# THE ROYAL INSTITUTE OF NAVIGATION

## *Aims and Objects*

The objects of the Institute are to unite in one body those who are concerned with or who are interested in navigation and to further its development. Navigation is conceived as applying to locomotion of all kinds and is perceived as encompassing aspects of: command and control, psychology and zoology, operational research, risk analysis, theoretical physics, operation in hostile environments, instrumentation, ergonomics, financial planning and law as well as electronics, astronomy, mathematics, cartography and other subjects traditionally associated with navigation.

The aims of the Institute are to encourage the creation and dissemination of knowledge through research and development, to co-ordinate information from all the disciplines involved, to provide a forum in which new ideas and new products can have the benefit of informed and professional scrutiny and to further education and communication. The Institute initiates conferences and symposia on specific subjects and has a programme of meetings at which lectures are given and discussed. There are standing Special Interest Groups (SIGs), which keep under constant review pertinent aspects of navigation. The success of these Special Interest Groups is crucially dependent on the active involvement of members.

The SIGs include: Land Navigation and Location Group (LN&L), General Aviation Navigation Group (GANG), History of Air Navigation Group (HANG), Civil and Military Air Group (CMAG), Marine Traffic & Navigation Group (MT&NG), Small Craft Group (SCG), Space Group (Space), Animal Navigation Group (ANG) and Research & Development Group (R&D).

The Institute publishes *The Journal of Navigation* six times a year. It contains papers which have been presented at meetings, other original papers and selected papers and reports from Special Interest Groups. The Institute also publishes *Navigation News* six times a year which contains a full account of the Institute's proceedings and activities. This includes Branch News, a record of current navigational work, a diary of events, topical articles, news about Membership and advertising. A great deal of the Institute's work is international in character and is coordinated with that of similar organisations in other countries.

## *Membership*

There are nine classes of membership under which individuals or organisations may apply to join the Institute. Details of the various membership criteria and current subscriptions are available on the RIN website (Home / Join the RIN / Membership Types <http://www.rin.org.uk/general.aspx?ID=59>) and from the Membership Secretary ([membership@rin.org.uk](mailto:membership@rin.org.uk) Tel: +44(0)20 7591 3130 Fax: 44(0)20 7591 3131).

- (1) Ordinary Membership
- (2) Associate Membership
- (3) Associate Fellow Membership
- (4) Student Membership
- (5) Junior Associate Membership
- (6) Corporate Membership
- (7) Small Business Membership
- (8) Affiliate College University Membership
- (9) Affiliate Club Membership

Additional membership classes of Fellowship, Honorary Fellowship, Retired Membership and Affiliate Membership also exist and details are available from the Membership Secretary.

The subscription price (excluding VAT) to *The Journal* (ISSN 0373-4633) for Volume 69, 2016, which includes print and electronic access, is £575 (USA, Canada and Mexico US \$1040) and includes delivery by air; single parts are available at £105 (USA, Canada and Mexico US \$188) plus postage. The electronic-only price available to institutional subscribers is £446 (USA, Canada and Mexico US \$813). EU subscribers (outside the UK) who are not registered for VAT should add VAT at their country's rate. VAT registered subscribers should provide their VAT registration number. The *Journal* is issued free to all Members of the Institute. Orders, which must be accompanied by payment, may be sent to any bookseller or subscription agent or direct to the publishers: Cambridge University Press, 100 Brook Hill Drive, West Nyack, New York 10994-2133. Japanese prices for institutions are available from Kinokuniya Company Ltd, P.O. Box 55, Chitose, Tokyo 156, Japan.

# THE JOURNAL OF NAVIGATION

VOLUME 69 NUMBER 1 JANUARY 2016

## CONTENTS

- Reconstructing the Malaysian 370 Flight Trajectory by Optimal Search** 1  
*Octavian Thor Pleter, Cristian Emil Constantinescu and Barna Istvan Jakab*
- Seamless Pedestrian Positioning and Navigation Using Landmarks** 24  
*Anahid Basiri, Pouria Amirian, Adam Winstanley, Stuart Marsh, Terry Moore and Guillaume Gales*
- Navigation Performance of the Libration Point Satellite Navigation System for Future Mars Exploration** 41  
*Lei Zhang and Bo Xu*
- A New Approach to Calculate the Horizontal Protection Level** 57  
*Yiping Jiang and Jinling Wang*
- Global Energy-saving Map of Strong Ocean Currents** 75  
*Yu-Chia Chang, Ruo-Shan Tseng, Peter C Chu and Huan-jie Shao*
- A Fast Gradual Fault Detection Method for Underwater Integrated Navigation Systems** 93  
*Liu Yi-ting, Xu Xiao-su, Liu Xi-xiang, Zhang Tao, Li Yao, Yao Yi-qing, Wu Liang and Tong Jin-wu*
- Estimation of Shallow Water Depth Using HJ-1C S-band SAR Data** 113  
*Xiaolin Bian, Yun Shao, Wei Tian and Chunyan Zhang*
- Assessment of the Storm Avoidance Effect on the Wave Climate along the Main North Atlantic Routes** 127  
*Roberto Vettor and C. Guedes Soares*
- Some Remarks on PDOP and TDOP for Multi-GNSS Constellations** 145  
*Yunlong Teng and Jinling Wang*
- Completeness and Accuracy of a Wide-Area Maritime Situational Picture based on Automatic Ship Reporting Systems** 156  
*Harm Greidanus, Marlene Alvarez, Torkild Eriksen and Vincenzo Gammieri*
- Compensation for Stochastic Error of Gyros in a Dual-axis Rotational Inertial Navigation System** 169  
*Zhichao Zheng, Songlai Han, Jin Yue and Linglong Yuan*
- Modelling Collision Potentials in Port Anchorages: Application of the Navigational Traffic Conflict Technique (NTCT)** 183  
*Ashim Kumar Debnath and Hoong Chor Chin*
- Performance Comparison between the Multi-Colony and Multi-Pheromone ACO Algorithms for Solving the Multi-objective Routing Problem in a Public Transportation Network** 197  
*Hamed Faraqi and Mohammad saadi Mesgari*
- GNSS Network RTK Regional Ionospheric Modelling Studies And Performance Analysis** 211  
*Weiming Tang, Lei Jin, Jianhui Cui, Chuang Shi and Yongfeng Zhang*
