KEILIN, D. and TATE, P. A comparative account of the larvae of <i>Trichomyia urbica</i> Curtis, <i>Psychodes albipennis</i> Zett., and <i>Phlebotomus argentipes</i> Ann. and Brun. (Diptera: Psychodidae)	247
BUTLER, E. J. <i>Acladium castellanii</i> Pinoy and the existence of the so-called acladiosis of Castellani. (With Plate XIV and 9 Text-figures)	259
MACCLEMENT, W. D. An improved method of inoculating plants with virus for the study of local lesions. (With 3 Figures in the Text)	266

PARASITOLOGY is published about four times a year. The numbers afterwards are issued in volumes each containing four numbers.

Papers for publication should be sent to Professor D. KEILIN, Sc.D., F.R.S., Moltano Institute, Downing Street, Cambridge. Other communications should be addressed to the University Press, Cambridge.

Papers forwarded to the Editors for publication are understood to be offered to *PARASITOLOGY* alone, unless the contrary is stated.

Contributors receive twenty-five copies of their papers free. Additional copies, not exceeding one hundred (except in special cases), may be had at cost price: these should be ordered when the final proof is returned.

The subscription price is £2. 15s. per volume (post-free), payable in advance; single numbers 18s. 6d. net (double number 37s. net). Subscriptions may be sent to any Bookseller, or to The Cambridge University Press, Fetter Lane, London, E.C. 4.

The Cambridge University Press has appointed the University of Chicago Press agent for the sale of *Parasitology* in the United States of America.
