OXYGEN AND ENVIRONMENTAL STRESS IN PLANTS

Edited by R. M. M. CRAWFORD, G. A. F. HENDRY and
B. A. GOODMAN

OXYGEN AND ENVIRONMENTAL STRESS IN PLANTS

(Edited by R. M. M. Crawford, G. A. F. Hendry and B. A. Goodman)

CONTENTS

Preface	xiii
Oxygen and environmental stress in plants – an overview by G. A. F. HENDRY and R. M. M. CRAWFORD	1
I. OZONE, ATMOSPHERIC CHEMISTRY AND IONISING RADIATION	
The influence of ozone chemistry and meteorology on plant exposure to photo-oxidants by J. N. CAPE, R. I. SMITH and D. FOWLER	11
The relative implications of ozone formation both in the stratosphere and the troposphere by A. R. WELLBURN, N. D. PAUL and H. MEHLHORN	33
Induction of chromosomal damage by ozone in the root meristems of Norway spruce by M. MÜLLER and D. GRILL	49
Ambient ozone can induce plant defence reactions in tobacco by M. SCHRAUDNER, U. GRAF, C. LANGEBARTELS and H. SANDERMANN JR.	55
Induction of pathogen defence genes in parsley (<i>Petroselinum crispum</i> L.) plants by ozone by H. ECKEY-KALTENBACH, E. GROBKOPF, H. SANDERMANN JR. and D. ERNST	63
The action of 2, 21 and 100% of oxygen on primary phytochemistry of photosystem II (PS II), biosynthesis of pigments and carbon dioxide fixation by etiolated bean leaves during greening by B. WRÓBLEWSKA, M. SIEDLECKA and J. W. POSKUTA	75
Radiation effects in biological systems by M. C. R. SYMONS	81
Stress responses of tomato fruit tissue submitted to massive doses of ionising radiation by C. TRIANTAPHYLIDÈS, N. BANZET, J. M. FERULLO, C. LARRIGAUDIÈRE and L. NESPOULOS	97
<i>Short Communications</i>	
Ozone- and UV-stress detected by photon emission of plants by R. KATZINGER, H. KLIMA and H. SCHWABL	107

Contents

Altitude-dependent ozone concentrations and changes of ozone-related plant-physiological parameters in the needles of Norway spruce by St. SMIDT, E. BERMADINGER-STABENTHEINER and F. HERMAN	113
Exposure of mature Norway spruce to ozone in twig-chambers: effects on gas exchange by G. WIESER and W. M. HAVRANEK	119
Specific induction of ethylene biosynthesis in tobacco plants by the air pollutant, ozone by Z-H. YIN, C. LANGEBARTELS and H. SANDERMANN, JR.	127
II. FREE RADICAL PROCESSES AND ENVIRONMENTAL STRESS	
Mechanisms of oxygen activation during plant stress by E. F. ELSTNER and W. OSSWALD	131
Oxygen and environmental stress in plants: an evolutionary context by G. A. HENDRY	155
Manipulation of glutathione reductase in transgenic plants: implications for plants' responses to environmental stress by G. P. CREISSEN, P. BROADBENT, B. KULAR, H. REYNOLDS, A. R. WELLBURN and P. M. MULLINEAUX	167
Chilling, oxidative stress and antioxidant enzyme responses in <i>Arabidopsis thaliana</i> by R. H. BURDON, V. GILL, P. A. BOYD and D. O'KANE	177
Intracellular membranes: kinetics of superoxide production and changes in thylakoids of resurrection plants upon dehydration and rehydration by F. NAVARI-IZZO, C. PINZINO, M. F. QUARTACCI, C. L. M. SGHERRI and R. IZZO	187
The occurrence, and influence on photolithotrophs, of high oxygen concentrations by J. A. RAVEN, A. M. JOHNSTON, R. PARSONS and J. KÜBLER	193
Generation of free radicals in germinating Norway spruce. Differences in the effect of two different phenolic compounds by J. SEGURA-AGUILAR, I. HAKMAN and J. RYDSTRÖM	203
Free radical processes induced by desiccation in germinating maize. The relationship with respiration and loss of desiccation tolerance by O. LEPRINCE, G. A. F. HENDRY and N. M. ATHERTON	211
Singlet molecular oxygen and primary mechanisms of photo-oxidative damage of chloroplasts. Studies based on detection of oxygen and pigment phosphorescence by A. A. KRASNOVSKY, JR.	219
Antioxidants and free radical oxidation as regulators of ATP biosynthesis in chloroplasts by N. V. BUDAGOVSKYA	237

Contents

Short Communications

- Changes in free radical profiles during the callogenesis of responsive and recalcitrant potato genotypes 243
by E. BAILEY, N. DEIGHTON, S. A. CLULOW, B. A. GOODMAN and E. E. BENSON
- The chemical fate of the endogenous plant antioxidants carvacrol and thymol during oxidative stress 247
by N. DEIGHTON, S. M. GLIDEWELL, B. A. GOODMAN and S. G. DEANS
- Are free radical generation and phytoalexin biosynthesis coupled? 253
by N. DEIGHTON, G. D. LYON, D. JOHNSTON, S. M. GLIDEWELL and B. A. GOODMAN
- Free radical activity and loss of viability during drying of desiccation-sensitive tree seeds 257
by W. E. FINCH-SAVAGE, G. A. F. HENDRY and N. M. ATHERTON
- Evidence that disruption of cytosolic calcium is critically important in oxidative plant stress 261
by J. LOCK and A. H. PRICE
- Effects of pulsed ultrasound and ultraviolet radiation on Vitamin E and olive oil 265
by M. MUZZOLI, M. C. CHICCA and S. PINAMONTI
- Hydroxyl radical scavenging properties of cyclitols 269
by B. ORTHEN, M. POPP and N. SMIRNOFF
- Characterisation by EPR spectroscopy of the co-ordination environment of copper in superoxide dismutase from horseradish (*Armoracia rusticana* Gaertn.) 273
by C. G. PALIVAN, H. PALIVAN and B. A. GOODMAN
- Effect of oxidative stress during inhibition of soybean embryonic axes 279
by S. PUNTARULO
- Superoxide radical production in wheat plants differently sensitive to drought 287
by M. F. QUARTACCI, C. L. M. SGHERRI, C. PINZINO and F. NAVARI-IZZO
- Defence mechanisms against production of free radicals in cells of 'resurrection' plants 291
by C. L. M. SGHERRI, M. F. QUARTACCI, A. BOCHICCHIO and F. NAVARI-IZZO
- Effect of ageing on oxygen radical generation by soybean seeds 295
by M. SIMONTACCHI and S. PUNTARULO
- Radiation-induced enhancement of jasmonic acid levels 303
by H. SPRINZ, C. VON SONNTAG, U. FRANCK, O. MIERSCH and H. DAHLHELM

Contents

The effects of reactive hydrocarbons on plants by N. J. STOKES, G. M. TERRY, B. J. TABNER and C. N. HEWITT	307
III. ANOXIC AND POST-ANOXIC STRESS IN HIGHER PLANTS	
Aspects of plant behaviour under anoxia and post-anoxia by M. PFISTER-SIEBER and R. BRÄNDLE	313
Similarities between post-ischæmic injury to animal tissues and post-anoxic injury in plants by R. M. M. CRAWFORD, J. C. WALTON and B. WOLLENWEBER-RATZER	325
Effects of oxygen and nitrate on ammonium uptake kinetics and adenylate pools in <i>Phalaris arundinacea</i> L. and <i>Glyceria maxima</i> (Hartm.) Holmb. by H. BRIX, B. LORENZEN, J. T. MORRIS, H.-H. SCHIERUP and B. K. SORRELL	333
IV. ECOPHYSIOLOGY OF FLOODING AND ANOXIA-TOLERANT VEGETATION	
Flooding tolerance: a reinterpretation of Crawford's metabolic theory by C. A. JOLY	343
Anaerobic germination and metabolism of <i>Erythrina</i> seeds with special reference to mitochondria and nitrate reductase by K. KEMP and J. G. C. SMALL	355
Modelling of <i>in situ</i> oxygen transport and aerobic metabolism in the hydrophyte <i>Eleocharis sphacelata</i> R. Br. by B. K. SORRELL, H. BRIX and P. I. BOON	367
Metabolite accumulation during ice encasement of timothy grass (<i>Phleum pratense</i> L.) by B. E. GUDLEIFSSON	373
Enzymatic defence against post-anoxic injury in higher plants by B. WOLLENWEBER-RATZER and R. M. M. CRAWFORD	381
Hormone actions and plant adaptations to poor aeration by M. B. JACKSON	391
<i>Short Communications</i>	
Is long-term hypoxia met by the Pasteur effect in roots of wheat seedlings? by G. ALBRECHT and E.-M. WIEDENROTH	407
Glutathione reductase activity following re-aeration of hypoxically pretreated wheat roots by G. ALBRECHT and E.-M. WIEDENROTH	413
Long-term oxygen shortage induces sugar accumulation – particularly fructans in wheat seedlings by G. ALBRECHT, S. KAMMERER, W. PRAZNIK and E.-M. WIEDENROTH	419

Contents

Metabolic acclimation to ice encasement in winter wheat by C. J. ANDREWS and H. J. HOPE	425
A survey of N ₂ -fixing nodules in the Leguminosae with particular reference to intercellular glycoproteins and the control of oxygen diffusion by E. K. JAMES, P. P. M. IANNETTA, T. NAISBITT, S. R. GOI, J. M. SUTHERLAND, J. I. SPRENT, F. R. MINCHIN and N. J. BREWIN	429
The relationship between starch content in rhizomes of <i>Phragmites australis</i> (Cav.) Trin. ex Steud. and trophic conditions of habitat by P. KUBIN, A. MELZER and ČIŽKOVA	433
Physiological and biochemical studies of seed storage parameters in <i>Carica papaya</i> by W. MAGILL, N. DEIGHTON, H. W. PRITCHARD, E. E. BENSON and B. A. GOODMAN	439
Fluorescence of farnesene oxidation products in extracts and intact fruits as related to the development of superficial scald during storage of 'Antonovka' apples by M. N. MERZLYAK, O. B. CHIVKUNOVA, S. I. POGOSYAN, L. I. KUZNETSOVA, N. P. PONOMAREVA and V. A. GUDKOVSKY	443
V. SENESCENCE AND DISEASE	
The senescence syndrome in plants: an overview of phyto gerontology by J. R. HILLMAN, S. M. GLIDEWELL and N. DEIGHTON	447
Free radical metabolism, pigment degradation and lipid peroxidation in leaves during senescence by M. N. MERZLYAK and G. A. F. HENDRY	459
Effect of postharvest application of acetylaldehyde or a short period of anaerobiosis on fruit senescence by E. PESIS, R. MARINANASKY, I. ROT and A. WEKSLER	473
The involvement of oxygen-derived free radicals in plant-pathogen interactions by B. A. GOODMAN	479
<i>Short Communications</i>	
Effect of allopurinol treatment on the development of rust diseases of kidney-bean, broad-bean and wheat plants by A. A. GALAL, K. MANNINGER, B. BARNA and A. L. ADÁM	495
The occurrence of a stable quinone radical accumulating <i>in vivo</i> during natural and induced senescence in a range of plants by G. A. F. HENDRY, N. M. ATHERTON, W. SEEL and O. LEPRINCE	501
Activated oxygen species and superoxide dismutase activity in peroxisomes from senescent pea leaves by G. M. PASTORI and L. A. DEL RÍO	505

Contents

VI. METHODOLOGIES

Polarographic oxygen electrodes and their use in plant aeration studies 511
by W. ARMSTRONG

A physical model involving Nuclepore membranes to investigate the 529
mechanism of humidity-induced convection in *Phragmites australis*
by J. ARMSTRONG and W. ARMSTRONG

Short Communication

Design and testing of twig chambers for ozone fumigation and gas 541
exchange measurements in mature trees
by W. M. HAVRANEK and G. WIESER

Addresses of authors of short communications 547
