

Index

Compiled by Linda English. Page numbers for the main references in the book are shown in **bold type**.

A

abortion 145, 224

acamprosate 59

active listening 22

activity schedule 92

addiction *see* **dependence**

adolescents 6, 229–230, 233, 242–243

depression 16, 242–243, 263

distress **263–265**

eating disorders 164

school 289–294, 300

suicide 139, 263, 264, 293

aggressive behaviour **126–129**

causes 126

children 255

elderly people 149, 151

how to deal with problem 126–129

AIDS *see* **HIV/AIDS**

alcohol, medications interacting with 316

alcohol abuse or dependence

9–10, 17, 19, 191–199

abstinence 196

adolescents 293

aggressive behaviour 126, 127, 128

binge drinking 191

CAGE questions 194

controlled drinking 195, 196–198

counselling 63, 86

dependence 191–192

drinking urges or ‘craving’ 198

with drug abuse 201, 207

effects on person and family 193, 199

harmful drinking 191

hazardous/risky drinking 191

health workers 28

homeless people 296

how to deal with problem 194–198

insomnia 176

medications 59, 198

physical health problem 34, 167

in pregnancy 145, 193–194, 287

prevention **299–300**

referral for out-patient

assessment 45

relationship problems 304

skills to stay sober or control

drinking 196–198

suicide 139, 140

three stages to overcome problem 195–196

tolerance 192

what is problem drinking 191–192

when to suspect a drinking problem 193

why people drink too much 193

withdrawal syndrome 10, 123, 191–192, 193, 196, 298

women 193–194

Alcoholics Anonymous (AA) 196

amitriptyline 315

anger control 86–88

anorexia nervosa (anorexia) **163–165**

anticholinergic medication 52

antidepressant medication 52, 134, 135

cost and efficacy 315

medically unexplained symptoms 168, 169, 175

primary health care 274

SSRIs 141, 147, 148, 153, 156, 163, 165, 175

traumatic events 216

antiepileptic medication 52, 160, 162–163, 274

antihistamines, sedating 52

antipsychotic medication 34, 45, 52, 131–132, 137

cost and efficacy 315

depot medication 62

medication for side-effects of 52, 316

postnatal psychosis 148

primary health care 274

anxiety disorders **8–9, 168**

breathing 167

insomnia 176

medication 174–175

prisoners 298

schools 292

worrying 79–83, 168, 169, 170–175

worrying about physical health 168, 169

assessment 25, **29–36**

diagnosis 32–33, 35

interview 31–32

person refusing to talk 33

physical complaints 33–34
questions 30–31, 32
referral for assessment 43–45
screening 30–31
special situations 33–34
on telephone 34
time to talk 29–30, 32
what to look for 32

attention-deficit hyperactivity disorder (ADHD) 45, 51, 247–250

how to deal with problem 247–249
important problem 247
methylphenidate 249
school 292, 294
why some children are hyperactive 247

autism 15, 238–239, 242

B

bed-wetting 16, 259–262

behaviour chart 261
buzzer alarms 261
causes 259
daytime wetting 259, 261–262
how to deal with problem 259–262
medication 261
traumatic events 215, 216

befriending 102–103, 135

behavioural disorder in children 255–259

how to deal with problem 256–259
parental discipline 256, 258
when misbehaviour is health problem 255–256
why children behave badly 256

behavioural problems 123–144

aggressive behaviour 126–129
confusion 123–125
depression 133–135
eating behaviour 163–165
elderly person 149–155
emergencies 111
hearing voices 129–132
mood swings 135–138
obsessive–compulsive disorder 155–158
odd beliefs 129–132

pregnancy and childbirth problems 144–149
seizures 159–163
wants to harm themselves 139–143

behavioural symptoms ('doing' symptoms) 6, 8–9

benzodiazepines 52, 153, 174–175, 177, 216, 228, 274, 316

bereavement 130, 139, 226–228, 277

abnormal 226, 228
carers 281
counselling 84, 228
how does person react 226
how to deal with problem 226–228
loss of baby 276
refugees 284

binge eating 164–165

bipolar disorder 13, 130, 135–138

after childbirth 145, 147, 148
antidepressant treatment 134
causes 136
counselling 67
how to deal with problem 136–138
medication 45, 62, 316
relapse prevention 62, 137
'blues' after childbirth 145, 147–148

body mass index (BMI) 164

brain disorder 128, 129

as cause 4, 16, 123
or conversion disorder 187, 189
elderly 277

breastfeeding 148, 287, 288

breathing 167

breathing exercises 75

bulimia nervosa (bulimia) 163–165

bullying 290–291, 298

buprenorphine 58–59

C

CAGE questions 194

cannabis 11, 201, 293

carbamazepine 162, 316

carers 280–282

helping 281–282
mental health of 281
promoting mental health of 281

stress 280–281

case notes 25, 273

causes of mental health problems 16–17

child abuse 251–255

difficulties at school 243, 294
emotional abuse and neglect 234, 251, 256
how children are affected 251
how to deal with problem 252–255
intellectual disability 234
mental health problems as adult 16
physical abuse 251, 253, 256
sexual abuse 182, 251, 252, 253
when to suspect abuse 251–252
why abuse occurs 251

childbirth 136, 144–149, 287–288

how to deal with problems 146–149
importance of women's mental health 146
intellectual disability 232

children 6, 15–16, 34, 229–266

'bad' behaviour 255–259
bed-wetting 259–262
caution with medications 316
child soldiers 284
communication difficulties 238–242

difficult childhood 16, 133
difficulties with studies 242–246
epidemic conversion symptoms 188

general approach 229–230

intellectual disability 15, 183, 187, 193–194, 218, 230–238

key milestones in development 230, 232

school 289–294

soiling clothes 262

stimulation 288–289

street children 296–297

symptom checklists for diagnosis 266

traumatic events 215, 216

unable to sit still 247–250

see also adolescents; child abuse

cigarette smoking 11, 182, 208–211

clomipramine 156

clonidine 59

clozapine 45, 57–58

cocaine 11, 200, 201, 202
cognitive symptoms ('thinking' symptoms) 6, 8–9
common mental disorders 6, 7–9, 17, 51, 274
