

## Table of Contents

O-2A-1	<b>Birth weight versus child order: which one is more important for intellectual development at 5y?</b>	S1
	M. Galván, C. Corvalán, J. Kain, R. Uauy	
O-2A-2	<b>High pregnancy anxiety during mid-gestation is associated with decreased gray matter density in 6–9 year-old children</b>	S1
	C. Buss, E.P. Davis, L.T. Muftuler, K. Head, C.A. Sandman	
O-2A-3	<b>Cognitive functioning in individuals who were prenatally exposed to famine: results from the Dutch Famine Birth Cohort</b>	S2
	H. Wouters, T.J. Roseboom, J. Yonker, R.C. Painter, S.R. de Rooij	
O-2A-4	<b>Effects of prenatal betamethasone exposure on autonomic function and cortical activity at the age of eight years – a pilot study</b>	S2
	M. Schwab, I. Thoms, K. Schwab, S. Heinemann, S. Rupprecht, H. Hoyer, D. Hoyer, E. Schleussner	
O-2B-5	<b>Size at birth is related to grip strength in 9 year-old Indian children: findings from the Mysore Parthenon Study</b>	S3
	J.G. Barr, S.R. Veena, K.N. Kiran, A.K. Wills, S. Kehoe, C.H.D. Fall, A. Aihie Sayer, G.V. Krishnaveni	
O-2B-6	<b>Increase in Weight for Age is Associated with Increased Fat-Free Mass in Healthy Children</b>	S4
	D. Hoffman, T. Toro-Ramos, Y. Kim	
O-2B-7	<b>Abdominal wall fat index in neonates: correlation with birth size</b>	S4
	J.G. Alves, M.P. Farias, R.M. Gazineu, F. Bandeira, R. Santos, E.J. Silva	
O-2B-8	<b>High infant mortality in the past could explain current stroke mortality at Brazil?</b>	S5
	J.G. Alves, J.N. Figueiroa, J.S. Meneses	
O-2C-9	<b>T-Lymphocytes from malnourished infants are characterized by being short-lived and dysfunctional cells</b>	S5
	G. Badr, D. Sayed, I.M. Alhazza, K.E. Elsayh, S.H. Alwasel	
O-2C-10	<b>Immunological programming of the neonatal inflammatory response following <i>in utero</i> LPS exposure</b>	S6
	M.W. Kemp, B.W. Kramer, J.P. Newnham, A. Jobe, S. Kallapur	
O-2C-11	<b>Severely preterm birth protects from atopy – Helsinki Study of Very Low Birth Weight Adults</b>	S7
	M. Siltanen, K. Wehkalampi, P. Hovi, J.G. Eriksson, S. Strang-Karlsson, A-L. Järvenpää, S. Andersson, E. Kajantie	
O-2C-12	<b>Effect of supplemental folic acid in pregnancy on childhood asthma: a prospective birth cohort study</b>	S8
	M.J. Whitrow, V.M. Moore, A.R. Rumbold, M.J. Davies	
O-3A-13	<b>Twin conception reduces birth weight and gestation length in sheep, regardless of fetal number in late gestation</b>	S8
	S.N. Digby, M.H. Oliver and F.H. Bloomfield	
O-3A-14	<b>Does feeding regimen between pregnancies affect the birth weight and survival of lambs?</b>	S9
	R.E. Hickson, P.R. Kenyon, H.T. Blair, J.E. Harding, M.H. Oliver, A.L. Jaquiere, G.B. Nicoll, K.G. Burt.	
O-3A-15	<b>Does dam parity affect the lambing performance of two-year-old ewes and their lambs growth and survival to weaning?</b>	S9
	P.R. Kenyon, H.T. Blair, S.T. Morris	
O-3A-16	<b>Are there inter-generational effects of grand-dam size and dam nutrition during pregnancy on lamb performance to 1-year-of age?</b>	S10
	L.C. Davenport, P.R. Kenyon, C.M.C. Jenkinson, H.T. Blair	

O-3B-17	<b>High fat diet during critical windows of development alters adrenal cortical and medullary enzyme expression in adult male offspring</b> K.L. Connor, C. Cupido, G.J. Howie, M.H. Vickers, D. M. Sloboda	S11
O-3B-18	<b>Does lower birth order amplify the association between high socio-economic status and central adiposity in young adult Filipino males? Evidence supporting the Mismatch Hypothesis</b> D.L. Dahly, L.S. Adair	S11
O-3B-19	<b>Gene-environment interactions define the relationship between the fat mass and obesity-associated gene, fetal growth and childhood obesity</b> N.M. Warrington, J.A. Marsh, C.E. Pennell, D. Mook-Kanamori, L. Briollais, S.J Lye, L.J Beilin, J.P Newnham, E. Steegers, A. Hofman, V.WV Jaddoe, L.J Palmer	S12
O-3B-20	<b>Dysregulated adipogenic transcription factor (PPAR<math>\gamma</math>) activity leads to programmed obesity in IUGR offspring</b> M. Desai, G. Han, R.H. Lane, M.G. Ross	S13
O-3C-21	<b>Estimating dairy intake in the distant past using focus group methodology: relevance for radiation dose estimation from nuclear testing in Kazakhstan</b> V. Drozdovitch, M.J. Schwerin, S. Schonfeld, S.L. Simon, N. Luckyanov, K. Mabuchi, A. Bouville, C.E. Land, Z. Zhumadilov, N. Potischman	S14
O-3C-22	<b>Birth weight – breast cancer revisited – is the association confounded by familial factors?</b> S. Öberg, S. Cnattingius, S. Sandin, P. Lichtenstein, A. Iliadou	S14
O-3C-23	<b>Quantifying apoptosis by flow cytometric method in mouse embryos exposed to valproic acid</b> M. Mallela, T.C. Hrubec	S15
O-3C-24	<b>Programming of increased early mammary tumour risk is additively and independently augmented by post-pubertal obesity</b> D.S. Fernandez-Twinn, S. Ekizoglou, M. Martin-Gronert, A. P. Wayman, J. Tarry-Adkins, J.-A. Luan, B.A. Gusterson, S.E. Ozanne	S15
O-4A-25	<b>Early life exposures and adult mortality in Puerto Rico</b> M. McEniry	S16
O-4A-26	<b>Socio-economic position over the lifecourse and all cause mortality at age 50–87 years: results from a Swedish birth cohort</b> G.D. Mishra, F. Chiesa, A. Goodman, I. Koupil	S16
O-4A-27	<b>Resveratrol reduces lipid peroxidation and increases sirtuin1 expression in adult animals programmed by neonatal protein restriction</b> J.G. Franco, M.C.F. Passos, J.C. Koury, P.A. Trotta, N.S. Lima, A. Cordeiro, L.L. Souza, P.C. Lisboa, C.C. Pazos-Moura, E.G. Moura	S17
O-4A-28	<b>Prenatal glucocorticoid exposure increases brain infarction after stroke in the aged rat</b> M. Schwab, I. Kaschowitz, S. Rupprecht, I. Antonow-Schlorke, O.W. Witte	S17
O-4B-29	<b>Relation of early weight gain with body size, body composition and fat distribution at the age of 5 in a prospective birth cohort: the ABCD study</b> M. de Beer, M. van Eijsden, T.G.M. Vrijkotte, R.J.B.J. Gemke	S18
O-4B-30	<b>Newborn size, postnatal growth and cardiovascular risk factors and body composition at 12 years (Pune Maternal Nutrition Study)</b> C. Joglekar, C.S. Yajnik, C. Osmond, C. Fall	S19
O-4B-31	<b>Growth patterns in early childhood and final attained stature: data from five birth cohorts from low and middle-income countries</b> A.D. Stein, M. Wang, R. Martorell, S.A. Norris, L.S. Adair, I. Bas, H.S. Sachdev, S.K. Bhargava, C.H.D. Fall, D.P. Gigante, C.G. Victora, on behalf of the COHORTS Group	S20
O-4B-32	<b>Life-course BMI trajectories and adult cardiovascular disease risk factors</b> L. Li, C. Power	S20
O-4C-33	<b>Clinical and gonadal hormones characteristic during puberty in girls born small for gestational age or appropriate for gestational age</b> M.I. Hernandez, G. Iñiguez, V. Peña, A. Martinez-Aguayo, A. Avila, T. Salazar, S. Asenjo, T. Capurro, V. Mericq	S21

O-4C-34	<b>Maternal protein restriction: fetal and ovarian development in adult rat offspring</b> C.C. Juliani, F.F. Mesquita, D.C. Santos, J.A.R. Gontijo, P.A. Boer	S21
O-4C-35	<b>Sex differences in infant growth and body composition: implications for the developmental origins of adult reproductive function</b> A.L. Thompson, M. Lampl	S22
O-4C-36	<b>Advanced pubertal timing in subjects born preterm – Helsinki Study of Very Low Birth Weight Adults</b> K. Wehkalampi, P. Hovi, L. Dunkel, S. Strang-Karlsson, A-L. Järvenpää, J. G. Eriksson, S. Andersson, E. Kajantie	S23
O-5A-37	<b>Gene-early environment interaction and risk of Type 2 diabetes in later life</b> J. G. Eriksson, N. Pulizzi, E. Kajantie, C. Osmond, D.J.P. Barker, M. Laakso, V. Lyssenko, L. Groop	S23
O-5A-38	<b>Association of maternal weight gain in pregnancy with offspring obesity, metabolic and vascular traits in childhood: the Avon Longitudinal Study of parents and children</b> A. Fraser, K. Tilling, N. Sattar, M-J. Brion, L. Benfield, A. Ness, J. Deanfield, S.M. Nelson, A. Hingorani, G. Davey Smith, D. A. Lawlor	S24
O-5A-39	<b>Food restriction during gestation and a metabolic syndrome in later life: evidence from the Dutch Hunger Winter Families Study</b> L.H. Lumey, A.D. Stein, H.S. Kahn	S25
O-5A-40	<b>GLUT4 and AKT1 genes are down-regulated by physical inactivity in early stages of development in rats</b> J.L. Márquez, S.M. Hirabara, J. Fiamoncini, E. Hatanaka, T.C. Alba-Loureiro, T.M. de Lima, R. Curi & L.A. Salazar	S25
O-5B-41	<b>A critical look at analytical approaches to test the fetal origins hypothesis</b> J. Bacallao	S26
O-5B-42	<b>A new economic model of the long term costs of a poor start to life</b> K.L. Franko, C. Schilling, J. Guria, C. Nixon, J. Yeabsley, S.M.B. Morton, P.D. Gluckman	S26
O-5C-43	<b>Placental amino acid efflux transporter mRNA levels are related to maternal diet and fetal growth</b> J.K. Cleal, S. Crozier, P. Day, M.A. Hanson, H.M. Inskip, N. Harvey, S. Robinson, C. Cooper, K.M. Godfrey, R.M. Lewis	S27
O-5C-44	<b>Glucocorticoid receptor null mouse placentas are larger and show reduced mean harmonic thickness relative to wildtype littermates</b> M. Bollen, P.J. Mark, J.L. Lewis, T.J. Cole, B.J. Waddell	S27
O-5C-45	<b>Phenotypic outcome in offspring of mothers fed a high fat diet: a consequence of altered placental development?</b> D.M. Sloboda, P. Mark, K. Connor, K. Dudley, B. Waddell, M.H. Vickers	S28
O-5C-46	<b>Reduced placental aquaporin water channels contribute to oligohydramnios in growth restricted fetuses</b> L. Belkacemi, M.H. Beall, Q. Liu, M. Desai, M.G. Ross	S28
O-6A-47	<b>Breastfeeding duration does not affect left cardiac structures and blood pressure at the age of 2 years. The Generation R Study</b> L.L. de Jonge, J.J.M. Geelhoed, M. van Osch-Gevers, A. Hofman, W.A. Helbing, V.W.V. Jaddoe	S29
O-6A-48	<b>Late gestation undernutrition programmes lipid deposition, hepatic lipid composition and fatty acid profiles in adult sheep</b> L. Hellgren, A.H. Kongsted, M.O. Nielsen	S29
O-6A-49	<b>Early rapid weight gain and insulin resistance in young adulthood: evidence from the Cebu Longitudinal Health and Nutrition Survey</b> M.M. Slining, L.S. Adair	S30
O-6A-50	<b>Pre- and Postnatal Determinants of Childhood Body Size</b> M.B. Terry, Y. Wei, D. Esserman, I. McKeague, E. Susser	S31
O-6B-51	<b>Low protein diet <i>in utero</i> results in reduced ureteric branching in cultured metanephroi, but the renal renin-angiotensin system is not involved</b> F.F. Mesquita, J.A.R. Gontijo, L. Cullen-McEwen, D Arena, P.A. Boer, J.F. Bertram, J.A. Armitage	S31

O-6B-52	<b>Cardiovascular responses to dietary salt-loading in adult male and female offspring of fat-fed rats</b>	S32
	O.V. Rudyk, M.J. Shattock, L. Poston, P.D. Taylor	
O-6B-53	<b>Maternal folic acid deficiency compounds the renal developmental anomalies induced by exposure to a low protein diet</b>	S32
	R. J. Wood-Bradley, L.A. Cullen-McEwen, S. L. Henry, J.F. Bertram, J.A. Armitage	
O-6B-54	<b>Preterm birth is associated with accelerated renal maturation and abnormalities in glomerular morphology</b>	S33
	M.R. Sutherland, L. Gubhaju, L. Stamp, L. Moore, A. Kent, J.E. Dahlstrom, M.J. Black	
O-6C-55	<b>The influence of folate and vitamin B<sub>12</sub> status and folate-related genotype on the transmission of DNA methylation patterns from mothers to offspring</b>	S34
	J.A. McKay, A. Groom, L.J. Coneyworth, D. Ford, J.C. Mathers, C.L. Relton	
O-6C-56	<b>Gene-environment interactions between the fat mass and obesity-associated (fto) gene and nutrition modify the association between Fto and obesity in childhood and adolescence</b>	S34
	C.E. Pennell, Q.W. Ang, J.A. Marsh, N.M. Warrington, W.H. Oddy, S.J. Lye, L.J. Beilin, B. Hands, J.P. Newnham, L.J. Palmer	
O-6C-57	<b>The fat mass and obesity-associated gene, a genetic marker of fetal programming?</b>	S35
	S.P. Sebert, L.L.Y. Chan, M.A. Hyatt, H.P. Fainberg, D.S. Gardner, H. Budge, M.E. Symonds	
O-6C-58	<b>The importance of being accurate: gestational age and reported associations between gene:environment interactions and birth weight</b>	S36
	J.A. Marsh, C.E. Pennell, N.M. Warrington, S.E. Bolt, J.P. Newnham, L.J. Palmer	
O-7A-59	<b>In the associations between body mass index, plasma glucose and birthweight: Is there a mediating role of interleukins IL-6 and IL-1Ra?</b>	S36
	C.M. Friis, K.F. Frøslie, J. Røislien, N. Voldner, K. Godang, J. Bollerslev, M.B. Veierød, T. Henriksen	
O-7A-60	<b>Pre- and postnatal nutrition of infants with obese mothers: review of metabolic imprinting and later health outcomes</b>	S37
	L.F. Harthoorn, K. Macé, M. Gros, R. Winwood, M.E. Symonds, S.E. Ozanne, C. Agostoni, L. Poston, E.M. Van der Beek	
O-7A-61	<b>Obesity related hypertension, increased sympathetic drive and selective leptin resistance are programmed by exposure to a fat-rich diet during development</b>	S38
	L.J. Prior, S.L. Burke, B. Barzel, G.A. Head, J.A. Armitage	
O-7A-62	<b>Evidence of fetal insulin sensitivity programming by maternal glucose tolerance in humans</b>	S38
	Z.C. Luo, E. Delvin, W.D. Fraser, F. Audibert, C.I. Deal, P. Julien, E. Levy, A.M. Nuyt	
O-7B-63	<b>A theory of global health</b>	S39
	S. Bezruchka	
O-7B-64	<b>Adverse childhood experiences predict adult risk factors for age-related disease: depression, inflammation, and clustering of metabolic risk markers</b>	S39
	A. Danese, T.E. Moffitt, H.L. Harrington, B. Milne, G. Polanczyk, C.M. Pariante, R. Poulton, A. Caspi	
O-7B-65	<b>Diet during F<sub>0</sub> pregnancy in rats alters weight gain during pregnancy in F<sub>1</sub> and F<sub>2</sub> offspring</b>	S40
	N.A. Thomas, K.A. Lillycrop, S. Hoile, M.A. Hanson, G.C. Burdge	
O-7B-66	<b>Testosterone and male life history: evidence for developmental adaptation in the Philippines</b>	S40
	C.W. Kuzawa, T.W. McDade, A.B. Feranil, S. Augustin	
O-7C-67	<b>Salmon in Pregnancy Study (SIPS): Consumption of farmed salmon twice a week during pregnancy increases the EPA and DHA content of maternal and foetal plasma phospholipids</b>	S41
	M. Vlachava, L.-S. Kremmyda, E.A. Miles, N.D. Diaper, P.N. Noakes, P.C. Calder	
O-7C-68	<b>Birth weight, childhood respiratory illness and lung function at ages 14 and 50 years: The Newcastle Thousand Families Study</b>	S41
	P.W.G. Tennant, G.J. Gibson, L. Parker, M.S. Pearce	

O-7C-69	<b>Fetal and infant growth patterns are associated with the development of atopy and wheezing disorders in early childhood</b> K. Pike, K. Godfrey, S. Crozier, H. Inskip, G. Roberts, S. Robinson, J.S. Lucas, the Southampton Women's Survey Study Group	S42
O-7C-70	<b>Developmental origins of lung function at 6 years of age: does the intrauterine amniotic fluid volume matter?</b> D.A. Doherty, E.F. Magann, P. Holt, P. Sly, J.P. Newnham	S42
O-8A-71	<b>Male obesity: consequences for embryo development and fetal outcomes</b> M. Mitchell, H.W. Bakos, M. Lane	S43
O-8A-72	<b>Epigenetic marks at birth predict childhood body composition at age 9 years</b> K.M. Godfrey, P.D. Gluckman, K.A. Lillycrop, G.C. Burdge, J. Rodford, J.L. Slater-Jefferies, C. McLean, A. Sheppard, S.R. Crozier, B.S. Emerald, C.R. Gale, C. Cooper, M.A. Hanson	S44
O-8A-73	<b>Characterization of the mechanisms of epigenetic reprogramming in the early embryo</b> H.D. Morgan, Y. Li, L. Ganeshan and C. O'Neill	S44
O-8B-74	<b>Maternal stress during pregnancy and pediatric diseases: a population-based cohort study</b> M. Tegethoff, N. Greene, J. Olsen, E. Schaffner, G. Meinlschmidt	S45
O-8B-75	<b>Elevated stress and low social support contribute to poor birth outcomes by altering maternal inflammatory cytokine production</b> M.E. Coussons-Read, M. Lobel, C. Brandt, S. Hale, M. Kreither, C. Cage	S45
O-8B-76	<b>Can digit-length ratios be used as a marker of prenatal undernutrition? Evidence from the Dutch Hunger Winter Families Study</b> A.D. Stein, H.S. Kahn, L.H. Lumey	S46
O-8C-77	<b>Effect of vitamin D deficiency during pregnancy on offspring bone structure and quality</b> S.A. Lanham, C. Roberts, A.K. Habgood, S. Alexander, T.H.J. Burne, D.W. Eyles, C. Cooper, J.J. McGrath, R.O.C. Oreffo	S46
O-8C-78	<b>Fetal bone growth in pregnant adolescents is associated with maternal vitamin D status</b> K.O. O'Brien, B.V. Essley, M.F. Young, M. Foehr, B. Cooper, E. Pressman, F. Witter, Z. Harris, A. McIntyre, T. McNanley	S47
O-8C-79	<b>Birth weight and bone mass in early adulthood: results from a birth cohort study in Ribeirão Preto, Brazil</b> M.M. Schlüssel, A.A.M. da Silva, M.A. Barbieri, H. Bettiol, G. Kac	S48
O-9A-80	<b>Developmental programming of cardiovascular disease: The roles of prenatal hypoxia and oxidative stress</b> J.A. Hansell, E.J. Camm, H.G. Richter, E.A. Herrera, C.E. Blanco, E. Villamor, D.A. Giussani	S48
O-9A-81	<b>Mechanisms of endothelium-dependent vasodilation in young and aged offspring born growth restricted</b> J.S. Morton, C.F. Rueda-Clausen, S.T. Davidge	S49
O-9A-82	<b>Vascular dysfunction in children conceived by assisted reproductive technologies</b> C. Sartori, S.F. Rimoldi, T. Stuber, H. Duplain, S.F. de Marchi, S. Garcin, E. RexHaj, M. Germond, P. Nicod, Y. Allemann, U. Scherrer	S50
O-9A-83	<b>Late gestation uteroplacental insufficiency programs regional vascular dysfunction and alters passive mechanical wall properties in non-pregnant and pregnant growth restricted female offspring</b> M.Q. Mazzuca, M. Tare, N.M. Dragomir, H.C. Parkington, M.E. Wlodek	S51
O-9C-84	<b>Maternal smoking during pregnancy and offspring growth in childhood: 1993 and 2004 Pelotas cohort studies</b> A. Matijasevich, M.J. Brion, A.M. Menezes, C.L. Araújo, A.J. Barros, I.S. Santos, C.G. Victora	S51

O-9C-85	<b>Periconceptional parental occupational exposure to endocrine disruptors and the risk of congenital heart defects in offspring. The HAVEN study</b> I.J. Vlot, C.A. Snijder, A. Burdorf, S.A. Borst, W.A. Helbing, M.E. Wildhagen, E.A.P. Steegers, R.P.M. Steegers-Theunissen	S52
O-9C-86	<b>Exposure of pregnant rats to diverse chemicals during pregnancy causes elevated blood pressure in offspring</b> J.M. Rogers, R.E. Ellis-Hutchings, J. Norwood, Jr., C. Lau	S53
O-9C-87	<b>Smoking and alcohol use affects first trimester fetal growth. The Generation R Study</b> D.O. Mook-Kanamori, E.A.P. Steegers, A. Hofman, V.W.V. Jaddoe	S53
O-10A-88	<b>Oral vitamin B<sub>12</sub> supplementation at physiological doses lowers plasma homocysteine concentration: A cluster-randomized, placebo-controlled, double-blind trial in a rural Indian community</b> U.S. Deshmukh, C.V. Joglekar, H.G. Lubree, L.V. Ramdas, D.S. Bhat, S.S. Naik, P.S. Hardikar, D.A. Raut, T.B. Konde, A.K. Wills, A.A. Jackson, H Refsum, A.S. Nanivadekar, C.H. Fall, C.S. Yajnik	S54
O-10A-89	<b>Maternal folate and homocysteine levels in early pregnancy affect third trimester fetal arterial resistance. The Generation R Study</b> J.J.M. Geelhoed, E.A.P. Steegers, A. Hofman, V.W.V. Jaddoe	S55
O-10A-90	<b>Folate depletion during development: consequences for DNA methylation and gene regulation</b> J.A. McKay, D. Ford, C.L. Relton, H. Gautrey, W.A.W. Omar, C. Evelo, M. Adriaens, J.C. Mathers	S55
O-10A-91	<b>Maternal early pregnancy vitamin D status in relation to fetal and neonatal growth: results of the ABCD study</b> E. Leffelaar, T.G.M. Vrijkotte, M. van Eijsden	S56
O-10B-92	<b>Cross-sectional and longitudinal associations between physical activity and blood pressure in adolescence: birth cohort study</b> P.C. Hallal, S.C. Dumith, F.F. Reichert, A.M. B. Menezes, C.L.P. Araújo, J.C.K. Wells, U. Ekelund, C.G. Victora	S56
O-10B-93	<b>Late, but not early, exercise restores markers of mitochondrial biogenesis in skeletal muscle of growth restricted rats</b> R.C. Laker, M.E. Wlodek, G.D. Wadley, G.K. McConell	S57
O-10B-94	<b>Swim training applied at early age is critical to attenuate monosodium L-glutamate-programmed obesity onset in mice</b> D.X. Scomparin, S. Grassioli, C. Gravena, A.E. Andreazzi, P.C.F. Mathias	S57
O-10B-95	<b>Relationship between physical activity measured using accelerometers and energy expenditure measured using doubly-labelled water in Indian children</b> G.V. Krishnaveni, S.R. Veena, R. Kuriyan, R.P. Kishore, A.K. Wills, M. Nalinakshi, S. Kehoe, C.H.D. Fall, A.V. Kurpad	S58
O-10C-96	<b>Prenatal- and postnatal growth and trait anxiety in late adulthood – the Helsinki Birth Cohort Study</b> J. Lahti, K. Räikkönen, A-K. Pesonen, K. Heinonen, E. Kajantie, T. Forsén, C. Osmond, D.J.P. Barker, J.G. Eriksson	S59
O-10C-97	<b>Childhood separation experience predicts hormonal response at age 60 to 70: a natural experiment in World War II</b> A-K. Pesonen, K. Räikkönen, K. Feldt, K. Heinonen, C. Osmond, D. I. W. Phillips, D. J. P. Barker, J. G. Eriksson, E. Kajantie	S59
O-10C-98	<b>Growth in infancy and childhood and hospitalization for personality disorders in adulthood</b> M. Lahti, K. Räikkönen, K. Wahlbeck, K. Heinonen, T. Forsén, E. Kajantie, A. K. Pesonen, C. Osmond, D. J. P. Barker, J. G. Eriksson.	S60
O-10C-99	<b>Depression and anxiety after prenatal exposure to the Dutch famine</b> S.R. de Rooij, R.C. Painter, D.I. Phillips, K. R. Pikkönen, A.H. Schene and T.J. Roseboom	S60

P-1A-1	<b>Historical evolution of weight at birth in a primary health attention unit in Sao Paulo, Brazil</b> A.M.U. Escobar , M.H. Valente, F.M.S. Gomes, L.M.I. Cirino, L.I.M.C. Silva, L. Prearo, S.J.F.E. Grisi	S61
P-1A-2	<b>Historical evolution of exclusive maternal nursing time in a primary health attention unit in Sao Paulo, Brazil</b> F.M.S. Gomes, M.H. Valente, L.I.M.C. Silva, A.M.U. Escobar, S.J.F.E. Grisi	S61
P-1A-3	<b>Preconception counselling on nutrition and folic acid use</b> F. Hammiche, J.S.E. Laven, M. de Cock, M.J. van de Graaf-Verhagen, E. Birnie, J.H. de Vries, E.A.P. Steegers, R.P.M. Steegers-Theunissen	S62
P-1A-4	<b>Secular trends of birth outcomes in Southern Brazil</b> A.R. Hernandez, M. Agranonik, M.Z. Goldani, C.H. Silva	S63
P-1A-5	<b>Nutrient supplementation in pregnancy: development of evidence-based best-practice guidelines</b> A.J. Hure, I.M.R. Wright, R. Smith, C.E. Collins	S63
P-1A-6	<b>Risk factors for low birth weight at a School Health Center in Sao Paulo, Brazil</b> J.C.L. Sgroi, L.Prearo, A.M.U. Escobar, S.J.F.E. Grisi	S64
P-1A-7	<b>Weight at birth and maternal nursing time in a primary health attention unit in Sao Paulo, Brazil</b> L.I.M.C. Silva, M.H. Valente, F.M.S. Gomes, A.R. Precioso, A.M.U. Escobar, S.J.F.E. Grisi	S64
P-1A-8	<b>Historical evolution of birth body mass index on users of a School Health Center in Sao Paulo, Brazil</b> M.H. Valente, F.M.S. Gomes, L.M.I. Cirino, A.M.U. Escobar , S.J.F.E. Grisi	S65
P-1A-9	<b>Preconception counselling on modifiable lifestyle risk factors. The Rotterdam Reproduction Risk Score (R<sup>3</sup> Score)</b> N.H. van Mil, F. Hammiche, J.S.E. Laven, M. Wildhagen, G.J. Bonsel, E.A.P. Steegers, R.P.M. Steegers-Theunissen	S65
P-1A-9B	<b>Relation of maternal hypertension with infant growth: the ABCD study</b> M. de Beer, T.G.M. Vrijkotte, M.F. van der Wal, M.M. van Weissenbruch, R.J.B.J. Gemke	S66
P-1B-10	<b>Systemic leptin antagonist inhibits hypothalamic leptin signal transduction in new born rat pups</b> L. Abdennebi-Najar, M. Desai, G. Han, E. Casillas, J. Djiane, A. Gertler, M.G. Ross	S67
P-1B-11	<b>Ethnic differences in overweight at age 2: The role of prenatal factors, birth outcome and postnatal factors</b> M.L.A. de Hoog, M. van Eijnsden, K. Stronks, R.J.B.J. Gemke, T.G.M. Vrijkotte	S67
