stenosis: *Z Richard, E Jackson, JP Jung, SP Kanoetra* 530

Gradenigo's syndrome in a four-year-old patient: a rare diagnosis in the modern antibiotic era: *N Rossi, ML Swonke, L Reichert, D Young* 535

The diagnosis and management of supernumerary nasal teeth: *K-F Jin, Z-C Lou, Z-H Lou* 538

Book Reviews

542
