# THE ROYAL INSTITUTE OF NAVIGATION

## *Aims and Objects*

The objects of the Institute are to unite in one body those who are concerned with or who are interested in navigation and to further its development. Navigation is conceived as applying to locomotion of all kinds and is perceived as encompassing aspects of: command and control, psychology and zoology, operational research, risk analysis, theoretical physics, operation in hostile environments, instrumentation, ergonomics, financial planning and law as well as electronics, astronomy, mathematics, cartography and other subjects traditionally associated with navigation.

The aims of the Institute are to encourage the creation and dissemination of knowledge through research and development, to co-ordinate information from all the disciplines involved, to provide a forum in which new ideas and new products can have the benefit of informed and professional scrutiny and to further education and communication. The Institute initiates conferences and symposia on specific subjects and has a programme of meetings at which lectures are given and discussed. There are standing Special Interest Groups (SIGs), which keep under constant review pertinent aspects of navigation. The success of these Special Interest Groups is crucially dependent on the active involvement of members.

The SIGs include: Land Navigation and Location Group (LN&L), General Aviation Navigation Group (GANG), History of Air Navigation Group (HANG), Civil and Military Air Group (CMAG), Marine Traffic & Navigation Group (MT&NG), Small Craft Group (SCG), Space Group (Space), Animal Navigation Group (ANG) and Research & Development Group (R&D).

The Institute publishes *The Journal of Navigation* six times a year. It contains papers which have been presented at meetings, other original papers and selected papers and reports from Special Interest Groups. The Institute also publishes *Navigation News* six times a year which contains a full account of the Institute's proceedings and activities. This includes Branch News, a record of current navigational work, a diary of events, topical articles, news about Membership and advertising. A great deal of the Institute's work is international in character and is coordinated with that of similar organisations in other countries.

## *Membership*

There are nine classes of membership under which individuals or organisations may apply to join the Institute. Details of the various membership criteria and current subscriptions are available on the RIN website (Home / Join the RIN / Membership Types <http://www.rin.org.uk/general.aspx?ID=59>) and from the Membership Secretary (membership@rin.org.uk Tel: +44(0)20 7591 3130 Fax: 44(0)20 7591 3131).

- (1) Ordinary Membership
- (2) Associate Membership
- (3) Associate Fellow Membership
- (4) Student Membership
- (5) Junior Associate Membership
- (6) Corporate Membership
- (7) Small Business Membership
- (8) Affiliate College University Membership
- (9) Affiliate Club Membership

Additional membership classes of Fellowship, Honorary Fellowship, Retired Membership and Affiliate Membership also exist and details are available from the Membership Secretary.

The subscription price (excluding VAT) to *The Journal* (ISSN 0373-4633) for Volume 69, 2016, which includes print and electronic access, is £575 (USA, Canada and Mexico US \$1040) and includes delivery by air; single parts are available at £105 (USA, Canada and Mexico US \$188) plus postage. The electronic-only price available to institutional subscribers is £446 (USA, Canada and Mexico US \$813). EU subscribers (outside the UK) who are not registered for VAT should add VAT at their country's rate. VAT registered subscribers should provide their VAT registration number. *The Journal* is issued free to all Members of the Institute. Orders, which must be accompanied by payment, may be sent to any bookseller or subscription agent or direct to the publishers: Cambridge University Press, UPH, Shaftesbury Road, Cambridge CB2 8BS, or in the USA, Canada and Mexico to Cambridge University Press, Journals Fulfillment Department, 100 Brook Hill Drive, West Nyack, New York 10994–2133. Japanese prices for institutions are available from Kinokuniya Company Ltd, P.O. Box 55, Chitose, Tokyo 156, Japan.

# THE JOURNAL OF NAVIGATION

VOLUME 69 NUMBER 4 JULY 2016

## CONTENTS

<b>Early Navigation in the North Sea – The Use of the Lead and Line and other Navigation Methods</b> <i>John Kemp and Brian D'Olier</i>	<b>673</b>
<b>MGR-DCB: A Precise Model for Multi-Constellation GNSS Receiver Differential Code Bias</b> <i>Mohamed Abdelazeem, Rahmi N. Çelik and Ahmed El-Rabbany</i>	<b>698</b>
<b>Integrity Risk Minimisation in RAIM Part 2: Optimal Estimator Design</b> <i>Mathieu Joerger, Steven Langel and Boris Pervan</i>	<b>709</b>
<b>AIS Trajectories Simplification and Threshold Determination</b> <i>Shu-kai Zhang, Zheng-jiang Liu, Yao Cai, Zhao-lin Wu and Guo-you Shi</i>	<b>729</b>
<b>GNSS-based Orbital Filter for Earth Moon Transfer Orbits</b> <i>Vincenzo Capuano, Francesco Basile, Cyril Botteron and Pierre-André Farine</i>	<b>745</b>
<b>Deficiencies in Learning COLREGs and New Teaching Methodology for Nautical Engineering Students and Seafarers in Lifelong Learning Programs</b> <i>Djani Mohovic, Robert Mohovic and Mate Baric</i>	<b>765</b>
<b>Technological Innovation in the Maritime Industry: The Case of Remote Pilotage and Enhanced Navigational Assistance</b> <i>Ben Brooks, Tim Coltman and Miles Yang</i>	<b>777</b>
<b>A New High-Resolution GPS Multipath Mitigation Technique Using Fast Orthogonal Search</b> <i>Mohamed Tamazin, Aboelmagd Noureldin, Michael J. Korenberg and Ahmed M. Kamel</i>	<b>794</b>
<b>Analysing Istanbul Strait Maritime Pilot Capacity by Simulation Technique</b> <i>Emre Ucan and Selcuk Nas</i>	<b>815</b>
<b>A High-accuracy Extraction Algorithm of Planet Centroid Image in Deep-space Autonomous Optical Navigation</b> <i>Siliang Du, Mi Wang, Xiao Chen, Shenghui Fang and Hongbo Su</i>	<b>828</b>
<b>RFID/ In-vehicle Sensors-Integrated Vehicle Positioning Strategy Utilising LSSVM and Federated UKF in a Tunnel</b> <i>Xiang Song, Xu Li, Wencheng Tang and Weigong Zhang</i>	<b>845</b>
<b>Performance Assessment of BDS and GPS/BDS Velocity Estimation with Stand-alone Receiver</b> <i>Kai Zheng and Long Tang</i>	<b>869</b>
<b>Advanced Anti-Spoofing Methods in Tracking Loop</b> <i>M. R. Mosavi, Z. Nasrpooya and M. Moazedi</i>	<b>883</b>
<b>A Novel Fault Detection Method for an Integrated Navigation System using Gaussian Process Regression</b> <i>Yixian Zhu, Xianghong Cheng and Lei Wang</i>	<b>905</b>
<b>Instructions for Contributors</b>	<b>920</b>
