

British Journal of Nutrition

Published online by Cambridge University Press

BJN An International Journal of Nutritional Science

Volume 102 Number 7 14 October 2009

Published on behalf of The Nutrition Society by Cambridge University Press

ISSN 0007-1145

Aims and Scope

The *British Journal of Nutrition* is an international, peer-reviewed journal publishing original papers, review articles, short communications and technical notes on human and clinical nutrition, animal nutrition and basic science as applied to nutrition. Correspondence is encouraged in a Nutrition Discussion Forum. The Journal recognizes the multidisciplinary nature of nutritional science and encourages the submission of material from all of the specialities involved in research and clinical practice. The Journal also publishes supplements on topics of particular interest.

The *British Journal of Nutrition* is published twice monthly by Cambridge University Press on behalf of
The Nutrition Society.

The *British Journal of Nutrition* is available online to subscribers at journals.cambridge.org/bjn
Tables of contents and abstracts are available free at the same website.

Editor-in-Chief

P C Calder, *School of Medicine, University of Southampton, Southampton, UK*

Deputy Editors

F Bellisle, *INRA, University of Paris, Bobigny, France*

D R Jacobs Jr, *School of Public Health, University of Minnesota, Minneapolis, MN, USA*

R J Wallace, *Gut Health Programme, Rowett Research Institute, Aberdeen, UK*

S J Whiting, *College of Pharmacy and Nutrition, University of Saskatchewan, Saskatoon, Sask., Canada*

Reviews Editor

J C Mathers, *School of Clinical Medical Sciences, University of Newcastle upon Tyne, Newcastle upon Tyne, UK*

Supplements Editor

C Seal, *School of Agriculture, Food and Rural Development, University of Newcastle upon Tyne, Newcastle upon Tyne, UK*

Book Reviews Editor

O B Kennedy, *School of Food Biosciences, University of Reading, Reading, UK*

The Nutrition Society has as its objective the advancement of the scientific study of nutrition and its applications to the maintenance of human and animal health.

Application of membership is invited from anyone whose work has contributed to the scientific knowledge of nutrition, whether such work has been in the laboratory, the field or the clinic, and whether experimental, clinical, agricultural or statistical in nature. There is also a student membership scheme with reduced subscriptions.

Particulars of The Nutrition Society and application forms for membership are available from The Nutrition Society, 10 Cambridge Court, 210 Shepherds Bush Road, London W6 7NJ, UK. Tel: +44 (0)20 7602 0228, Fax: +44 (0)20 7602 1756, Email: office@nutsoc.org.uk

Contents

Invited Commentary

- The unparalleled benefits of fruit.
M. A. Martínez-González & R. M. Lamuela-Raventos 947–948

Short Communication

- Fruit and vegetable consumption in older individuals in Northern Ireland: levels and patterns.
K. M. Appleton, R. McGill & J. V. Woodside 949–953
- Leptin concentrations and the immune-mediated reduction of feed intake in sheep infected with the nematode *Trichostrongylus colubriformis*.
A. W. Greer, Y. R. Boisclair, M. Stankiewicz, R. W. McNulty, N. P. Jay & A. R. Sykes 954–957
- Dietary *n*-3 polyunsaturated fatty acids enhance metastatic dissemination of murine T lymphoma cells.
A. Mannini, N. Kerstin, L. Calorini, G. Mugnai & S. Ruggieri 958–961
- Inhibition of markers of bone resorption by consumption of vitamin D and calcium-fortified soft plain cheese by institutionalised elderly women.
J.-P. Bonjour, V. Benoit, O. Pourchaire, M. Ferry, B. Rousseau & J.-C. Souberbielle 962–966

Molecular Nutrition

- Attenuation of proteolysis and muscle wasting by curcumin c3 complex in MAC16 colon tumour-bearing mice.
R. A. Siddiqui, S. Hassan, K. A. Harvey, T. Rasool, T. Das, P. Mukerji & S. DeMichele 967–975

Metabolism and Metabolic Studies

- Increased bioavailability of hesperetin-7-glucoside compared with hesperidin results in more efficient prevention of bone loss in adult ovariectomised rats.
V. Habauzit, I.-L. Nielsen, A. Gil-Izquierdo, A. Trzeciakiewicz, C. Morand, W. Chee, D. Barron, P. Lebecque, M.-J. Davicco, G. Williamson, E. Offord, V. Coxam & M.-N. Horcajada 976–984
- Quantitative aspects of the metabolism of lignans in pigs fed fibre-enriched rye and wheat bread.
H. N. Lærke, M. A. Mortensen, M. S. Hedemann, K. E. B. Knudsen, J. L. Penalvo & H. Adlercreutz 985–994
- Marine *n*-3 fatty acids promote size reduction of visceral adipose depots, without altering body weight and composition, in male Wistar rats fed a high-fat diet.
M. H. Rokling-Andersen, A. C. Rustan, A. J. Wensaas, O. Kaalhus, H. Wergedahl, T. H. Røst, J. Jensen, B. A. Graff, R. Caesar & C. A. Drevon 995–1006
- Dietary lipid level affects growth performance and nutrient utilisation of Senegalese sole (*Solea senegalensis*) juveniles.
P. Borges, B. Oliveira, S. Casal, J. Dias, L. Conceição & L. M. P. Valente 1007–1014
- Ruminal metabolism of flaxseed (*Linum usitatissimum*) lignans to the mammalian lignan enterolactone and its concentration in ruminal fluid, plasma, urine and milk of dairy cows.
N. Gagnon, C. Côrtes, D. da Silva, R. Kazama, C. Benchaar, G. dos Santos, L. Zeoula & H. V. Petit 1015–1023
- Dietary diacylglycerol oil has no effect on hypertriacylglycerolaemia in lipoprotein lipase-deficient cats.
C. A. Datz, R. C. Backus & K. L. Fritsche 1024–1029

Human and Clinical Nutrition

- Availability of free fruits and vegetables at canteen lunch improves lunch and daily nutritional profiles: a randomised controlled trial.
C. K. Lachat, R. Verstraeten, B. De Meulenaer, J. Menten, L. F. Huybregts, J. V. Camp, D. Roberfroid & P. W. Kolsteren 1030–1037
- Antiretroviral therapy with or without protease inhibitors impairs postprandial TAG hydrolysis in HIV-infected men.
L. J. Ware, A. G. A. Jackson, S. A. Wootton, G. C. Burdge, J. F. Morlese, G. J. Moyle, A. A. Jackson & B. G. Gazzard 1038–1046
- Short-term effects of replacing milk with cola beverages on insulin-like growth factor-I and insulin–glucose metabolism: a 10 d interventional study in young men.
C. Hoppe, M. Kristensen, M. Boiesen, J. Kudsk, K. F. Michaelsen & C. Mølgaard 1047–1051
- Dietary intakes of children with Crohn's disease.
R. Pons, K. E. Whitten, H. Woodhead, S. T. Leach, D. A. Lemberg & A. S. Day 1052–1057

Age dependence of plasma phospholipid fatty acid levels: potential role of linoleic acid in the age-associated increase in docosahexaenoic acid and eicosapentaenoic acid concentrations. <i>R. H. M. de Groot, M. P. J. van Boxtel, O. J. G. Schiepers, G. Hornstra & J. Jolles</i>	1058–1064
Quercetin reduces systolic blood pressure and plasma oxidised low-density lipoprotein concentrations in overweight subjects with a high-cardiovascular disease risk phenotype: a double-blinded, placebo-controlled cross-over study. <i>S. Egert, A. Bosy-Westphal, J. Seiberl, C. Kürbitz, U. Settler, S. Plachta-Danielzik, A. E. Wagner, J. Frank, J. Schrezenmeir, G. Rimbach, S. Wolffram & M. J. Müller</i>	1065–1074
<i>Dietary Survey and Nutritional Epidemiology</i>	
Plant foods and the risk of cerebrovascular diseases: a potential protection of fruit consumption. <i>A. Mizrahi, P. Knekt, J. Montonen, M. A. Laaksonen, M. Heliövaara & R. Järvinen</i>	1075–1083
<i>Behaviour, Appetite and Obesity</i>	
Body mass index bias in defining obesity of diverse young adults: the Training Intervention and Genetics of Exercise Response (TIGER) Study. <i>A. S. Jackson, K. J. Ellis, B. K. McFarlin, M. H. Sailors & M. S. Bray</i>	1084–1090
Sip size of orangeade: effects on intake and sensory-specific satiation. <i>P. L. G. Weijzen, P. A. M. Smeets & C. de Graaf</i>	1091–1097
