Wood sample scanned at 280 nm voxel size - vessels are color-coded to thickness.

## TESCAN UniTOM HR

The first micro-CT system to provide sub-micron spatial resolution and high temporal resolution dynamic CT in a single, highly versatile system.

**What can you do with TESCOAN UniTOM HR?  
Contact us today to find out:**

# Explore the Power of Possibilities

## Bring your curiosity into focus

Perhaps you are on the precipice of something astounding. Use that momentum and apply it through the latest microscopy innovations to advance your research. As your partner, we believe that you are the power behind what's possible. The next stage of discovery is waiting, are you ready?
