Call for Article Proposals

BJPsych Advances, RCPsych's peer-reviewed CPD journal for consultant psychiatrists, invites clinical experts to submit proposals for articles on current ideas, techniques and developments in psychiatry. Articles typically discuss comprehensive, practical approaches to clinical problems and explain the full range of therapeutic options, with useful features like MCOs, summary boxes, and associated commentaries.

To submit a proposal
to the journal, please

Cover image

In this issue (pp. 240–248), authors Lally and Gaughran explain that evidence from preclinical and clinical studies supports a role for vitamin D deficiency in many mental disorders. They discuss the role of vitamin D in the aetiology and treatment of schizophrenia and depression and their physical health comorbidities.
