

# Astronomical Society of Australia

Proceedings

Volume 7 Number 4 1988

## *Early events I*

|                                   |   |     |
|-----------------------------------|---|-----|
| SN 1987A: an overview             | Michael A. Dopita   | 344 |
| The discovery                     | R.D. McNaught   | 352 |
| Recent results on SN 1987A        | S.E. Woosley, P.A. Pinto & T.A. Weaver  | 355 |
| Protoneutron star formation       | Adam Burrows  | 371 |
| The elusive radio source SN 1987A | John E. Reynolds, R.W. Livermore,<br>David L. Jauncey, Robert A. Preston,<br>Samuel Gulkis & Norbert Bartel | 382 |

|   |                               |     |
|---|-------------------------------|-----|
| SN 1987A: interpretation of radio<br>observations | R.N. Manchester & M.C. Storey | 384 |
|---|-------------------------------|-----|

|                                       |           |     |
|---------------------------------------|-----------|-----|
| The progenitor star and its evolution | P.R. Wood | 386 |
|---------------------------------------|-----------|-----|

## *UV and optical*

|  |                  |     |
|--|------------------|-----|
| UV observations of SN 1987A  | N. Panagia       | 390 |
| SN 1987A in the UV: the progenitor star, the<br>reddening and the possible detection of a UV<br>light echo | Roberto Gilmozzi | 397 |

|                           |              |     |
|---------------------------|--------------|-----|
| SN 1987A: the light curve | J.W. Menzies | 401 |
|---------------------------|--------------|-----|

|  |   |     |
|--|---|-----|
| Spectropolarimetry of SN 1987A with the AAT                        | Jeremy Bailey   | 405 |
| Optical and infrared observations of SN 1987A<br>from Cerro Tololo | D.M. Terndrup, J.H. Ellis, B. Gregory,<br>S.R. Heathcote, M.M. Phillips,<br>N.B. Suntzeff & R.E. Williams | 412 |

|   |           |     |
|---|-----------|-----|
| Recent observational investigations of<br>SN 1987A at ESO | L.B. Lucy | 423 |
|---|-----------|-----|

## *Optical spectra*

|  |                                |     |
|--|--------------------------------|-----|
| Optical spectroscopy of SN 1987A                                     | J.B. Hearnshaw & V.J. McIntyre | 424 |
| The early spectra of SN 1987A  | R.P. Harkness & J.C. Wheeler   | 431 |
| Spectral analysis of SN 1987A: the first 7<br>months                 | P. Höflich                     | 434 |
| How unique was SN 1987A?   | S. van den Bergh               | 443 |
| Absolute spectroscopy of SN 1987A and the<br>H $\alpha$ Bochum event | Reinhard W. Hanuschik          | 446 |

## *Infrared*

|   |                   |     |
|---|-------------------|-----|
| Observations of SN 1987A in the near-infrared                                       | Peter J. McGregor | 450 |
| Observations of SN 1987A in the mid-infrared  | D.K. Aitken       | 462 |
| Infrared observations of SN 1987A: probing<br>the ejecta and its surrounding medium | E. Dwek           | 468 |
| Review of speckle observations of SN 1987A  | W.P.S. Meikle     | 473 |

*High energy*

|  |                       |     |
|--|-----------------------|-----|
| Observations of SN 1987A from Ginga                | H. Inoue              | 479 |
| High energy $\gamma$ -ray observations of SN 1987A | R. Sood <i>et al.</i> | 486 |

*Late evolution*

|   |   |     |
|---|---|-----|
| New developments in theoretical modelling<br>of SN 1987A        | Ken'ichi Nomoto, Toshikazu<br>Shigeyama, Shiomi Kumagai &<br>Masa-aki Hashimoto | 490 |
| Simple perspectives on SN 1987A                                 | A. Fu   | 505 |
| Late evolution of SN 1987A                                      | Roger A. Chevalier  | 513 |
| The circumstellar emission from SN 1987A                        | Claes Fransson  | 520 |
| AAT observations of the interstellar medium<br>towards SN 1987A | M. Pettini  | 468 |
| Shells around hot stars   | T.A. Lozinskaya   | 535 |
| Taxonomy of supernovae  | Alexei V. Filippenko  | 540 |
| Searches for a pulsar in SN 1987A                               | R.N. Manchester   | 548 |
| Summary of the Conference                                       | S. van den Bergh  | 550 |
| Contents Nos 1, 2, 3, 4   |   | 552 |
| Index for Volume 7  |   | 559 |
