Contents

PART 1 (FEBRUARY 1961)

	PAGE
ASKER, A. A. and BEDEIR, L. H. Environmental factors affecting persistency of lactation in Egyptian buffaloes	1
ASKER, A. A. and BEDEIR, L. H. Repeatability and heritability of persistency of lactation and initial milk yield in the Egyptian buffaloes	7
SMITH, C. A. Studies on the Northern Rhodesia <i>Hyparrhenia</i> veld. Part II. Seasonal milk production using natural veld. (With One Text-figure)	11
REITH, J. W. S., INKSON, R. H. E., STEWART, A. B., HOLMES, W., MACLUSKY, D. S., REID, D., HEDDLE, R. G., CLOUSTON, D. and COPEMAN, G. J. F. The effects of fertilizers on herbage production. Part I. The effects of nitrogen, phosphate and potash on yield. (With Six Text-figures)	17
SUMPTION, LAVON J. Multiple sire mating in swine; evidence of natural selection for mating efficiency	31
WIDDOWSON, F. V., PENNY, A. and WILLIAMS, R. J. B. Applying nitrogen fertilizers for spring barley. (With One Text-figure)	39
ROBINSON, J. B. D. Nitrogen studies in a coffee soil. II. The influence of mulch on natural and fertilizer levels of nitrate and ammonia in the top-soil. (With Four Text-figures) .	49
ROBINSON, J. B. D. Nitrogen studies in a coffee soil. III. The comparative efficiency of ammonium sulphate and urea fertilizers in the presence and absence of an organic mulch measured in terms of crop yield	61
LEWIS, D. The absorption of subcutaneously implanted thyroxine in the sheep. (With One Text-figure)	65
ALLEN, D. M. and LAMMING, G. E. Nutrition and reproduction in the ewe. (With Two Text-figures)	69
BLAXTER, K. L. and WAINMAN, F. W. Environmental temperature and the energy metabolism and heat emission of steers. (With Two Text-figures)	81
BREDON, R. M., MARSHALL, B. and JUKO, C. D. The nutrition of zebu cattle. Part I. Equipment for the separate collection of urine and faeces from steers. (With Plate 1 and Two Text-figures)	91
JUKO, C. D., BREDON, R. M. and MARSHALL, B. The nutrition of zebu cattle. Part II. The techniques of digestibility trials with special reference to sampling, preservation and drying of faeces. (With One Text-figure)	93
BREDON, R. M., JUKO, C. D. and MARSHALL, B. The nutrition of zebu cattle. Part III. Digestibility techniques: investigation of the effects of combination of dry faeces, length of digestibility trials and number of animals required. (With Three Text-figures) .	99

	PAGE
SMITH, R. H. The development and function of the rumen in milk-fed calves. II. Effect of wood shavings in the diet. (With Four Text-figures)	105
GLOVER, J. Comparative efficiency of digestion of feeds by ruminants and pigs. (With Two Text-figures)	113
GLOVER, J. and DOUGALL, H. W. Estimation of the average total digestible nutrients in pig feeds. (With One Text-figure)	117
HANLEY, F., JARVIS, R. H. and WHITEAR, J. D. The effects of time of ploughing and time of drilling on the development and yield of the winter wheat crop following a clover ley .	119
ADAMS, S. N. The effect of time of application of phosphate and potash on sugar beet .	127
BATH, I. H. and HEAD, M. J. The <i>in vitro</i> production, by rumen micro-organisms, of volatile fatty acids from cellulose and hemicellulose labelled with ¹⁴ C. (With One Text-figure)	131
HARKER, K. W., ROLLINSON, D. H. L., TAYLOR, J. I., GOURLAY, R. N. and NUNN, W. R. Studies on the habits of zebu cattle. VI. The results on different pastures. (With One Text-figure)	137

PART 2 (APRIL 1961)

REID, D. Factors influencing the role of clover in grass-clover leys fertilized with nitrogen at different rates. I. The effects of the variety of companion grass on the yields of total herbage and of clover. (With Six Text-figures)	143
REID, S. Factors influencing the role of clover in grass-clover leys fertilized with nitrogen at different rates. II. The effects of the variety of white clover on the yields of total herbage and of clover. (With Two Text-figures)	155
FAGAN, V. J., ILES, R. D., SLOWITSKY, Z. and BROCKSOFF, R. E. Some observations on the high level copper supplementation of pig rations	161
SYMINGTON, R. B. Studies on the adaptability of three breeds of sheep to a tropical environment modified by altitude. V. The annual fluctuation in breeding ability of rams maintained on Rhodesian highveld. (With One Text-figure)	165
SYMINGTON, R. B. Studies on the adaptability of three breeds of sheep to a tropical environment modified by altitude. VI. The effect of increased light and injections of vitamin A on semen production and sperm characteristics in tropical rams. (With One Text-figure)	173
SYMINGTON, R. B. Studies on the adaptability of three breeds of sheep to a tropical environment modified by altitude. VII. Sexual activity in relation to age of ram	179
SCHINDLER, H. and AMIR, D. Longevity of ram sperm in various diluents and at different dilution rates. (With Five Text-figures)	183
MARSHALL, B., BREDON, R. M. and JUKO, C. D. The nutrition of zebu cattle. IV. The intake of dry matter by cattle with some notes on the digestibility of Rhodes grass and Star grass hays. (With Three Text-figures)	191

PIZER, N. H., WRIGHT, H. A., CALDWELL, T. H., HARGRAVE, J., BURGESS, G. R., CORY, V. and BOYD, D. A. A study of the peat fenlands with particular reference to potato manuring. (With Six Text-figures)	197
HAMMERTON, J. L. Studies of the effects of soil aggregate size on the emergence and growth of beet (<i>Beta vulgaris</i> L.). I. Seedling emergence. (With Plate 1 and Seventeen Text-figures)	213
RAVEN, A. M. and THOMPSON, A. The availability of iron in certain grass, clover and herb species. III. Burnet, chicory and narrow-leaved plantain. (With Two Text-figures) .	229
HART, D. S. The effect of light-dark sequences on wool growth. (With Plate 1 and Five Text-figures)	235
SMITH, C. A. Studies on the Northern Rhodesia <i>Hyparrhenia</i> veld. III. The effect on the growth and grazing-behaviour of indigenous cattle of restricting their daily grazing time by night kraaling. (With Plate 1 and Two Text-figures)	243
LAWRIE, R. A. Studies on the muscles of meat animals. I. Differences in composition of beef <i>longissimus dorsi</i> muscles determined by age and anatomical location. (With Eight Text-figures)	249
GLOVER, J. and DOUGALL, H. W. Milk production from pasture. (With Three Text-figures)	261
CALLOW, E. H. Comparative studies of meat. VII. A comparison between Hereford, Dairy Shorthorn and Friesian steers on four levels of nutrition. (With One Text-figure) .	265
ADAMS, S. N. The effect of sodium and potassium on sugar beet on the Lincolnshire limestone soils	283

PART 3 (JUNE 1961)

NOWAKOWSKI, T. Z. The effect of different nitrogenous fertilizers, applied as solids or solutions, on the yield and nitrate-N content of established grass and newly sown ryegrass	287
NEELAKANTAN, V. and MEHTA, B. V. Studies on copper deficiency and toxicity symptoms in some common crops of Gujarat (India)	293
NYE, P. H. and FOSTER, W. N. M. The relative uptake of phosphorus by crops and natural fallow from different parts of their root zone. (With One Text-figure)	299
LAKSESVALA, B. Graded levels of herringmeal to bacon pigs, effect on growth rate, feed efficiency and bacon quality. (With Four Text-figures)	307
WEERDEN, E. J. VAN. The osmotic pressure and the concentration of some solutes of the intestinal contents and the faeces of the cow, in relation to the absorption of the minerals. (With Three Text-figures)	317
FREE, J. B. and SPENCER-BOOTH, YVETTE. Analysis of honey farmers' records on queen rearing and queen introduction	325
LUITINGH, H. C. The use of chromium oxide and lignin as indicators for the purpose of determining intake and digestibility of mixed rations by beef steers	333

	PAGE
SMITH, R. H. Effect of the ingestion of wood shavings on magnesium and calcium utilization by milk-fed calves. (With Three Text-figures)	343
WILSON, P. N. The grazing behaviour and free-water intake of East African shorthorned zebu heifers at Serere, Uganda. (With Two Text-figures)	351
DONEY, J. M. and SMITH, W. F. The fleece of the Scottish Blackface sheep. I. Seasonal changes in wool production and fleece structure	365
DONEY, J. M. and SMITH, W. F. The fleece of the Scottish Blackface sheep. II. Variation in fleece components over the body of the sheep. (With One Text-figure)	375
HORROCKS, D. and PHILLIPS, G. D. Factors affecting the water and food intakes of European and zebu-type cattle	379
ADAMS, S. N. The effect of sodium and potassium fertilizer on the mineral composition of sugar beet. (With Three Text-figures)	383
LUITINGH, H. C. The maintenance requirements of beef steers and the relationship of maintenance needs and total fattening requirements. (With Two Text-figures)	389
MCDONALD, M. F. Studies of the response of the anoestrous ewe treated with progesterone and pregnant mare serum	397
BUTTERWORTH, M. H., GROOM, C. G. and WILSON, P. N. The intake of Pangola grass (<i>Digitaria decumbens</i> , Stent.), under wet- and dry-season conditions in Trinidad	407
TODD, J. R. Magnesium in forage plants. I. Magnesium contents of different species and strains as affected by season and soil treatment	411
HAMMERTON, JOHN L. Studies of the effects of soil aggregate size on the emergence and growth of beet (<i>Beta vulgaris</i> L.). II. Leaf development. (With Thirteen Text-figures)	417

JOURNAL OF REPRODUCTION AND FERTILITY

The Journal publishes original papers, abstracts of Proceedings, and occasionally reviews and bibliographies dealing with the morphology, physiology, biochemistry and pathology of reproduction in man and animals, and with the biological, medical and veterinary problems of fertility and lactation. Numbers will be issued quarterly to give one volume per year, until the flow of material necessitates greater frequency.

Vol. 2

MAY 1961

No. 2

CONTENTS

- B. DE GROOT. Ageing of bull sperms at the end of the passage through the epididymis.
G. C. ASHTON. β -globulin type and fertility in artificially bred dairy cattle.
ODD KNUDSEN and WEIERT VELLE. Ovarian oestrogen levels in the non-pregnant mare.
H. M. BRUCE. Time relations in the pregnancy-block induced in mice by strange males.
L. L. DOYLE and M. T. CLEGG. Effect of progesterone withdrawal on time of oestrus and mating behaviour in female rats.
M. X. ZARROW, P. B. SAWIN, SHERMAN ROSS, V. H. DENENBERG, D. CRARY, E. D. WILSON and A. FAROOQ. Maternal behaviour in the rabbit.
E. S. E. HAFEZ. Storage of rabbit ova in gelled media at 10° C.
F. A. GLOVER and G. W. SCOTT BLAIR. Note on the changes in viscosity of heated bull semen.
S. HANLY. Prenatal mortality in farm animals. Review.
Proceedings of the Scientific Seminar held during the Fourth All-India Conference on Family Planning.
Society for the Study of Fertility, List of Members, 1961.
-

The subscription rate is 70s. per volume. U.S.A. and Canada \$12.00.

Dr T. Mann, F.R.S., is Chairman and Dr A. S. Parkes, C.B.E., F.R.S., Secretary of the Council of Management. The Editorial Board includes Professor E. C. Amoroso, F.R.S., Dr R. A. Beatty, Dr P. M. F. Bishop, Dr J. L. Hancock, Professor R. G. Harrison, Dr Margaret Jackson, Professor J. A. Laing, Mr L. E. Rowson, Mr Linton Snaith and Dr G. I. M. Swyer.

Editorial correspondence should be sent to the Editor Dr C. R. Austin, National Institute for Medical Research, Mill Hill, London, N.W. 7, and business correspondence to the publishers.

The Journal of Agricultural Science is issued every other month in parts of about 136 pages with plates and figures, three parts constituting a volume. Two volumes yearly.

Quotations for available back volumes and parts may be obtained on application to the Cambridge University Press.

Papers for publication should be typewritten or written in a very legible hand, and may be sent to SIR JOHN HAMMOND, School of Agriculture, Cambridge, or to the associate Editors. Other communications should be addressed to the University Press, Cambridge.

If Plates in excess of one per 24 pages of text or coloured plates are submitted the author may be asked to bear the cost of such Plates.

Bibliography should be given under the heading of 'References' in the following form:

Surname of authors (in alphabetical order), initials, date of publication (in brackets), title of Journal (abbreviated according to the *World List of Scientific Periodicals*), volume and page of reference. In the text a reference should be quoted by the author's name and date (in brackets).

All names of Journals and books are set in italics; they should be indicated on the typescript by underlining.

Contributors will receive twenty-five copies of their papers free.

The subscription price, payable in advance, is 60s. *net* per volume (post free); single numbers 25s. *net*. Subscriptions may be sent to any bookseller, or to The Cambridge University Press, Bentley House, 200 Euston Road, London, N.W. 1.

Subscription price in the U.S.A. is \$11.50 per volume; single number \$4.25. Enquiries should be addressed to the Cambridge University Press, American Branch, 32 East 57th Street, New York 22, N.Y.
