

## Index to Volume 6

- BEDFORD, T. Generating special Markov partitions for hyperbolic toral automorphisms using fractals, 325
- BLANCO GARCÍA, C. Chaos and topological entropy in dimension  $n > 1$ , 163
- BLOCK, L. AND COVEN, E. M.  $\omega$ -limit sets for maps of the interval, 335
- BOYD, D. W. Perron units which are not Mahler measures, 485
- BROER, H. W. AND TANGERMAN, F. M. From a differentiable to a real analytic perturbation theory, applications to the Kupka-Smale theorems, 345
- COVEN, E. M. AND MULVEY, I. Transitivity and the centre for maps of the circle, 1
- COVEN, E. M. *See* BLOCK, L. *and* COVEN, E. M.
- DANI, S. G. On orbits of unipotent flows on homogeneous spaces, II, 167
- DANI, S. G. Corrections to the paper 'On orbits of unipotent flows on homogeneous spaces', 321
- DEVANEY, R. L. AND TANGERMAN, F. Dynamics of entire functions near the essential singularity, 489
- FIELDSTEEL, A. AND FRIEDMAN, N. A. Restricted orbit changes of ergodic  $\mathbb{Z}^d$ -actions to achieve mixing and completely positive entropy, 505
- FRIED, D. Anosov foliations and cohomology, 9
- FRIEDMAN, N. A. *See* FIELDSTEEL, A. *and* FRIEDMAN, N. A.
- GOLDBERG, L. R. AND KEEN, L. A finiteness theorem for a dynamical class of entire functions, 183
- GOODMAN, S. Vector fields with transverse foliations, 193
- GUTIERREZ, C. Smoothing continuous flows on two manifolds and recurrences, 17
- GUTIERREZ, C. On the  $C^r$ -closing lemma for flows on the torus  $T^2$ , 45
- HANDELMAN, D. Deciding eventual positivity of polynomials, 57
- HOCKETT, K. AND HOLMES, P. Joseph Son's junction, annulus maps, Birkhoff attractors, horseshoes and rotation sets, 205
- HOLMES, P. *See* HOCKETT, K. *and* HOLMES, P.
- HOST, B. Valeurs propres des systèmes dynamiques définis par des substitutions de longueur variable, 529
- HURDER, S., OLESEN, D., RAEBURN, I. AND ROSENBERG, J. The Connes spectrum for actions of Abelian groups on continuous-trace algebras, 541
- HURLEY, M. Multiple attractors in Newton's method, 561
- IRWIN, M. C. Hölder continuous paths and hyperbolic toral automorphisms, 241
- KEEN, L. *See* GOLDBERG, L. R. *and* KEEN, L.
- KIM, K. H. AND ROUSH, F. W. On strong shift equivalence over a Boolean semiring, 81
- KING, J. The commutant is the weak closure of the powers, for rank-1 transformations, 363
- LEWOWICZ, J. AND LIMA DE SÁ, E. Analytic models of pseudo-Anosov maps, 375
- LIMA DE SÁ, E. *See* LEWOWICZ, H. *and* LIMA DE SÁ, E.
- LIND, D. The spectra of topological Markov shifts, 571
- LOPES, A. O. Equilibrium measures for rational maps, 393
- MALTA, I. On Denjoy's theorem for endomorphisms, 259
- MASUR, H. Measured foliations and handlebodies, 99
- MISIUREWICZ, M. Rotation intervals for a class of maps of the real line into itself, 117
- MOSER, J. Monotone twist mappings and the calculus of variations, 409
- MULVEY, I. *See* COVEN, E. M. *and* MULVEY, I.

- NASU, M. Topological conjugacy for sofic shifts, 265
- OLESEN, D. *See* HURDER, S. *et al.*
- PARRY, W. AND POLLICOTT, M. The Chebotarov theorem for Galois coverings of Axiom A flows, 133
- PETERSEN, K. Chains, entropy, coding, 415
- PLANTE, J. F. Fixed points of Lie groups actions on surfaces, 149
- POLLICOTT, M. *See* PARRY, W. AND POLLICOTT, M.
- RAEBURN, I. *See* HURDER, S. *et al.*
- ROBINSON, C. Errata to 'Transitivity and invariant measures for the geometric model of the Lorenz equations', 323
- ROSENBERG, J. *See* HURDER, S. *et al.*
- ROUSH, F. W. *See* KIM, K. H. AND ROUSH, F. W.
- RUDOLPH, D. J.  $\mathbb{Z}^n$  and  $\mathbb{R}^n$  cocycle extensions and complementary algebras, 583
- SERIES, C. Geometrical Markov coding of geodesics on surfaces of constant negative curvature, 601
- TANGERMANN, F. *See* BROER, H. W. AND TANGERMANN, F. M. *and* DEVANEY, R. L. AND TANGERMANN, F.
- TROW, P. Resolving maps which commute with a power of the shift, 281
- URBAŃSKI, M. On Hausdorff dimension of invariant sets for expanding maps of a circle, 295
- VEECH, W. A. Periodic points and invariant pseudomeasures for toral endomorphisms, 449
- VOICULESCU, D. Almost inductive limit automorphisms and embeddings into AF-algebras, 475
- YOUNG, L.-S. Stochastic stability of hyperbolic attractors, 311
- YOUNG, L.-S. Random perturbations of matrix cocycles, 627
- ZIMMER, R. J. On connection-preserving actions of discrete linear groups, 639
