

## NOTICE TO CONTRIBUTORS TO THE PROCEEDINGS OF THE 12TH INTERNATIONAL RADIOCARBON CONFERENCE

The editors of RADIOCARBON announce the publication of the Proceedings of the 12th International Radiocarbon Conference to be held in Trondheim, Norway, June 24-28, 1985. The Proceedings will appear in one of the three regular numbers of Volume 28, 1986 and will be offered as part of the subscription for that year.

Presentation of a paper at the Conference will not guarantee publication in the Proceedings issue. If a paper is accepted but will not fit into the Proceedings, it will be considered for publication in one of RADIOCARBON's regular issues. *Only those manuscripts, submitted in proper form (in three typewritten copies) at the Conference will be considered for publication.* Articles may not exceed 10 pages including references, illustrations, and tables. No more than four illustrations per paper are recommended, reducible to no more than two pages. Figures should be reduced as much as possible. It is recommended that the author submit camera-ready tables and drawings.

Preference will be given to shorter articles.

No discussions will be published.

The regular review system will be employed. Style guidelines follow the previous Proceedings issues and the STYLE GUIDE (R, 1984, v 26, p 152-158).

We will *not* be using the same method of printing as we did for the last Proceedings issue (Vol 25, no. 2, 1983). The author will *not* be responsible for final preparation of the manuscript. RADIOCARBON will print the Proceedings in the usual manner.

Each institution sponsoring research reported in an article will be asked to pay a charge of \$80.00 per printed page. Institutions paying such charges will be entitled to 100 free reprints without covers. Publication of an article in the Proceedings is *not* conditional on the payment of page charges, as payment can be waived for those institutions unable to pay partially or completely. The Norwegian Institute of Technology has offered partial support for the publication of the Proceedings.

Pre-publication orders for the Proceedings will be offered at the Conference for \$25.00 per issue. Only one copy per participant will be available at this reduced price.

We look forward to this project and our renewed associations.

THE EDITORS OF RADIOCARBON

## CONTENTS

<b>25 Years of Tropospheric <math>^{14}\text{C}</math> Observations in Central Europe</b> <i>Ingeborg Levin, Bernd Krömer, Hildegard Schoch-Fischer, Michael Bruns, Marianne Münnich, Dietrich Berdau, John C Vogel, and Karl Otto Münnich</i> .....	1
<b>La Jolla Measurements of Radiocarbon in South German Oak Tree-Ring Chronologies</b> <i>T W Linick, H E Suess, and Bernd Becker</i> .....	20
<b>Contamination Studies on Mollusk Shell Samples</b> <i>Tomasz Goslar and Mieczysław F Pazdur</i> .....	33
<b>Woods Hole Oceanographic Institution Radiocarbon Laboratory: Sample Treatment and Gas Preparation</b> <i>Sheila Griffin and Ellen R M Druffel</i> .....	43

## DATE LISTS

<b>Gd</b> <i>Mieczysław F Pazdur, Romuald Ałwiński, Andrzej Blusztz, Tomasz Goslar, Anna Pazdur, Adam Walanus, and Andrzej Zastawny</i> <b>Gliwice Radiocarbon Dates X</b> .....	52
<b>HAR</b> <i>A J Walker and R L Otlet</i> <b>Harwell Radiocarbon Measurements IV</b> .....	74
<b>PRL</b> <i>D P Agrawal, R V Krishnamurthy, and Sheela Kusumgar</i> <b>Physical Research Laboratory Radiocarbon Date List V</b> .....	95

## NOTES, COMMENTS, AND REMARKS

<b>Amplitude of Sunspot-Dependent Radiocarbon Variations: Data from Corals and Wine</b> <i>Mordechai Magaritz, Israel Carmi, and Ziv Sirkes</i> .....	111
