

## THE AUSTRALIAN MATHEMATICAL SOCIETY

President: H. S. Green    University of Adelaide  
Secretary: W. Pye       Melbourne State College,  
757 Swanston Street,  
Carlton, Victoria 3053, Australia  
Treasurer: V. G. Hart    Department of Mathematics,  
University of Queensland  
St Lucia, Queensland 4067, Australia.  
(These officers serve until May 1976)

### Membership and correspondence

Applications for membership, notices of change of address or title or position, and other correspondence, except as noted below, should be sent to the Secretary (address above). Subscriptions and correspondence related to accounts should be sent to the Treasurer (address above). Correspondence about the distribution of the Society's JOURNAL, BULLETIN, and GAZETTE, and orders for back numbers, should be sent to the Business Manager, whose address is the same as the Treasurer's (above).

### Publications

The JOURNAL of the Australian Mathematical Society began publication in 1959, and from 1975 appears in two series, Series A (Pure Mathematics) and Series B (Applied Mathematics). The Editors are:

(A) Professor J. N. Crossley, Department of Mathematics, Monash University, Clayton, Victoria 3168, Australia,	(B) Professor J. J. Mahony, Department of Mathematics, University of Western Australia, Nedlands, WA 6009, Australia.
---	--

The BULLETIN of the Australian Mathematical Society began publication in 1969. Two volumes of three numbers each are published annually. Manuscripts for publication should be sent to the Editor:

Dr B. H. Neumann,  
Department of Mathematics,  
Institute of Advanced Studies,  
Australian National University,  
POB 4, Canberra, ACT 2600, Australia,

or to the Associate Editor, Dr L. G. Kovacs, at the same address.

The Australian Mathematical Society GAZETTE started publication in 1974, and carries news items, mathematical articles of general interest, and articles on tertiary mathematics teaching. Manuscripts for publication should be sent to the Editor at the

School of Mathematics,  
University of New South Wales,  
Kensington, NSW 2033, Australia.

## **Editorial Policy, Preferences, and Prejudices**

The BULLETIN of the Australian Mathematical Society aims at quick publication of original research in all branches of mathematics. Only manuscripts that are suitable for quick publication will be accepted, and only if space permits. Manuscripts must be in their final, publishable form when submitted; refereeing will be kept to a minimum, and no revision of manuscripts will be allowed.

The BULLETIN is printed by a photo-offset process from a carefully prepared typescript. The type founts and special symbols available are, accordingly, restricted.

To facilitate the work of reviewing journals the BULLETIN publishes an abstract at the head of each paper that is not itself an abstract, and also a tentative MOS (American Mathematical Society) classification in the top right-hand corner of the first page of each paper. Authors are invited to assist by supplying abstracts of their papers and supplying or checking MOS classification numbers. Copies of the MOS classification scheme are available to authors on request from the American Mathematical Society, POB 6248, Providence, R.I. 02940, USA. The scheme and instructions for its use can be also found as an appendix to *Mathematical Reviews*, Index to Volume 39 (1970).

The Editors receive rather more than twice as much material as can be published in the BULLETIN; many meritorious papers can, therefore, not be accepted. Editorial decisions on acceptance or otherwise are taken quickly, normally within a week of receipt of a paper. They are usually NOT based on an expert referee's report; thus imperfections may mar papers that are accepted: in the Editors' view they are the authors' responsibility!

Authors can assist the Editors and improve their papers' chances of acceptance by observing some simple rules:

Submit a clean and clear original typescript with generous spacing and margins. Copies will not normally be considered. Make the style attractive, avoid ugly abbreviations, avoid lower case mathematical symbols at the beginning of sentences, pay attention to punctuation. We prefer clear and full arguments, and especially clear and full motivation, to mathematical telegrams. Present your case for FAST publication; if you can not well do this in the paper, do it in the covering letter. Submit an abstract that can be understood by the non-expert, and that explains what you do and why. [The abstract may be used by the *Zentralblatt für Mathematik* as its review of your paper.] See also Outside Back Cover.

Avoid all mathematical symbols in the title (even harmless looking ones like " $p$ -group", " $*$ -algebra", " $L$ -space"): they lead to unnecessary difficulties in the production processes, and are a great nuisance also after publication, in reviews, bibliographies, and so on. Arrange references alphabetically (by surname of first author), and ensure their accuracy: authors' names should appear as in the work quoted; and if this has not appeared yet or is not readily accessible to everybody (for example, a preprint), a photostat or xerox copy of the title page of the copy you have used will be of great help to us.
