
THE ROYAL INSTITUTE OF NAVIGATION

Aims and Objects

The objects of the Institute are to unite in one body those who are concerned with or who are interested in navigation and to further its development. Navigation is conceived as applying to locomotion of all kinds and is perceived as encompassing aspects of: command and control, psychology and zoology, operational research, risk analysis, theoretical physics, operation in hostile environments, instrumentation, ergonomics, financial planning and law as well as electronics, astronomy, mathematics, cartography and other subjects traditionally associated with navigation.

The aims of the Institute are to encourage the creation and dissemination of knowledge through research and development, to co-ordinate information from all the disciplines involved, to provide a forum in which new ideas and new products can have the benefit of informed and professional scrutiny and to further education and communication. The Institute initiates conferences and symposia on specific subjects and has a programme of meetings at which lectures are given and discussed. There are standing Special Interest Groups (SIGs), which keep under constant review pertinent aspects of navigation. The success of these Special Interest Groups is crucially dependent on the active involvement of members.

The SIGs include: Land Navigation and Location Group (LN&L), General Aviation Navigation Group (GANG), History of Air Navigation Group (HANG), Civil and Military Air Group (CMAG), Marine Traffic & Navigation Group (MT&NG), Small Craft Group (SCG), Space Group (Space), Animal Navigation Group (ANG) and Research & Development Group (R&D).

The Institute publishes *The Journal of Navigation* six times a year. It contains papers which have been presented at meetings, other original papers and selected papers and reports from Special Interest Groups. The Institute also publishes *Navigation News* six times a year which contains a full account of the Institute's proceedings and activities. This includes Branch News, a record of current navigational work, a diary of events, topical articles, news about Membership and advertising. A great deal of the Institute's work is international in character and is coordinated with that of similar organisations in other countries.

Membership

There are nine classes of membership under which individuals or organisations may apply to join the Institute. Details of the various membership criteria and current subscriptions are available on the RIN website (Home / Join the RIN / Membership Types <http://www.rin.org.uk/general.aspx?ID=59>) and from the Membership Secretary (membership@rin.org.uk Tel: +44(0)20 7591 3130 Fax: 44(0)20 7591 3131).

- (1) Ordinary Membership
- (2) Associate Membership
- (3) Associate Fellow Membership
- (4) Student Membership
- (5) Junior Associate Membership
- (6) Corporate Membership
- (7) Small Business Membership
- (8) Affiliate College University Membership
- (9) Affiliate Club Membership

Additional membership classes of Fellowship, Honorary Fellowship, Retired Membership and Affiliate Membership also exist and details are available from the Membership Secretary.

The subscription price (excluding VAT) to *The Journal* (ISSN 0373-4633) for Volume 72, 2019, which includes print and electronic access, is £667 (USA, Canada and Mexico US \$1204) and includes delivery by air; single parts are available at £121 (USA, Canada and Mexico US \$218) plus postage. The electronic-only price available to institutional subscribers is £517 (USA, Canada and Mexico US \$942). EU subscribers (outside the UK) who are not registered for VAT should add VAT at their country's rate. VAT registered subscribers should provide their VAT registration number. The *Journal* is issued free to all Members of the Institute. Orders, which must be accompanied by payment, may be sent to any bookseller or subscription agent or direct to the publishers: Cambridge University Press, 100 Brook Hill Drive, West Nyack, NY 10994-2133, or in the USA, Canada and Mexico to Cambridge University Press, Journals Fulfillment Department, 1 Liberty Plaza, Floor 20, New York, NY 10006, USA. Japanese prices for institutions are available from Kinokuniya Company Ltd, P.O. Box 55, Chitose, Tokyo 156, Japan.

This journal issue has been printed on FSC-certified paper and cover board. FSC is an independent, non-governmental, not-for-profit organization established to promote the responsible management of the world's forests. Please see www.fsc.org for information.

THE JOURNAL OF NAVIGATION

VOLUME 72 • NUMBER 3 • MAY 2019

CONTENTS

| | |
|---|-----|
| Enhancing Environmental Engagement with Natural Language Interfaces for In-Vehicle Navigation Systems | 513 |
| <i>Vicki Antrobus, David Large, Gary Burnett and Chrisminder Hare</i> | |
| Robust Initial Satellite Orbit Determination method using a Modified Kalman Filter | 528 |
| <i>Shirish Potu, S.K.Anand and Soumyendu Raha</i> | |
| Navigating Life: A Taxonomy of Wayfinding Behaviours | 539 |
| <i>Andrew Barker</i> | |
| Galileo E5 Signal Acquisition using Intermediate Coherent Integration Time | 555 |
| <i>Jérôme Leclère and René Jr Landry</i> | |
| Assessment of the Positioning Accuracy of DGPS and EGNOS Systems in the Bay of Gdansk using Maritime Dynamic Measurements | 575 |
| <i>Cezary Specht, Jan Pawelski, Leszek Smolarek, Mariusz Specht and Pawel Dabrowski</i> | |
| COLREGS-Constrained Real-time Path Planning for Autonomous Ships Using Modified Artificial Potential Fields | 588 |
| <i>Hongguang Lyu and Yong Yin</i> | |
| Multi-object-based Vessel Traffic Scheduling Optimisation in a Compound Waterway of a Large Harbour | 609 |
| <i>Xinyu Zhang, Ruijie Li, Xiang Chen, Junjie Li and Chengbo Wang</i> | |
| Extended Kalman Filter with Input Detection and Estimation for Tracking Manoeuvring Satellites | 628 |
| <i>Yuzi Jiang, Hongwei Yang, Hexi Baoyin and Pengbin Ma</i> | |
| Crater Edge-based Flexible Autonomous Navigation for Planetary Landing | 649 |
| <i>Yang Tian, Meng Yu, Meibao Yao and Xiangyu Huang</i> | |
| Multicomponent Analysis of Ionospheric Scintillation Effects Using the Synchrosqueezing Technique for Monitoring and Mitigating their Impact on GNSS Signals | 669 |
| <i>G. Sivavaraprasad, D.Venkata Ratnam and Yuichi Otsuka</i> | |
| GPS Signal Reception Classification Using Adaptive Neuro-Fuzzy Inference System | 685 |
| <i>Rui Sun, Li-Ta Hsu, Dabin Xue, Guohao Zhang and Washington Yotto Ochieng</i> | |
| A Comprehensive Analysis of Ionospheric Anomalies before the M_w7.1 Van Earthquake on 23 October 2011 | 702 |
| <i>Erman Şentürk, Hamdullah Livaoglu and Murat Selim Çepni</i> | |
| Higher-order Rotation Vector Attitude Updating Algorithm | 721 |
| <i>Maosong Wang, Wenqi Wu, Xiaofeng He, Gongliu Yang and Huapeng Yu</i> | |
| Error Modelling and Optimal Estimation of Laser Scanning Aided Inertial Navigation System in GNSS-Denied Environments | 741 |
| <i>W.I. Liu, Zhixiong Li, and Zhichao Zhang</i> | |
| Multi-AUV Cooperative Hunting Control with Improved Gsiasus Bio-inspired Neural Network | 759 |
| <i>Mingzhi Chen and Daqi Zhu</i> | |
| A Revisit of the Definition of the Ship Domain based on AIS Analysis | 777 |
| <i>Axel Hörteborn, Jonas W. Ringsberg, Martin Svanberg and Henrik Holm</i> | |
| Kinematic Post-processing of Ship Navigation Data Using Precise Point Positioning | 795 |
| <i>John B. DeSanto, C. David Chadwell and David T. Sandwell</i> | |
| The Sea Mile and Nautical Mile in Marine Navigation | 805 |
| <i>Andrzej S. Lenart</i> | |
| Safe Tug Operations during Ship-Assist Manoeuvres | 813 |
| <i>Nirman Jayarathne, Dev Ranmuthugala and Zhi Leong</i> | |
