Discover the benefits of JDOHaD on Cambridge Journals Online (CJO)

- Register for content alerts and receive notification when new articles are published online journals.cambridge.org/doh-alerts
- Save searches
- Search across Cambridge Books Online (CBO) and Cambridge Journals Online (CJO) simultaneously using our new faceted search functionality
- Register for updates on new developments and sample content from your 'favourite journals'
- Easily download citations to reference management software
- Access CJO on your mobile: CJOm is optimised for smart phones and other small mobile devices

Members of DOHaD receive free access to the Journal.

If you have any problems setting up your online access please contact:
journals_societies@cambridge.org

Submit your research to JDOHaD

The Journal covers all aspects of research in developmental origins of health and disease (DOHaD) – from basic molecular research to health and disease outcomes, translation into policy and wider social and ethical issues.

- Global Editorial Board
- Dissemination of your research to over 5,000 libraries worldwide, including access through aid donation schemes
- Efficient online manuscript submission and tracking at ScholarOne™ Manuscripts
- FirstView publication of articles online ahead of issue and print allocation
- mc.manuscriptcentral.com/dohad

- Generous copyright policies, compliant with all the major funding bodies
- State-of-the-art online hosting
- Forward reference linking
- Permanent record through DOI/CrossRef
- No submission or page charges
- Authors receive a free pdf of the final article

JINS JOURNAL OF NUTRITIONAL SCIENCE

Editor-in-Chief

G C Burdge, University of Southampton, UK

Journal of Nutritional Science encompasses the full spectrum of nutritional science including public health nutrition, epidemiology, dietary surveys, nutritional requirements, metabolic studies, body composition, energetics, appetite, obesity, ageing, endocrinology, immunology, neuroscience, microbiology, genetics and molecular and cell biology. The Nutrition Society fully engages with the Open Access model of publishing.

NUTRITION RESEARCH REVIEWS

Editor-in-Chief

Jayne V. Woodside, Queen's University, Belfast, UK

Nutrition Research Reviews offers a comprehensive overview of nutritional science today. By distilling the latest research and linking it to established practice, the journal consistently delivers the widest range of in-depth articles in the field of nutritional science and has done so for the past twenty-one years. It presents up-to-date, concise and critical reviews of key topics in nutrition science, advancing new concepts and hypotheses that encourage the exchange of fundamental ideas on nutritional well-being in both humans and animals.

CAMBRIDGE

JOURNALS

Editor-in-Chief

Marilyn Tseng, California Polytechnic State University, USA

Public Health Nutrition provides an international peerreviewed forum for the publication and dissemination of research and scholarship aimed at understanding the causes of, and approaches and solutions to, nutritionrelated public health achievements, situations and problems around the world. The journal publishes original and commissioned articles, commentaries and discussion papers for debate.

PROCEEDINGS OF THE NUTRITION SOCIETY

Editor-in-Chief

Maria O'Sullivan
Trinity College Medical Centre, Republic of Ireland

Proceedings of the Nutrition Society publishes papers and abstracts presented by members and invited speakers at the scientific meetings of The Nutrition Society. The journal provides an invaluable record of the scientific research currently being undertaken, contributing to 'the scientific study of nutrition and its application to the maintenance of human and animal health.'

British Journal of Nutrition

Volume 115, 2016 ISSN: 0007-1145

Publishing, Production, Marketing, and Subscription Sales Office:

Cambridge University Press, Journals Fulfillment Department, UPH, Shaftesbury Road, Cambridge CB2 8BS, UK

For Customers in North America:

Cambridge University Press Journals Fullfillment Department 100 Brook Hill Drive West Nyack New York 10994-2133 USA

Publisher: Katy Christomanou

Special sales and supplements:

This Journal accepts relevant advertisements and inserts. We also provide bulk reprints of suitable papers to meet teaching or promotional requirements. The journal also publishes supplements on behalf of academic and corporate collaborators. Please contact Sarah Maddox at the Cambridge address for further details. E-mail: special_sales@cambridge.org

Subscription information:

British Journal of Nutrition is an international journal published by Cambridge University Press on behalf of The Nutrition Society. The twelve issues starting January 2016 comprise Volume 115, the twelve issues starting July 2016 comprise Volume 116.

Annual subscription rates:

Volumes 115/116 (24 issues):

Internet/print package £1654/\$3225/€2649

Internet only: £1149/\$2241/€1836

Any **supplements** to this journal published in the course of the annual volume are normally supplied to subscribers at no extra charge.

Back volumes are available. Please contact Cambridge University Press for further information.

Claims for non-receipt of journal issues will be considered on their merit and only if the claim is received within six months of publication. Replacement copies supplied after this date will be chargeable. **US POSTMASTERS:** please send address corrections to *British Journal of Nutrition*, Cambridge University Press, 100 Brook Hill Drive, West Nyack, New York 10994-2133.

Directions to Contributors are available from the Society at the address below or can be found on the Society's website at http://www.nutritionsociety.org.

Offprints: The author (or main author) of an accepted paper will receive a copy of the PDF file of their article. There will be an option to purchase paper offprints, these should be ordered at proof stage. No page charges are levied by this journal.

Copyright: As of 1 July 2000 the copyright of all articles submitted to *British Journal of Nutrition* are retained by the authors or their institutions. For articles prior to this date permission for reproduction of any part of the journal (text, figures, tables or other matter) in any form (on paper, microfiche or electronically) should be sought directly from the Society, at: The Publications Office, The Nutrition Society, 10 Cambridge Court, 210 Shepherds Bush Road, Hammersmith, London W6 7NJ, UK.

This journal is printed on acid-free paper from renewable sources. Printed in the UK by Bell & Bain Ltd., Glasgow.

This journal issue has been printed on FSC-certified paper and cover board. FSC is an independent, non-governmental, not-for-profit organization established to promote the responsible management of the world's forests. Please see www.fsc.org for information.

British Journal of Nutrition is covered in Current Contents*/Agriculture, Biology & Environmental Sciences, SciSearch*, Research Alert*, Current Contents*/Life Sciences, Index Medicus* (MEDLINE*), AGRICOLA*, CAB Abstracts TM, Global Health, BIOSIS* Database, EMBASE/Excerpta Medica and Elsevier BIOBASE/Current Awareness in Biological Sciences, CINAHL, and Chemical Abstracts Service.

BRITISH JOURNAL OF NUTRITION, VOLUME 115 - Number 5

Molecular Nutrition	
Interactions between retinol, -tocopherol and cholecalciferol need consideration in diets for farmed mink (<i>Mustela vison</i>) L. Hymøller, T. N. Clausen & S. K. Jensen	751-758
Metabolism and Metabolic Studies	
Unlike pregnant adult women, pregnant adolescent girls cannot maintain glycine flux during late pregnancy because of decreased synthesis from serine J. W. Hsu, M. M. Thame, R. Gibson, T. M. Baker, G. J. Tang, S. K. Chacko, A. A. Jackson & F. Jahoor	759-763
Sesame fractions and lipid profiles: a systematic review and meta-analysis of controlled trials S. Khalesi, E. Paukste, E. Nikbakht & H. Khosravi-Boroujeni	764-773
 Microbiology	
Effects of chromium-enriched <i>Bacillus subtilis</i> KT260179 supplementation on growth performance, caecal microbiology, tissue chromium level, insulin receptor expression and plasma biochemical profile of mice under heat stress	
J. Yang, Y. Xu, K. Qian, W. Zhang, D. Wu & C. Wang	774-781
Human and Clinical Nutrition	
Fish oil supplementation from 9 to 18 months of age affects the insulin-like growth factor axis in a sex-specific manner in Danish infants C. T. Damsgaard, L. B. S. Harsløf, A. D. Andersen, L. I. Hellgren, K. F. Michaelsen & L. Lauritzen	782-790
Older adults have an altered chylomicron response to a high-fat meal A. M. Milan, A. Nuora, S. Pundir, C. A. Pileggi, J. F. Markworth, K. M. Linderborg & D. Cameron-Smith	791-799
Quercetin lowers plasma uric acid in pre-hyperuricaemic males: a randomised, double-blinded, placebo-controlled, cross-over trial Y. Shi & G. Williamson	800-806
Zinc as an adjunct to antibiotics for the treatment of severe pneumonia in children <5 years: a meta-analysis of randomised-controlled trials HT. Tie, Q. Tan, MZ. Luo, Q. Li, JL. Yu & QC. Wu	807-816
Dietary Surveys and Nutritional Epidemiology	
Association of increased monetary cost of dietary intake, diet quality and weight management in Spanish adults H. Schröder, L. Serra-Majem, I. Subirana, M. Izquierdo-Pulido, M. Fitó & R. Elosua	817-822
Elderly Taiwanese who spend more on fruits and vegetables and less on animal-derived foods use less medical services and incur lower medical costs YT. C. Lo, M. L. Wahlqvist, YC. Huang & MS. Lee	823-833
Relationship of sodium intake with obesity among Korean children and adolescents: Korea National Health and Nutrition Examination Survey SK. Lee & M. K. Kim	834-841
Longitudinal diet quality is not associated with depressive symptoms in a cohort of middle-aged Australian women J. S. Lai, C. Oldmeadow, A. J. Hure, M. McEvoy, J. Byles & J. Attia	842-850

Dietary intake and food sources of added sugar in the Australian population L. Lei, A. Rangan, V. M. Flood & J. C. Louie A healthy Nordic diet and physical performance in old age: findings from the longitudinal Helsinki Birth Cohort Study MM. Perälä, M. von Bonsdorff, S. Männistö, M. K. Salonen, M. Simonen, N.
