

Copying. This journal is registered with the Copyright Clearance Center, 27 Congress Street, Salem, Mass. 01970. Organizations in the USA who are also registered with C.C.C. may therefore copy material (beyond the limits permitted by sections 107 and 108 of the US copyright law) subject to payment to C.C.C. of the per-copy fee of \$5.00. This consent does not extend to multiple copying for promotional or commercial purposes. Code 0007-1145/93 \$5.00 + .00. Organizations authorized by the Copyright Licensing Agency may also copy material subject to the usual conditions.

ISI Tear Sheet Service, 3501 Market Street, Philadelphia, Pennsylvania 19104, USA, is authorized to supply single copies of separate articles for private use only.

For all other use, permission should be sought from Cambridge or the American Branch of Cambridge University Press.

The Proceedings of the Nutrition Society, published by the Cambridge University Press, in part record meetings of the Symposium type, at which experts in a particular field are invited by Council to make contributions on specific parts of it and at which general discussion follows these invited contributions. The contributions will be published *in extenso*; such summaries of the ensuing discussions as circumstances warrant may also be published. The Society also holds scientific meetings at which papers are communicated by members and others on original work carried out by them. It is proposed at present to publish summaries of the papers read at each meeting, each communication being recorded in the Society's *Proceedings* by means of an abstract not exceeding in length 400 words or the equivalent space in print. The *Proceedings* are published three times a year.

The subscription to the *Proceedings* is £109.00 net (US \$217.00 in USA, Canada and Mexico). Single issues are £38.00 (US \$74.00 in the USA, Canada and Mexico) each; postage extra.

CONTENTS

Editorial	
Deadlines are for other people. <i>D. A. T. Southgate</i>	1-2
Food and Nutrition Intakes of Populations	
Validity of a short food frequency questionnaire for estimating nutrient intake in elderly people. <i>C. C. Horwath</i>	3-14
The energy, nutrient and food intakes of teenagers aged 16-17 years in Britain.	
1. Energy, macronutrients and non-starch polysaccharides. <i>Helen F. Crawley</i>	15-26
Planning of Diets using Linear Programming	
Diet planning for humans using mixed-integer linear programming. <i>David Sklan & Ilana Dariel</i>	27-35
Control of Feed Intake in Sheep	
The role of propionate and acetate in the control of food intake in sheep. <i>D. A. H. Farningham & C. C. Whyte</i>	37-46
Measurement of Body Composition	
Abdominal diameters as indicators of visceral fat: comparison between magnetic resonance imaging and anthropometry. <i>Karin van der Kooy, Rianne Leenen, Jaap C. Seidell, Paul Deurenberg & Marjolein Visser</i>	47-58
Nutrition and Growth of the Young Black Bear	
Nutrition and growth of suckling black bears (<i>Ursus americanus</i>) during their mothers' winter fast. <i>Olav T. Oftedal, Gary L. Alt, Elsie M. Widdowson & Michael R. Jakubasz</i>	59-79
Fatty Acid Oxidation and Gluconeogenesis in the Neonatal Pig	
Relationship between hepatic fatty acid oxidation and gluconeogenesis in the fasting neonatal pig. <i>Allan J. Lepine, Malcolm Watford, R. Dean Boyd, Deborah A. Ross & Dana M. Whitehead</i>	81-91
Diet and Hormonal Influences on Growth	
Influence of diet and β -agonist administration on plasma concentrations of growth hormone and insulin-like growth factor-1 in young steers. <i>J. M. Dawson, J. Craigon, P. J. Buttery & D. E. Beever</i>	93-102
Food Intake and Energy Metabolism	
Effect of the pattern of food intake on human energy metabolism. <i>Wilhelmine P. H. G. Verboeket-Van de Venne, Klaas R. Westerterp & Arnold D. M. Kester</i>	103-115
Protein and Amino Acid Metabolism	
Effects of acute and chronic level of protein supply on metabolic leucine utilization in growing and mature rats. <i>P. J. M. Weijs, V. V. A. M. Schreurs, R. E. Koopmanschap, H. N. A. Grooten, A. T. Schoonman & H. A. Boekholt</i>	117-125
Dietary Interactions with Lipid Metabolism	
Effects of increasing levels of sugar-beet pulp in broiler chicken diets on nutrient digestion and serum lipids. <i>D. Pettersson & A. Razdan</i>	127-137
Lowering effect of dietary milk-whey protein v. casein on plasma and liver cholesterol concentrations in rats. <i>Xizhong Zhang & Anton C. Beynen</i>	139-146
Iron Intake and Status	
Haemoglobin, ferritin and iron intakes in British children aged 12-14 years: a preliminary investigation. <i>Michael Nelson, Joanne White & Charlotte Rhodes</i>	147-155
