## **Merleau-Ponty's Critique of Reason**

**BY THOMAS LANGAN**

When struck down in 1961 at the relatively young age of 52, Maurice Merleau-Ponty had already acquired the reputation of a giant among contemporary philosophers. His brilliant vision and pertinent criticisms of psychology, Marxism, anthropology, language, and the arts continue to evoke enthusiasm, and, more importantly, his work represents a revealing development of deep tendencies in the tradition that flows from Hegel and Marx to Sartre and Heidegger. This study reviews the entire course of Merleau-Ponty's thought, and analyses the difficulties that face such a critical philosophy. 45s net.

## **Metaphysics, Reference, and Language**

**BY JAMES W. CORNMAN**

As he investigates new approaches to metaphysical problems, Professor Cornman both uses and criticises the tools of contemporary analysis, comparing traditional solutions to the mind-body problem, his representative issue, with linguistic approaches. His crucial discussion of linguistic reference uncovers the paradox that while non-philosophers have no difficulty in knowing what they are talking about, philosophers find it virtually impossible to discover what the words they use refer to. 56s net.

"Feibleman is a philosophic synthesizer in the grand manner. This anthology amply bears out the universality of Feibleman's system. Assembled from his voluminous writings of the last 30 years, it includes critical samples of his thought on a vast array of subjects, from morality and religion, through art criticism, to science, history, education, and literary criticism. As an introduction to a complex system of thought, this anthology should prove to be extremely useful." — *Library Journal*

"The work of Feibleman is most impressive for its wide range and for its scholarly insight and critical comment on a great variety of themes and problems." — *Journal of the History of Philosophy*

# Treasury of THOUGHT

by **DAGOBERT D. RUNES**

This volume is truly and doubly a "Treasury": With its easy-to-read structure of brief entries in alphabetical order, it is a treasure-house of observations on life and death, civilisation and savagery, the universe and Beyond—the Great Topics which have challenged man's thought, whether in passionate public debate or in the lonely stillness of his nights, ever since he first raised his eyes to the stars. At the same time, this is a "personal treasury" of the intimate thoughts of an outstanding modern philosopher on these Great Topics.

Dr Dagobert D. Runes is the author of over thirty books in the field of philosophy and social history. The late Albert Einstein said that his ". . . expressed opinions are closely akin to those I hold . . ." and who has been saluted by Albert Schweitzer in these words: "We both travel on the same path to bring to mankind a deeply ethical, deeply spiritual consciousness."

# Philosophy, Politics and Society

## Third Series

*Edited by PETER LASLETT and W. G. RUNCIMAN*

Political philosophy is not being conducted with the range and confidence of the classical theorists. But, as these ten papers show, it has decidedly not abdicated from its proper concern with important issues. *About 35s. net*

# Religion and Understanding

*Edited by D. Z. PHILLIPS*

In these collected papers the editor sees as a common thread the centrality of the concept of understanding in relation to religion, and considers that the analyses their authors give of religious belief go far towards showing what 'true' religion is. *About 35s. net*

# Wittgenstein und der Wiener Kreis

*Conversations recorded by F. Waismann*

*Edited by B. F. McGUINNESS*

In these conversations with Schlick and Waismann, Wittgenstein expounded views similar to those of *Philosophische Bemerkungen*, defended some of the doctrines of the *Tractatus*, while criticising others, and occasionally reacted to the criticisms of his interlocutors. They were recorded in shorthand, and have been transcribed in German for the present edition. *About 35s. net*

# Ludwig Wittgenstein: A Memoir and Letters

*PAUL ENGELMANN*

*Translated by L. FURTMULLER*

Engelmann was a friend and disciple of Wittgenstein's at just the time when Wittgenstein was composing his *Tractatus*. He was intensely interested in cultural and (in a wide sense) religious questions; it is from this side that his Memoir illuminates Wittgenstein. There are also about 50 letters of Wittgenstein in German and English.

# Being and Time

*MARTIN HEIDEGGER*

*Translated by J. MACQUARRIE and E. ROBINSON*

A knowledge of Heidegger's *Sein und Zeit* is essential for anyone who wishes to understand a great deal of recent continental work in theology and philosophy. The translators have succeeded in clothing Heidegger's thought in English without sacrificing the richness and poetic subtlety of the original.
