

Journal of
MATERIALS RESEARCH

VOLUME 34 • NO 19
OCTOBER 14, 2019

FOCUS ISSUE

Thermodynamics of
Complex Solids

Journal of MATERIALS RESEARCH

JOURNAL OF MATERIALS RESEARCH (JMR) is an interdisciplinary journal serving the materials research community through publication of original research articles and invited reviews encompassing the synthesis, processing, characterization, properties, and theoretical description of materials.

JMR publishes new research that demonstrates a significant impact or advance of scientific understanding of interest to the materials research community. Engineering studies and applications to commercial products are beyond the scope of *JMR* and should be submitted elsewhere. Manuscripts that report data without giving an analysis, interpretation, or discussion are only acceptable if the data are sufficiently important that publication is expected to lead to significant new studies or advancements in science or technology.

Manuscripts must be submitted to the *Journal of Materials Research* electronically via ScholarOne manuscripts, at the following website address: <http://mc.manuscriptcentral.com/jmr>. Electronic submission expedites the review process and also allows authors to track the status of their manuscripts at any time. Complete instructions are available on the ScholarOne site and authors will be prompted to provide all necessary information.

Manuscripts must be prepared in English, using a word processing program, formatted to fit 8½ x11 in. paper, and saved as .doc or .pdf files. Separate graphics files (.eps and .tif) must be uploaded for each figure. Authors may also upload .xls or .ppt supplemental files as part of the manuscript submission process. All of these files will be converted to .pdf format. Detailed instructions are available on the submission web site. During submission, authors must enter all coauthor names and e-mail addresses. Manuscripts will not be considered for peer review until this information is provided. Authors must also enter manuscript keywords using the *JMR* keyword list (located on the submission web site). Authors who are not fluent in English must have their manuscript edited for correct English grammar and sentence structure before submission.

Authors are expected to follow the conventional writing, notation, and illustration style prescribed in *Scientific Style and Format: the CSE Manual for Authors, Editors and Publishers, 7th edition, 2006*. Authors should also study the form and style of printed material in this journal. SI units should be used. Authors should use an identical format for their names in all publications to facilitate use of citations and author indexes.

Manuscripts are accepted with the understanding that they represent original research, except for review articles, and that they have not been copyrighted, published, or submitted for publication elsewhere. Authors submitting manuscripts to *JMR* who have related material under consideration or in press elsewhere should send a copy of the related material to *JMR* at the time of submission. While their manuscripts are under consideration at *JMR*, authors must disclose any such related material. To expedite the review process, authors may provide names and contact information for up to four possible reviewers.

Articles are original research reports that include complete, detailed, self-contained descriptions of research efforts. All articles must contain an abstract and section headings.

Commentaries and Reviews: *Journal of Materials Research* occasionally publishes commentaries on topics of current interest or reviews of the literature in a given area. If an author proposes a review, the title, abstract, and a brief outline should be submitted to the Editorial Office via e-mail for prior consultation on the appropriateness of the topic.

Color policy: It is not necessary for authors to indicate that a figure should be displayed in color online. *JMR* will assume that any author who submits figures in color wants and agrees to their being produced in color online. Figures may be printed in color at the author's request for an additional charge. Color figures must be submitted before the paper is accepted for publication, and cannot be received later in the process. Authors cannot submit two versions of the same figure, one for color and one for black and white; only one version can be submitted. Authors need to carefully consider the following when submitting figures in color that will

be published in color online only: 1) The colors chosen must reproduce effectively and the colors should be distinguishable when printed in black and white; 2) The descriptions of figures in text and captions must be sufficiently clear for both online and print copy. When submitting figures to be in color online only, authors should include the phrase <<color online>> in the figure captions. This is the author's responsibility. Authors will see these color figures when viewing their author page proofs on screen. Authors should always print their page proofs in black and white to see how they will appear in print. Authors will NOT be allowed to submit color figures to replace black and white figures in the page proof stage. To maximize the probability that figures will be published in color online and also print as good quality black and white or grayscale graphics, authors are encouraged to follow these figure submission guidelines: 1) Submit a color graphic in Tagged Image File Format (.tif); 2) Submit color graphics with a resolution of at least 300 dpi (600 dpi if there is text or line art in the figure); 3) Submit color graphics in CMYK format; 4) Submit figures sized to fit the actual column or page width of the journal so that reduction or enlargement is not necessary; 5) Submit multipart figures in one single electronic file.

Journal of Materials Research Subscription Prices (2019)

[includes on-line web access]

	USA and Poss.	Non-US	Online Only
MRS Regular and Student Members	\$260.00	\$351.00	–
Institutions	\$2329.00	\$2264.00	\$2043.00

Journal of Materials Research (ISSN: 0884-2914) is published twenty-four times a year by Cambridge University Press, One Liberty Plaza, 20th Floor, New York, NY 10006 for the Materials Research Society. Periodical Postage Paid in New York, NY and additional mailing offices. **POSTMASTER:** Send address changes to *Journal of Materials Research*, c/o Journals Dept., Cambridge University Press, One Liberty Plaza, 20th Floor, New York, NY 10006, USA.

Subscriptions, renewals, address changes, and single-copy orders should be addressed to Subscription Fulfillment, *Journal of Materials Research*, Cambridge University Press, One Liberty Plaza, 20th Floor, New York, NY 10006, USA (for USA, Canada, and Mexico); or Cambridge University Press, University Printing House, Shaftesbury Road, Cambridge, CB2 8BS, England (for UK and elsewhere). Allow at least six weeks advance notice. For address changes, please send both old and new addresses and, if possible, include a mailing label from a recent issue. Requests from subscribers for missing journal issues will be honored without charge only if received within six months of the issue's actual date of publication; otherwise, the issue may be purchased at the single-copy price.

Reprints of individual articles in *Journal of Materials Research* may be ordered. For information on reprints, please contact Cambridge University Press. Reprints of complete back issues older than the prior volume year may be ordered on an individual basis via Cambridge Core. To determine availability, visit the appropriate page for the *JMR* back issue desired (cambridge.org/jmr).

Individual member subscriptions are for personal use only.

THERMODYNAMICS OF COMPLEX SOLIDS

3241–3242 Introduction

Alexandra Navrotsky, Kristina Lilova,
Di Wu, Mark Asta

INVITED PAPERS

3243–3253 Thermal desulfurization of pyrite: An in situ high-T neutron diffraction and DTA–TGA study

Hongwu Xu, Xiaofeng Guo,
Lani A. Seaman, Aaron J. Harrison,
Stephen J. Obrey, Katharine Page

3254–3262 The study of ultrasound-assisted extraction of flavonoids from *Polygonum cuspidatum* Sieb. et Zucc.

Weiwei Jia, Zhenbin Chen,
Yingyu Zhao, Ke Li, Brandon Tichnell,
Zhenghua Tang, Juan M. Ruso,
Zhen Liu

3263–3270 Synthesis of novel shape-stabilized phase change materials with high latent heat and low supercooling degree for thermal energy storage

Yu Li, Liang Zhao, Hao Wang,
Baohua Li

3271–3287 Noble surface molecularly imprinted polymer modified titanium dioxide toward solanesol adsorption selectivity study

Chenglong Duan, Zhenbin Chen,
Xiaojiao Liu, Ke Li, Xudong Wang,
Weiwei Jia, Zhenghua Tang,
Juan M. Ruso, Zhen Liu

3288–3295 Enthalpy increments and redox thermodynamics of $\text{SrFeO}_{3-\delta}$

Vladimir Sereida, Anton Sednev,
Dmitry Tsvetkov, Andrey Zuev

3296–3304 Identifying rhenium substitute candidate multiprincipal-element alloys from electronic structure and thermodynamic criteria

Axel van de Walle,
Julian E.C. Sabisch, Andrew M. Minor,
Mark Asta

ARTICLE

3305–3311 Thermodynamics of $\text{Zn}_x\text{Mn}_{3-x}\text{O}_4$ and $\text{Mg}_{1-z}\text{Cu}_z\text{Cr}_2\text{O}_4$ spinel solid solutions

Kristina Lilova, Geetu Sharma,
Shmuel Hayun, Daniel P. Shoemaker,
Alexandra Navrotsky

INVITED PAPERS

3312–3318 High-temperature properties of titanium-substituted yttrium niobate

Aleksandra Mielewczyk-Gryń,
Piotr Winiarz, Sebastian Wachowski,
Maria Gazda

3319–3325 Energetics of hydration on uranium oxide and peroxide surfaces

Xiaofeng Guo, Di Wu,
Sergey V. Ushakov, Tatiana Shvareva,
Hongwu Xu, Alexandra Navrotsky

3326–3336 Thermodynamic properties of lanthanum, neodymium, gadolinium hafnates ($\text{Ln}_2\text{Hf}_2\text{O}_7$): Calorimetric and KEMS studies

Viktor A. Vorozhtcov,
Valentina L. Stolyarova,
Mikhail V. Chislov, Irina A. Zvereva,
Elizaveta P. Simonenko,
Nikolay P. Simonenko

3337–3342 Thermodynamics of BaNd_2O_4 and phase diagram of the BaO – Nd_2O_3 system

Weiping Gong, Alexandra Navrotsky

3343–3350 Enthalpies of formation of the solid solutions of $\text{Zr}_x\text{Y}_{0.5-x/2}\text{Ta}_{0.5-x/2}\text{O}_2$ ($0 \leq x \leq 0.2$ and $0.65 \leq x \leq 1$)

Maren Lepple, Kristina Lilova,
Carlos G. Levi, Alexandra Navrotsky

(Continued)

3351–3360 **Extrusion behavior of impurities in upsetting process of rail flash butt welding based on finite element method**

Jiao Zhang, Xi Zhang, Da Li, Qibing Lv, Rui Ma

ARTICLE

3361–3367 **Surface energetics of carbon nanotubes–based nanocomposites fabricated by microwave-assisted approach**

Gengnan Li, Shatila Sarwar, Xianghui Zhang, Chen Yang, Xiaofeng Guo, Xinyu Zhang, Di Wu

INVITED PAPERS

3368–3376 **Immiscibility between two rutile phases in the GeO₂–TiO₂ system and application as a temperature sensor in high-pressure experiments**

Kurt Leinenweber, Emil Stoyanov, Abds-Sami Malik

3377–3388 **The structure and thermochemistry of K₂CO₃–MgCO₃ glass**

Martin C. Wilding, Brian L. Phillips, Mark Wilson, Geetu Sharma, Alexandra Navrotsky, Paul A. Bingham, Richard Brooker, John B. Parise
