# Canadian Journal of Animal Science

An International Journal Edited by the Canadian Society of Animal Science

Canadian Journal of Animal Science publishes original research on all aspects of domestic livestock and their products. Papers are published in the following subject areas: **Animal Biotechnology, Application of Technology, Behavior and Management, Breeding and Genetics, Meats, Pastures and Forages, Physiology, Ruminant Nutrition, and Non-ruminant Nutrition.** Reviews, symposium papers and letters to the Editor are published occasionally as well as abstracts of technical papers presented at the annual meeting of the Canadian Society of Animal Science.

## Editor

A. Schaefer, Agriculture and Agri-Food Canada, Research Centre, Lacombe, Alberta, Canada T4L 1W1.

## Some Recent Papers Published in the Journal

- Increasing piglet survival through an improved farrowing management protocol, *K.R. White, D.M. Anderson, and L.A. Bate*
- Cattle use of microclimates on a northern latitude winter range, *G.A. Houseal and B.E. Olson*
- Estimation of carcass composition by computer image analysis in the cross sections of cross-bred steers, *A.B. Karnuah, K. Moriya, K. Mitani, T. Yamazaki, and Y. Sasaki*
- The effect of dietary menhaden meal and storage on the omega-3 fatty acids and sensory attributes of egg yolk in laying hens, *D.M. Nash, R.M.G. Hamilton, K.A. Sanford, and H.W. Hulan*
- Comparison of methods for isolation of protozoa from ruminal fluid, *L. Neill and M. Ivan*

Information about Canadian Journal of Animal Science is available online at: <http://www.aic.ca>

## Submission of manuscripts

Original research papers (four copies) should be submitted to Mr. T. Fenton, Agricultural Institute of Canada, Suite 1112, 141 Laurier Ave. W., Ottawa, ON, Canada K1P 5J3. Papers are subject to peer review; a page charge is levied on accepted papers.

## Subscriptions

*Canadian Journal of Animal Science* is published in March, June, September and December. Subscription rates for 1997 are: for individuals in Canada \$58.00, in all other countries \$62.00; institutional rates are \$90.00 in Canada, \$113.00 in all other countries. Prices are in Canadian dollars, but may be paid in the US equivalent. Surface mail free, airmail add C\$55.00. Canadian subscribers add 7% GST (GST registration number is R106689094). ISSN 0008-3984

**Write to :** Subscriptions, Agricultural Institute of Canada, Suite 1112, 141 Laurier Ave. W., Ottawa, Ontario, Canada K1P 5J3. Tel: (613) 232-9459, Fax: (613) 594-5190, E-mail [journals@aic.ca](mailto:journals@aic.ca)

***Published by the Agricultural Institute of Canada***

*Illustrations.* The same material should not normally be presented in tables and figures. Legends should be typed on a separate sheet.

- a) Diagrams should be drawn in black ink, about twice the size of the finished block, on white paper or card, stout tracing paper or plastic film. Photographed diagrams are also accepted. Lettering inside the framework of the diagram should be avoided as far as possible but if unavoidable it should be included on a fly-leaf.
- b) Photographs intended for half-tone reproduction should be on glossy paper. They will be accepted only if found necessary by the editors.
- c) Colour plates are unlikely to be accepted unless the authors bear the cost.

*Tables* should be as simple and as few as possible. Each table should be typed on a separate sheet.

*Abstract.* Every paper should have a short abstract (not more than 250 words) complete in itself and understandable without reference to the paper. The abstract will be printed at the beginning of the paper and preferably should be in the format of unnumbered short paragraphs.

*Keywords.* Up to a maximum of five keywords selected from the *CAB Thesaurus* (1995) or from an equivalent reference volume should be listed at the end of the Abstract.

*References.* Only papers closely related to the author's work should be referred to; exhaustive lists should be avoided. References with three or more authors should be cited in the first on subsequent occasions with the first author in full followed by *et al.* (e.g. Smith, Jones and Brown: Smith *et al.*). References with two authors should be cited in full on all occasions. References should be given in full in the Reference list and it is the responsibility of authors to check for absolute accuracy in every detail of the reference.

*Proofs* are supplied once and must be returned corrected to the editors within 3 days. Only essential corrections should be made.

*Reprints.* Twenty-five reprints of each paper will be supplied free of charge to authors on request. Further copies may be purchased if the order is sent at the proof-stage.

*Annual subscription* is £165.00 (or \$295.00 in the USA and Canada) and the price for a single part is £28.00 (or \$50.00) net.

*Abstracts of papers presented at British Society of Animal Science winter meeting* are published as a separate section in the June issue of *Animal Science*.

*Correspondence* regarding subscriptions and sales (current and back numbers of the Journal) and any other enquiries, including those concerning copyright, should be addressed to: Durrant Periodicals, Winton Lea, Pencaitland, East Lothian, Scotland EH34 5AY.

*Notes to users in the USA.* The appearance of the fee codes in this journal indicates the copyright owner's consent that copies of the article may be made for personal or internal use on the following conditions. The copier must pay the stated per-copy fee through the Copyright Clearance Center, Inc., 21 Congress Street, Salem, Massachusetts 01970, USA, for copying beyond that permitted by sections 107 and 108 of the US Copyright Law. For territories outside North America, permission should be sought direct from the copyright holder. This consent does not extend to other kinds of copying, such as copying for general distribution, for advertising and promotional purposes, for creating new collective works or for resale.

# Contents

Page

<b>Hossner, K. L., McCusker, R. H. and Dodson, M. V.</b> Insulin-like growth factors and their binding proteins in domestic animals	1
<b>Yan, T., Roberts, D. J. and Higginbotham, J.</b> The effects of feeding high concentrations of molasses and supplementing with nitrogen and unprotected tallow on intake and performance of dairy cows	17
<b>Keady, T. W. J. and Murphy, J. J.</b> The effects of treating low dry matter herbage with a bacterial inoculant of formic acid on the intake and performance of lactating dairy cattle	25
<b>Dawson, J. M., Soar, J. B., Buttery, P. J., Craigon, J., Gill, M. and Beever, D. E.</b> The effect of immunization against somatostatin and $\beta$ -agonist administration alone and in combination on growth and carcass composition in young steers	37
<b>Fisher, A. D., Crowe, M. A., Prendiville, D. J. and Enright, W. J.</b> Indoor space allowance: effects on growth, behaviour, adrenal and immune responses of finishing beef heifers	53
<b>Amici, A., Bartocci, S., Terramocchia, S. and Martillotti, F.</b> Passage rate of solids and fluids in the digestive tract of buffaloes, cattle and sheep: selection of non-linear model	63
<b>Blümmel, M. and Bullerdieck, P.</b> The need to complement <i>in vitro</i> gas production measurements with residue determinations from <i>in sacco</i> degradabilities to improve the prediction of voluntary intake of hays	71
<b>Ellis, M., Webster, G. M., Merrell, B. G. and Brown, I.</b> The influence of terminal sire breed on carcass composition and eating quality of crossbred lambs	77
<b>O'Doherty, J. V. and Crosby, T. F.</b> The effect of diet in late pregnancy on colostrum production in ewes and immunoglobulin absorption in sheep	87
<b>Endang Romjali, Pandey, V. S., Gatenby, R. M., Doloksaribu, M., Sakul, H., Wilson, A. and Verhulst, A.</b> Genetic resistance of different types of sheep to natural infections with gastro-intestinal nematodes	97
<b>Hall, S. J. G., Schmidt, B. and Broom, D. M.</b> Feeding behaviour and the intake of food and water by sheep after a period of deprivation lasting 14 h	105
<b>Thomas, M. F., Oliver, M. H. and Hodgkinson, S. C.</b> The effect of maternal nutrition on foetal serum potency in cell culture	111
<b>Rodríguez Iglesias, R. M., Ciccioli, N. H. and Irazoqui, H.</b> Ram-induced reproduction in seasonally anovular Corriedale ewes: MAP doses for oestrous induction, ram percentages and post-mating progestagen supplementation	119
<b>Wassink, G. J., Fishwick, G., Parkins, J. J., Gill, M., Romney, D. L., Richard, D. and Holmes, P. H.</b> The patho-physiology of <i>Trypanosoma congolense</i> in Scottish Blackface sheep: influence of diet on digestive function	127
<b>Gonzalez, R. E., Labuonora, D. and Russel, A. J. F.</b> The effects of ewe live weight and body condition score around the time of mating on production from four sheep breeds in extensive grazing systems in Uruguay	139
<b>Zygoiannis, D., Stamataris, C., Friggens, N. C., Doney, J. M. and Emmans, G. C.</b> Estimation of the mature weight of three breeds of Greek sheep using condition scoring corrected for the effect of age	147
<b>Schutte, J. B., Jong, J. de, Smink, W. and Koch, F.</b> Threonine requirement of growing pigs (50 to 95 kg) in relation to diet composition	155
<b>Ramanzin, M., Bailoni, L. and Schiavon, S.</b> Effect of forage to concentrate ratio on comparative digestion in sheep, goats and fallow deer	163
<b>Webster, J. R., Corson, I. D. and Suttie, J. M.</b> The effect of housing and food restriction during winter on growth of male red deer calves	171
<b>Lopez-Bote, C., Rey, A., Ruiz, J., Isabel, B. and Sanz Arias, R.</b> Effect of feeding diets high in monounsaturated fatty acids and $\alpha$ -tocopheryl acetate to rabbits on resulting carcass fatty acid profile and lipid oxidation	177
<b>Baker, R. T. M. and Davies, S. J.</b> Muscle and hepatic fatty acid profiles and $\alpha$ -tocopherol status in African catfish ( <i>Clarias gariepinus</i> ) given diets varying in oxidative state and vitamin E inclusion level	187
