

QUARTERLY REVIEWS OF BIOPHYSICS

VOLUME 6 1973

Editors: A. Engström [*Sweden*], A. Ehrenberg [*Sweden*],
R. D. Keynes [*United Kingdom*],
A. K. Solomon [*U.S.A.*]

Council of IUPAB

F. Lynen [*Fed. Rep. Germany*], *President*

B. Chance [*U.S.A.*], *Vice-President*

J. C. Kendrew [*United Kingdom*], *Hon. Vice-President*

R. D. Keynes [*United Kingdom*], *Secretary-General*

A. Ehrenberg [*Sweden*]

A. R. Gopal-Ayengar [*India*]

F. Hutchinson [*U.S.A.*]

L. Kayushin [*U.S.S.R.*]

E. Kellenberger [*Switzerland*]

O. Maaløe [*Denmark*]

F. Oosawa [*Japan*]

B. Pullman [*France*]

W. Reichardt [*Fed. Rep. Germany*]

M. Sela [*Israel*]

J. Tigyí [*Hungary*]

C. A. Tobias [*U.S.A.*]

Published for the International Union for
Pure and Applied Biophysics

Cambridge University Press, 1973

**PUBLISHED BY
THE SYNDICS OF THE CAMBRIDGE UNIVERSITY PRESS**

**Bentley House, 200 Euston Road, London NW1 2DB
American Branch: 32 East 57th Street, New York, N.Y. 10022**

Printed in Great Britain at the University Printing House, Cambridge

Contents

No. 1. FEBRUARY 1973

- G. F. OSTER, A. S. PERELSON and AHARON KATCHALSKY.
Network thermodynamics: dynamic modelling of
biophysical systems *page 1*
- News from IUPAB 135

No. 2. MAY 1973

- RUDOLF RIGLER and MANS EHRENBURG. Molecular
interactions and structure as analysed by fluorescence
relaxation spectroscopy
- FRANKLIN HUTCHINSON. The lesions produced by 139
ultraviolet light in DNA containing 5-bromouracil 201
- News from IUPAB 247

No. 3. AUGUST 1973

- D. CARLSTRÖM, R. BERGIN and G. FALKENBERG.
Molecular characteristics of biogenic monoamines and
their analogs 257
- RAGNAR RYHAGE. Integrated gas chromatography-mass
spectrometry 311
- News from IUPAB 337

No. 4. NOVEMBER 1973

- JACOB N. ISRAELACHVILI. Van der Waals forces in
biological systems 341
- BO G. MALMSTRÖM. Cytochrome *c* oxidase: some current
biochemical and biophysical problems 389
- D. J. C. CUNNINGHAM. The control system regulating
breathing in man 433
- C. CILENTO. Excited electronic states in dark biological
processes 485
- News from IUPAB 503

INFORMATION FOR CONTRIBUTORS TO QUARTERLY REVIEWS OF BIOPHYSICS

1. *Quarterly Reviews of Biophysics* is the official journal of the International Union for Pure and Applied Biophysics. As such, its primary aim is to provide a forum for general and specialized communication between biophysicists working in different areas. This will normally be achieved by inviting authors who have made significant contributions to give a critical and readable account of recent progress in their special fields. Shorter and even controversial articles discussing topics of particular current interest will also be published.

2. Reviews should preferably be written in English. The style of presentation must be concise, with only key references.

3. Three copies of manuscripts are required. They should be typed in double spacing with a margin of 4 cm all round. The position of tables and illustrations should be indicated in the text. Tables and legends for illustrations should be typed on separate pages. A table of contents should be provided for printing at the head of the article.

4. In the text, the references should be to authors and year. When a paper cited has three or more authors the style Smith *et al.* (1973) should be used on all occasions. At the end of the paper, references should be listed alphabetically, with the full title of each paper, and the first and last pages. Abbreviations of journal titles should follow the latest edition of the *World List of Scientific Periodicals*. For example

BERNAL, J. D. (1967). *Origin of Life*. London: Weidenfeld and Nicolson.

EIGEN, M. (1968). New looks and outlooks on physical enzymology. *Q. Rev. Biophys.* 1, 3-33.

5. Drawings should be in Indian ink on tracing paper. They should be drawn roughly twice the size of the finished block. Explanations should as far as possible be placed in the legends. Lettering for photographs should either be on a duplicate print or on an accurately registered overlay.

6. The author will receive only one set of page proofs for correction. Fifty reprints of each review will be provided free of charge. Additional copies may be purchased.

QUARTERLY REVIEWS OF BIOPHYSICS

Reviews on the following topics will appear in forthcoming issues:

Heavy metal toxicities

IAN BREMNER

Effects of metal binding on protein structure

FELIX FRIEDBERG

Prospects in genetic engineering of plants

R. FRANS HEYN,

ARTHUR RÖRSCH and ROBERT A. SCHILPEROORT
