Editorial	
Time for leadership development interventions in the public health nutrition workforce <i>R Hughes</i>	1029
In this issue <i>R Hughes</i>	1030
A capacity-building conceptual framework for public health nutrition practice <i>E Baillie, C Bjarnholt, M Gruber and R Hughes</i>	1031
Invited article	
A survey among potential employers for developing a curriculum in public health nutrition <i>LE Torheim, GI Granli, I Barikmo and A Oshaug</i>	1039
Turning dilemmas into opportunities: a UNU/SCN capacity development network in public nutrition in Central and Eastern Europe <i>M Pavlovic, F Pepping, M Demes, L Biro, P Szabolcs, Z Dimitrovska, V Duleva, C Parvan, AF Hadziomeragic, M Glibetic and A Oshaug</i>	1046
Genetic analysis of self-reported physical activity and adiposity: The Southwest Ohio Family Study <i>AC Chob, EW Demerath, M Lee, KD Williams, B Towne, RM Siervogel, SA Cole and SA Czerwinski</i>	1052
Association between obesity indices and blood pressure or hypertension: which index is the best? <i>Z Zhou, D Hu and J Chen</i>	1061
Validity of adult lifetime self-reported body weight <i>S Kovalchik</i>	1072
Abdominal obesity and the prevalence of diabetes and intermediate hyperglycaemia in Chinese adults <i>Y He, F Zhai, G Ma, EJM Feskens, J Zhang, P Fu, P Van't Veer and X Yang</i>	1078
Can anthropometry measure gender discrimination? An analysis using WHO standards to assess the growth of Bangladeshi children <i>H Moestue</i>	1085
Monetary cost of dietary energy is negatively associated with BMI and waist circumference, but not with other metabolic risk factors, in young Japanese women <i>K Murakami, S Sasaki, Y Takahashi, K Uenishi and the Japan Dietetic Students' Study for Nutrition and Biomarkers Group</i>	1092
Maternal perceptions of their child's weight status: the GENESIS study <i>Y Manios, K Kondaki, G Kourlaba, E Vasilopoulou and E Grammatikaki</i>	1099
Fast-food and sweetened beverage consumption: association with overweight and high waist circumference in adolescents <i>DK Francis, J Van den Broeck, N Younger, S McFarlane, K Rudder, G Gordon-Strachan, A Grant, A Johnson, M Tulloch-Reid and R Wilks</i>	1106
Meal patterns among children and adolescents and their associations with weight status and parental characteristics <i>A Würbach, K Zellner and K Kromeyer-Hauschild</i>	1115
Impact of body mass on hospital resource use in total hip arthroplasty <i>JA Batsis, JM Naessens, MT Keegan, AE Wagie, PM Huddleston and JM Huddleston</i>	1122
Food insecurity and maternal depression in rural, low-income families: a longitudinal investigation <i>C Huddleston-Casas, R Charnigo and LA Simmons</i>	1133
Risk factors for stunting among under-fives in Libya <i>A El Taguri, I Betimal, SM Mahmud, AM Ahmed, O Goulet, P Galan and S Hercberg</i>	1141

Contents continued on backmatter

*Public Health Nutrition* provides a forum for the presentation of original research findings in the field of Public Health Nutrition. It offers a population-based approach to the practical application of research findings. The Journal provides a timely vehicle for lively discussion of current controversies. In addition, it also includes high quality reviews of key topics and seeks to identify and publish special supplements on major topics of interest to readers. As a contributor you should note and follow the guidelines set out below.

#### Content:

- Original research findings – published as either full papers of 4000 words, not including tables, figures or references, or Short Communications of about 2000 words on key issues, fast-tracked through the editorial system.
- Topical review papers – the Editors will invite topical reviews and also consider suggestions from authors who should submit an outline of the review in the first instance.
- Editorial comment – including guest editorials on key papers published in the journal.
- Letters to the Editors – addressing material published in *Public Health Nutrition*.

**Submission:** All manuscripts must be submitted onto our online submission system: <http://phn.msubmit.net>

**Refereeing:** All contributions are read by two or more referees to ensure both accuracy and relevance, and revision may thus be required before final acceptance. Authors are asked to submit the names and contact details (including email address if available) of up to four potential referees for their paper. On acceptance, contributions are subject to editorial amendment to conform to house style.

**Copyright:** At the time of acceptance the authors will be asked to provide a completed copy of the 'Licence to Publish' (in lieu of copyright transfer), which is available on the Nutrition Society's web pages (<http://www.nutritionociety.org>). It is the author's responsibility to obtain written permission to reproduce any material (including text and figures) that has appeared in another publication.

**Preparation of Manuscripts:** Please refer to our Full Directions to Authors on our website: (<http://www.nutritionociety.org>). You should write in clear and concise English and spelling should follow the Oxford English Dictionary. Authors whose native tongue is not English are assured that in-house editorial attention to their contributions will improve clarity.

Manuscripts should be prepared in a common word processing package (Word for Windows is preferred), in Times New Roman, or other common typeface, set up as double-spaced text with ample margins. Page and line numbers should be inserted. Standard abbreviations (e.g. Fig. and Figs.) and SI units must be used.

The submission must include a statement reporting any conflicts of interest, all sources of funding and the contribution of each author to the manuscript. If there are no conflicts of interest this must be stated. The author will be asked to provide this information during the submission process and should not include it as part of the manuscript. This enables double-blind reviewing.

#### Arrangement of Papers:

1. **Title page** including the article title, author(s), affiliation(s), keywords and one author identified for correspondence (please include the full postal address, telephone and fax numbers, and an email address where available). A short title of up to 45 characters should be provided as a running head. **The title page should be submitted online as a separate cover letter, not as part of the manuscript.** This enables double-blind reviewing.
2. A structured **abstract** using the following headings: Objective, Design, Setting, Subjects, Results, Conclusions. The abstracts should be intelligible without reference to text or figures. It should not exceed 250 words in total.
3. The **text** divided under appropriate headings.
4. **Acknowledgements** (sources of funding, conflict of interest declaration, authorship responsibilities, acknowledgements): **should be provided when requested during the submission process, not as part of the manuscript.**
5. **References** should be in Vancouver style – please refer to the full Directions to Authors.
6. **Tables** should be reduced to the simplest form and should not be used where the text or figures give the same information. Each table must be accompanied by a clear and concise caption.
7. **Figures** should be numbered and legends should be provided. Each figure, with its legend, should be comprehensible without reference to the text and should include definitions of abbreviations.

**Offprints:** The main author will receive a PDF of their published paper free of charge. Offprints are available to purchase and can be ordered before publication.

**Proofs:** Correspondence and proofs for correction will be emailed to the first named author unless otherwise indicated. The author will receive a PDF proof for checking. It is important that proofs be returned promptly. Authors may be charged for any alterations in excess of 10% of original setting.

#### Submission of manuscripts and correspondence:

PHN operates an on-line submission and reviewing system (eJournalPress). Authors should submit to the following address: <http://phn.msubmit.net/> If any difficulties are encountered, please contact the Publications Office immediately at [phn@nutsoc.org.uk](mailto:phn@nutsoc.org.uk)

Book review	
How big should we be? A Herculean task accomplished	1299
<i>SM Marson</i>	
Out of the Box	1301
<i>G Cannon</i>	
Letters to the Editor	1305
Corrigendum	
A simple assessment of physical activity is associated with obesity and motor fitness in pre-school children – Corrigendum	1308
<i>O Bayer, G Bolte, G Morlock, S Rückinger, R von Kries and for the GME-Study Group</i>	

Contents continued from outside back cover

Prevalence and sociodemographic risk factors related to household food security in Aboriginal peoples in Canada <i>ND Willows, P Veugelers, K Raine and S Kuble</i>	1150
The strengths and weaknesses of dietary survey methods in materially deprived households in England: a discussion paper <i>B Holmes and M Nelson</i>	1157
Diet quality: associations with health messages included in the Danish Dietary Guidelines 2005, personal attitudes and social factors <i>A Biloft-Jensen, MV Groth, J Matthiessen, H Wachmann, T Christensen and S Fagt</i>	1165
Food patterns and Mediterranean diet in western and eastern Mediterranean islands <i>D Romaguera, C Bamia, A Pons, JA Tur and A Trichopoulou</i>	1174
A commentary on current practice in mediating variable analyses in behavioural nutrition and physical activity <i>E Cerin and DP MacKinnon</i>	1182
Predictors of nutritional status among community-dwelling older adults in Wuhan, China <i>Y Han, S Li and Y Zheng</i>	1189
A comparison of weighed and recalled intakes for schoolchildren and mothers in rural Kenya <i>CA Gewa, SP Murphy and CG Neumann</i>	1197
Impact of targeted food supplementation on pregnancy weight gain and birth weight in rural Bangladesh: an assessment of the Bangladesh Integrated Nutrition Program (BINP) <i>S Nabar, CGN Mascie-Taylor and HA Begum</i>	1205
Long-term effects of the Dutch Schoolgruitem Project – promoting fruit and vegetable consumption among primary-school children <i>NI Tak, SJ te Velde and J Brug</i>	1213
Children's and parents' perceptions of the determinants of children's fruit and vegetable intake in a low-intake population <i>AG Kristjansdottir, I De Bourdeaudhuij, K-I Klepp and I Thorsdottir</i>	1224
The impact of rapid economic growth and globalization on zinc nutrition in South Korea <i>I-S Kwun, M-S Do, H-R Chung, Y ba Kim and JH Beattie</i>	1234
A simple assessment of physical activity is associated with obesity and motor fitness in pre-school children <i>O Bayer, G Bolte, G Morlock, S Rückinger, R von Kries for the GME-Study Group</i>	1242
Increasing dietary fish intake has contributed to decreasing mortality from CHD among the older population in Hong Kong <i>X-H Zhang, J Woo and RF Heller</i>	1248
What maternal factors influence the diet of 2-year-old children living in deprived areas? A cross-sectional survey <i>IK Crombie, K Kiezebrink, L Irvine, WL Wrieden, V Swanson, K Power and PW Slane</i>	1254
Relationship between fish intake, <i>n</i> -3 fatty acids, mercury and risk markers of CHD (National Health and Nutrition Examination Survey 1999–2002) <i>KM Smith, LM Barraij, M Kantor and NR Sahyoun</i>	1261
A comparison of the fat composition and prices of margarines between 2002 and 2006, when new Canadian labelling regulations came into effect <i>L Ricciuto, K Lin and V Tarasuk</i>	1270
Maternal cereal consumption and adequacy of micronutrient intake in the periconceptional period <i>MS Parrott, LM Bodnar, HN Simban, G Harger, N Markovic and JM Roberts</i>	1276
Comparing diet composition and growth of children living in two liminary Greek islands (Samos and Corfu) <i>MG Grammatikopoulou, E Daskalou, M Hatzopoulou, L Sourtzinou and M Tsigga</i>	1284
Monetary cost of self-reported diet in relation to biomarker-based estimates of nutrient intake in young Japanese women <i>K Murakami, S Sasaki, Y Takahashi, K Uenishi and the Japan Dietetic Students' Study for Nutrition and Biomarkers Group</i>	1290
