**The Life and Career of Hung
Ch'eng-ch'ou (1593–1665):
Public Service in a Time of
Dynastic Change**

by
Chen-main Wang

AVAILABLE SOON!

This book focuses upon the controversial character and activities of Hung Ch'eng-ch'ou, who first won distinction for his role in suppressing indigenous peasant armies in northwestern China. After being given command of the vital northeastern frontier military district, Hung was captured by the Manchu—and eventually joined his captors to assist them in conquering China and establishing the new Ch'ing dynasty. Although Hung has traditionally symbolized treachery and disloyalty, this book adopts a quite different focus. It brings mid-seventeenth century China to life in new ways, deepening our sense of the historical complexity of the era.

"Without sentimentalizing Hung Ch'eng-ch'ou, [the author] nonetheless forces us to see him as a quite understandable figure, one whose choice to serve the conqueror . . . was not without its principled underpinnings, and whose service was of decisive impact on the success of the Manchu conquest. In short, Hung can no longer be seen as a cardboard figure symbolizing political treachery, but must be recognized as a complex human of great capacities, striving and brilliantly succeeding in doing a job that he felt must be done."

Original Enlightenment and the Transformation of Medieval Japanese Buddhism

Jacqueline I. Stone

Original enlightenment thought (*hongaku shisō*) dominated Buddhist intellectual circles throughout Japan's medieval period. Jacqueline Stone's groundbreaking study moves beyond the treatment of the original enlightenment doctrine as abstract philosophy to explore its historical dimension. It also sheds new light on interpretive strategies employed in premodern Japanese Buddhist texts, an area that hitherto has received little attention.

The Culture of Power
The Lin Biao Incident in the Cultural Revolution

JIN QIU

Foreword by
Elizabeth J. Perry
In 1971, Lin Biao, Mao Zedong's closest comrade-in-arms and chosen successor, was killed in a mysterious plane crash in Mongolia. This book challenges the official explanation that Lin was fleeing to the Soviet Union after an unsuccessful coup attempt, and in the process it revises our understanding of China's decade-long Cultural Revolution. The author, the daughter of the Chinese air force's commander-in-chief under Lin, brings her unique credentials to bear on this in-depth reexamination of a tragic incident.

THE RISE OF MODERN CHINA

Sixth Edition

Immanuel C.Y. Hsu, *University of California, Santa Barbara*

"Perhaps the most lively account of modern China—full of meticulous data as well as fascinating episode illustrations. A great fusion of social science and humanities approaches."—Vipan Chandra, *Wheaton College* (on the previous edition)

China enters the twenty-first century in the best international position it has known since the mid-eighteenth century. The prolonged period of internal decay and external exploitation has given way to vibrant rejuvenation and national rebirth. The century-old search for wealth, power, and recognition seems to be within reach. Its growing economic, military, and political clout has earned it international acknowledgment as a regional superpower in Asia-Pacific, and as an emergent superpower possibly by 2020. *The Rise of Modern China*, now in its sixth edition, has been updated to examine the return of Hong Kong in 1997 and the return of Macao in 1999. Hsu discusses the end of the last vestiges of foreign imperialism in China, as well as China's emergence as a regional and global superpower. U.S.-China rivalry and the prospect of unification between China and Taiwan are also considered, and the further readings sections have been entirely revised.
