JOURNAL OF THE BRITISH SOCIETY OF ANIMAL PRODUCTION

**OLIVER & BOYD LTD.**  
EDINBURGH AND LONDON

**FEBRUARY 1961**

**VOL. 3 PART 1**

## INFORMATION FOR CONTRIBUTORS TO *ANIMAL PRODUCTION*

*Animal Production* publishes papers on original research provided that they have not been, and will not be, published elsewhere in whole, or in part, without the Editors' written permission. Contributions may be in the field of animal production, or in any related scientific field. Papers presented at meetings of the British Society of Animal Production, if submitted to the Editors, will be given equal consideration with other papers.

*Animal Production* is published three times a year, each number consisting of about 96 pages. Annual subscription for every 3 numbers is 45s. (or \$7.50 in the U.S.A. and Canada) and the price for a single number is 17s. 6d. (or \$2.75).

*Length of papers* should not normally exceed the equivalent of 6,000 words, inclusive of tables, text figures and references.

*Manuscripts* should be typed in double spacing and the ribbon copy sent to one of the Editors at the addresses given below. Manuscripts are not returned with the proofs; authors should therefore retain copies.

*Illustrations* (figures and plates) should be simple and few, otherwise a charge may have to be made to authors. Legends should be typed on a separate sheet.

- (a) Diagrams should be drawn in Indian ink, about twice the size of the finished block, on Bristol board or stout tracing paper. Photographed diagrams are also accepted. Lettering inside the framework of the diagram should be inserted in Indian ink. Marginal lettering may, if preferred, be inserted lightly in pencil. Costs of touching-up diagrams found to be incomplete or unsuitable for line-block reproduction will be charged to authors.
- (b) Photographs intended for half-tone reproduction should be on glossy paper. They will be accepted only if found necessary by the Editors. Part of their cost may have to be borne by authors.
- (c) Colour plates will not be accepted unless the author bears the cost.

**THE INDIGENOUS LIVESTOCK OF  
EASTERN AND SOUTHERN AFRICA**

by I. L. Mason and J. P. Maule

This book is the result of a thorough investigation of all available sources of information on the livestock in the area east of a line drawn from the Northern Sudan to the mouth of the Congo. It covers the following species: camel, horse, ass, cattle, sheep, goat and pig. In describing the animals a system of classification has been followed which links those of similar type. Measurements and liveweights are given where possible, together with an indication of performance.

# ANIMAL BEHAVIOUR

Editor: Alastair N. Worden

**Animal Behaviour** is issued twice a year in April and October. It publishes original papers on animal behaviour and related subjects from contributors in many countries. Reports of researches, book reviews and correspondence are included, as are reports of the Proceedings of the Association for the Study of Animal Behaviour and the Section of Animal Behavior and Sociobiology (Ecological Society of America and American Society of Zoologists), of which it is the official journal.

Some of the contents of the current issue include:

*L. Weiskrantz and A. Cowey.* A Device for Measuring Food Motivation in the Monkey.

*A. Manning.* The Effects of Artificial Selection for Mating Speed in *Drosophila melanogaster*.

*H. C. Chiang.* Experimental Studies of the Behaviour of *Anarete Johnsoni* Felt in Artificially Induced Swarms (Cecidomyiidae, Diptera).

*S. C. Ratner.* Effect of Learning to be Submissive on Status in the peck Order of Domestic Fowl.

*C. H. Fraser Rowell.* Displacement Grooming in the Chaffinch.

*Roslyn P. Warren and R. A. Hinde.* Roles of the Male and the Nest-Cup in Controlling the Reproduction of Female Canaries.

*Thelma E. Rowell.* Maternal Behaviour in Non-maternal Golden Hamsters.
