The FOREIGN POLICY BULLETIN is published bimonthly (plus annual index) as a private publication, using the same format as the discontinued "Department of State Bulletin" and maintaining continuity with that publication while offering additional materials as well. Its purpose is to provide a timely and systematic record of United States foreign policy and of complementary documents from international sources. The BULLETIN's coverage of official U.S. documents includes major addresses, diplomatic statements, and press conferences of the President and the Secretary of State; statements and congressional testimony by the Secretary and other administration officials; treaties and other agreements to which the United States is or may become a party; special reports; and selected press releases issued by the White House, the Department of State, and other agencies. Special features include speeches and other statements by foreign officials concerning U.S. policy; reports and other materials from international organizations relating to major issues confronting U.S. policy-makers; and background information about countries of particular interest to U.S. foreign relations.
