SUBSCRIPTION REQUESTS/CHANGES

Thanks to the financial support of our advertisers, this publication is sent free to microscopists in the U.S. and, thanks to MSA, free to MSA members worldwide.

Due to the relatively few, non-MSA member, international readers (and the resulting lack of advertising income) plus the very high postage costs, we must charge non-MSA subscribers for subscriptions as follows:

Canada, Mexico, Latin America: \$80 for one year and \$140 for two years.

Other International: \$110 for one year and \$190 for two years.

Individuals requesting subscriptions, or wishing to change/correct their current address, are requested to do so via our www site:

http://www.microscopy-today.com

or under "Publications of the Society" on the MSA www site:

http://www.msa.microscopy.com

MICROSCOPY TODAY

The objective of this publication is simply to provide material of interest and value to working microscopists!

The publication is owned by the Microscopy Society of America (MSA) and is produced six times each year in odd months, alternating with MSA's peer-reviewed, scientific journal Microscopy and Microanalysis. We greatly appreciate article and material contributions from our readers—"users" as well as manufacturers/suppliers. The only criteria is that the subject matter be of interest to a reasonable number of working microscopists. Microscopy Today has authors from many disparate fields in both biological and materials sciences, each field with it's own standards. Therefore MT does not have a rigid set of style instructions and encourages authors to use their own style, asking only that the writing be clear, informative, and accurate. Length: typical article length is 1,500 to 2,000 words plus images,를 Longer articles will be considered. Short notes are encouraged for our Microscopy 101 section.
