# THE ROYAL INSTITUTE OF NAVIGATION

## *Aims and Objects*

The objects of the Institute are to unite in one body those who are concerned with or who are interested in navigation and to further its development. Navigation is conceived as applying to locomotion of all kinds and is perceived as encompassing aspects of: command and control, psychology and zoology, operational research, risk analysis, theoretical physics, operation in hostile environments, instrumentation, ergonomics, financial planning and law as well as electronics, astronomy, mathematics, cartography and other subjects traditionally associated with navigation.

The aims of the Institute are to encourage the creation and dissemination of knowledge through research and development, to co-ordinate information from all the disciplines involved, to provide a forum in which new ideas and new products can have the benefit of informed and professional scrutiny and to further education and communication. The Institute initiates conferences and symposia on specific subjects and has a programme of meetings at which lectures are given and discussed. There are standing Special Interest Groups (SIGs), which keep under constant review pertinent aspects of navigation. The success of these Special Interest Groups is crucially dependent on the active involvement of members.

The SIGs include: Land Navigation and Location Group (LN&L), General Aviation Navigation Group (GANG), History of Air Navigation Group (HANG), Civil and Military Air Group (CMAG), Marine Traffic & Navigation Group (MT&NG), Small Craft Group (SCG), Space Group (Space), Animal Navigation Group (ANG) and Research & Development Group (R&D).

The Institute publishes *The Journal of Navigation* six times a year. It contains papers which have been presented at meetings, other original papers and selected papers and reports from Special Interest Groups. The Institute also publishes *Navigation News* six times a year which contains a full account of the Institute's proceedings and activities. This includes Branch News, a record of current navigational work, a diary of events, topical articles, news about Membership and advertising. A great deal of the Institute's work is international in character and is coordinated with that of similar organisations in other countries.

## *Membership*

There are nine classes of membership under which individuals or organisations may apply to join the Institute. Details of the various membership criteria and current subscriptions are available on the RIN website (Home / Join the RIN / Membership Types <http://www.rin.org.uk/general.aspx?ID=59>) and from the Membership Secretary ([membership@rin.org.uk](mailto:membership@rin.org.uk) Tel: +44(0)20 7591 3130 Fax: 44(0)20 7591 3131).

- (1) Ordinary Membership
- (2) Associate Membership
- (3) Associate Fellow Membership
- (4) Student Membership
- (5) Junior Associate Membership
- (6) Corporate Membership
- (7) Small Business Membership
- (8) Affiliate College University Membership
- (9) Affiliate Club Membership

Additional membership classes of Fellowship, Honorary Fellowship, Retired Membership and Affiliate Membership also exist and details are available from the Membership Secretary.

The subscription price (excluding VAT) to *The Journal* (ISSN 0373-4633) for Volume 68, 2015, which includes print and electronic access, is £523 (USA, Canada and Mexico US \$945) and includes delivery by air; single parts are available at £141 (USA, Canada and Mexico US \$250) plus postage. The electronic-only price available to institutional subscribers is £405 (USA, Canada and Mexico US \$739). EU subscribers (outside the UK) who are not registered for VAT should add VAT at their country's rate. VAT registered subscribers should provide their VAT registration number. *The Journal* is issued free to all Members of the Institute. Orders, which must be accompanied by payment, may be sent to any bookseller or subscription agent or direct to the publishers: Cambridge University Press, UPH, Shaftesbury Road, Cambridge CB2 8BS, or in the USA, Canada and Mexico to Cambridge University Press, Journals Fulfillment Department, 100 Brook Hill Drive, West Nyack, New York 10994-2133. Japanese prices for institutions are available from Kinokuniya Company Ltd, P.O. Box 55, Chitose, Tokyo 156, Japan.

# THE JOURNAL OF NAVIGATION

VOLUME 68 NUMBER 6 NOVEMBER 2015

## CONTENTS

- Autonomous Navigation of Mars Probes by Combining Optical Data of Viewing Martian Moons and SST Data** 1019  
*Pengbin Ma, Fanghua Jiang and Hexi Baoyin*
- A Target Information Display for Visualising Collision Avoidance Manoeuvres in Various Visibility Conditions** 1041  
*Rafal Szlapczynski and Joanna Szlapczynska*
- On-line Ascent Phase Trajectory Optimal Guidance Algorithm based on Pseudo-spectral Method and Sensitivity Updates** 1056  
*Da Zhang, Lei Liu and Yongji Wang*
- Multi-AUV Underwater Cooperative Search Algorithm based on Biological Inspired Neurodynamics Model and Velocity Synthesis** 1075  
*Xiang Cao and Daqi Zhu*
- Framework to Assess an Area Control Centre's Operating Cost-efficiency: a Case Study** 1088  
*Gonzalo Tobaruela, Wolfgang Schuster, Arnab Majumdar and Washington Y. Ochieng*
- Spatial and Seasonal Ionospheric Error Growth in DGPS Measurement: A Case Study in Malaysia** 1105  
*W.A. Wan Aris, T.A. Musa, W.H. Ooi, A. Hairizam, I.A. Musliman, R. Othman, S.I. Moslin and K.A. Abdullah*
- Impact of Navigational Safety Level on Seaport Fairway Capacity** 1120  
*Wenyuan Wang, Yun Peng, Xiangqun Song and Yong Zhou*
- A Differential Measurement Method for Solving the Ephemeris Observability Issues in Autonomous Navigation** 1133  
*Shilong Liao, Zhaoxiang Qi and Zhenghong Tang*
- Radar and Automatic Identification System Track Fusion in an Electronic Chart Display and Information System** 1141  
*Witold Kazimierski and Andrzej Stateczny*
- Review of AUV Underwater Terrain Matching Navigation** 1155  
*Pengyun Chen, Ye Li, Yumin Su, Xiaolong Chen and Yanqing Jiang*
- A New Algorithm for Lane Level Irregular Driving Identification** 1173  
*Rui Sun, Washington Ochieng, Cheng Fang and Shaojun Feng*
- Global Maritime Surveillance by Airliner-Based AIS Detection: Preliminary Analysis** 1195  
*Simon Plass, Robert Poehlmann, Romain Hermenier and Armin Dammann*
