The Metamorphoses of Persephone

Ovid and the Self-conscious Muse

STEPHEN HINDS

Dr Hinds gives a close reading of the two accounts of the myth of Persephone to be found in Ovid's poetry, the one in *Metamorphoses* 5, the other in *Fasti* 4. The book is at once a literary historical enquiry into the double transformation of the rape of Persephone and a critical exploration of the self-conscious delight in language and writing manifested in and between these twin Ovidian narratives.

Propertius: A Hellenistic Poet on Love and Death

THEODORE D. PAPANGHELIS

This book examines the theme of erotic death which characterised the poetry of Propertius. The author studies the structure, imagery, word-play, ambiguity and allusive technique of the elegies, revealing a 'learned' and sensuous poet building up his poetry with material whose significance for his aesthetic has not always been fully appreciated.

Classicist Philip Spann breaks new ground for English-language readers in this account of a military genius whose strategy and tactics are a virtual textbook for today's brushfire wars. Hispaniae

Spain and the Development of Roman Imperialism, 218-82 BC
J. S. RICHARDSON

This book traces the beginnings and the first 140 years of the Roman presence in Spain, showing how what began as a purely military commitment developed into a range of civilian activities, including taxation and the founding of both Roman and native settlements. Thus the book is of major importance to an understanding of the spread of Roman power in this period throughout the Mediterranean world.

The Ruling Class of Judaea

The Origins of the Jewish Revolt Against Rome AD 66-70
MARTIN GOODMAN

This book examines why in AD 66 a revolt against Rome broke out in Judaea. It shows that the ultimate cause of the revolt was a misunderstanding by Rome of the status criteria of Jewish society, and sheds light on Rome's inability to control a society with cultural values so different from its own.

Listening to the Cicadas

A Study of Plato's *Phaedrus*
G. R. F. FERRARI

This is a full-length study of Plato's dialogue *Phaedrus*, written in the belief that such concerted scrutiny of a single dialogue is an important part of the project of understanding Plato so far as possible 'from the inside' – of gaining a feel for the man's philosophy. The focus of this account is on how the resources both of persuasive myth and of formal argument complement and reinforce each other in his philosophy.

Disguise and Recognition in the *Odyssey*

Sheila Murnaghan

The motifs of disguise and recognition of identity are commonly recognized as traditional features of the *Odyssey's* plot. Now this distinctive reading shows how those motifs are used not only to tell the story of Odysseus' return but also to explore the central values of Homeric society. In a world where identity is largely defined through the esteem of others, the recognition of identity represents the acknowledgement of heroic prestige.

David H. Porter

"This is a bold and exacting piece of literary criticism that will offer a fresh measure by which to approach one of the great lyricists. Furthermore, it is one of the most convincing arguments for an ancient poet's arrangement of his own poetry into books and groups of books that I have seen."
