

GLACIOLOGICAL LITERATURE

THIS is a selected list of glaciological literature on the scientific study of snow and ice and of their effects on the Earth; for the literature on polar expeditions, and also on the "applied" aspects of glaciology, such as snow ploughs, readers should consult the bibliographies in each issue of the *Polar Record*. For Russian material the system of transliteration used is that agreed by the U.S. Board on Geographic Names and the Permanent Committee on Geographical Names for British Official Use in 1947. Readers can greatly assist by sending reprints of their publications to the Society, or by informing Dr J. W. Glen of publications of glaciological interest. It should be noted that the Society does not necessarily hold copies of the items in this list, and also that the Society does not possess facilities for microfilming or photocopying.

CONFERENCES

- AVER'YANOV, V. G. Pervoye zasedaniye Soveta Mezhdunarodnogo antarkticheskogo glyatsiologicheskogo proyekta [First meeting of the Council of the International Antarctic Glaciological Project]. *Informatsionnyy Byulleten' Sovetskoy Antarkticheskoy Ekspeditsii*, No. 82, 1971, p. 80–82. [Held in Paris, 26–28 May 1970.]
- BROWN, R. J. E., ed. Proceedings of a seminar on the permafrost active layer, 4 and 5 May 1971. Canada. National Research Council. Associate Committee on Geotechnical Research. Technical Memorandum No. 103, 1971, ii, 63 p. [The following papers were presented: R. J. E. Brown, "Characteristics of the active layer in the permafrost region of Canada", p. 1–7; G. P. Williams, "Surface heat exchange and permafrost", p. 8–11; J. D. Molland, "Photo interpretation and the active layer", p. 13–19; A. Cailleux, "Observations", p. 20–25; J. R. Mackay, "Ground ice in the active layer and the top portion of permafrost", p. 26–30; A. Heginbottom, "Some effects of a forest fire on the permafrost active layer at Inuvik, N. W. T.", p. 31–36; L. C. Bliss and R. W. Wein, "Changes to the active layer caused by surface disturbance", p. 37–46; J. R. Radforth, "Effects of off-road vehicle trials on the active layer in tundra", p. 48–49; J. Y. C. Quong, "Highway construction and permafrost with special reference to the active layer", p. 50–53; K. L. Hall, "Performance of experimental pipeline at Inuvik, N.W.T. in relation to active layer", p. 54–62.]
- [CONFERENCE: ICEBERGS.] *Proceedings of the Canadian seminar on icebergs held at the Canadian Forces Maritime Warfare School, CFB Halifax, Halifax, Nova Scotia, Canada, December 6–7, 1971, under auspices of the Commander, Maritime Command, Canadian Forces*. [Ottawa, Dept. of National Defence, 1971.] [viii], 175 p. [For details of individual papers see elsewhere in this list.]
- GOLUBEV, G. N., and KOTLYAKOV, V. M. Mezhdunarodnyy simpozium po gidrologii lednikov v Kembridzhe [International symposium on the hydrology of glaciers at Cambridge]. *Materialy Glyatsiologicheskikh Issledovaniy. Khronika. Obsuzhdeniya*, Vyp. 17, 1970, p. 15–20. [Glaciological Society symposium, 8–12 September 1969.]

GENERAL GLACIOLOGY

- GAYEVSKAYA, O. V. Izobrazheniye oblachnosti nad l'dom na televizionnykh snimkakh, poluchennykh s sputnikov sistemy "Meteor" [Cloud cover over ice shown in photographs obtained from "Meteor" satellites]. *Antarktika. Doklady Komissii*, 1969, [pub.] 1971, p. 122–28.
- [INTERNATIONAL HYDROLOGICAL DECADE.] *Scientific framework of world water balance*. Paris, UNESCO, 1971. 27 p. (Technical Papers in Hydrology, 7.) [Frozen water is included as a parameter of the hydrological cycle.]
- [INTERNATIONAL HYDROLOGICAL DECADE.] *Textbooks on hydrology. Analyses and synoptic tables of contents of selected textbooks. A contribution to the International Hydrological Decade*. Paris, UNESCO, 1970. 185 p. (Technical Papers in Hydrology, 6.) [Part A contains the detailed analysis of 19 different works published in English, French, Russian, Spanish, German and Italian. Part B compares the contents of the hydrological textbooks available to the compilers, regardless of language.]
- KOTLYAKOV, V. M., and CHERNOVA, L. P., comp. Annotirovannyy spisok sovetskoy literatury po glyatsiologii (1967–1968 gg.) [Annotated list of Soviet publications in glaciology (1967–68)]. *Materialy Glyatsiologicheskikh Issledovaniy. Khronika. Obsuzhdeniya*, Vyp. 18, 1971, p. 219–319. [Papers dealing with glaciers and ice cover in the U.S.S.R. and Antarctica, mechanical properties of snow and avalanches, and distribution of seasonal snow cover in non-glaciated areas of the U.S.S.R. English summary, p. 219.]
- VINOGRADOV, O. N., and KRENKE, A. N. Glyatsiologicheskiye issledovaniya Instituta Geografii AN SSSR na Kavkaze po programme Mezhdunarodnogo Gidrologicheskogo Desyatilieta v 1966–1968 gg. [Glaciological investigations of the Institute of Geography of the Academy of Sciences of the U.S.S.R. in the Caucasus within the International Hydrological Decade in 1966–68]. *Materialy Glyatsiologicheskikh Issledovaniy. Khronika. Obsuzhdeniya*, Vyp. 17, 1970, p. 243–52. [Main aim is to investigate run-off from representative glaciers, and changes in this caused by climatic variations. English summary, p. 303–04.]

GLACIOLOGICAL INSTRUMENTS AND METHODS

- MIKHEYEV, S. V. O bureniyi l'da ognevym sposobom [On the drilling of ice by the thermic method]. *Materialy Glyatsiologicheskikh Issledovaniy. Khronika. Obsuzhdeniya*, Vyp. 18, 1971, p. 160–63. [Describes method of thermal drilling. English summary, p. 163.]

PHYSICS OF ICE
