REVIEW

All manuscripts are sent for blind peer-review to members of the editorial board and guest reviewers. The review process generally requires three months. The receipt of submitted manuscripts will be acknowledged by the editor, from whom a decision and reviewers' comments will be received when the peer-review has been completed. Papers submitted to the journal must not previously have been published, and must not be submitted for publication to any other journal while under consideration for *Queensland Review*.

STYLE AND REFERENCING

For details of the *Queensland Review* style, please see the style and referencing guide available at journals.cambridge.org/qre

1. Authors should follow Australian spelling and punctuation conventions throughout their articles (except in quotations from other sources, where the spelling convention of the original should be retained). Use the Oxford English Dictionary.
2. Use single inverted commas, except for quotations within quotations (which have double inverted commas). Punctuation should follow closing inverted commas except for grammatically complete sentences beginning with a capital.
3. Since *Queensland Review* is a multi-disciplinary journal, we accept referencing using either the short-title (endnote) system or the author-date (Harvard) system, depending on the disciplinary base on the author. Each individual paper must conform to one or other of these systems.
4. Use endnotes, not footnotes.
5. Include a bibliography only if the author-date (Harvard) system of referencing is used.
6. Generally notes should be kept brief. Source references should be given with as little additional matter as possible.
7. Quotations should be kept to a minimum and lengthy quotations should be avoided. As a general rule, quotations of more than about 60 words should be set off from the main text (indented with extra space above and below). Those of fewer than 60 words should run on in the text inside inverted commas.
