THE JOURNAL OF MODERN AFRICAN STUDIES

The Journal of Modern African Studies is a quarterly survey of politics, economics and related topics in contemporary Africa, publishing articles and book reviews. The main emphasis is upon the peoples and policies, the problems and progress of this dynamic and disparate continent; upon the many societies that are evolving rather than the essential characteristics of the old; and upon the present, rather than the past. The best current work is sought from specialists in different academic disciplines, whose contributions can illuminate and cross-fertilize one another. Editorial policy avoids commitment to any political viewpoint or ideology but aims at a fair examination of controversial issues. The journal seeks to promote a deeper understanding of what is happening in Africa today.
