Sakhalin: A History

JOHN J. STEPHAN

Sakhalin has for centuries served as a natural bridge between the continent of Asia and the Japanese archipelago. Prehistoric migrations converged in Sakhalin from Alaska, Siberia, and Japan. Chinese and Mongol armies invaded it several times. It was Tsarist Russia's most dreaded penal colony, and a perennially contested frontier between Russia and Japan. Since 1945 it has emerged as an economic and strategic bastion of the Soviet Union in the Far East. 7 plates 6 maps £3.75

The Gentle Anarchists

A Study of the Leaders of the Sarvodaya Movement for Non-Violent Revolution in India

GEOFFREY OSTERGAARD and MELVILLE CURRELL

This book is the first systematic account of the activists involved in the promotion of Bhoodan and Gramdan. It examines the ideology of the activists, their social composition, the organizational character of the movement, and its strategy and tactics. £5.50

India and East Africa

A History of Race Relations within the British Empire 1890–1939

ROBERT G. GREGORY

India's relationship with East Africa from 1890 to 1939 is essentially a study of race relations within the British Empire. East Africa became a test case not only for Britain's success in building a harmonious Empire-Commonwealth, but also for India's aspiration to settle its surplus population in peaceful communities overseas. The result was a disappointment to both Britain and India. 4 maps £7

THE PUNJAB TRADITION

P. H. M. van den Dungen

University of Adelaide

This political tradition grew out of the British search for authority in the Province's rural areas. It was shaped between the years 1869 to 1919 by men who were to have a profound effect on British appraisal of the twentieth century nationalist movement. Considerable attention is devoted in the book to the larger influences, social, intellectual and cultural which underlay the transformation of the Punjab tradition ; and some surprising conclusions emerge. **£6·50**

The Oxford English-Arabic Dictionary of Current Usage

Edited by **N. S. Doniach**

English-Arabic dictionaries tend to list only a few shades of meaning in rendering English words and not to guide the user to the relevant context. Moreover, they rarely distinguish between levels of usage either in English or in Arabic. This dictionary has been compiled with a full awareness of defects of this type, and, based on a fresh and independent appraisal for each entry, it breaks new ground. £12

An Etymological Dictionary of Pre-Thirteenth Century Turkish

Sir Gerard Clauson

This book lists, as completely as possible, all words occurring in Turkish texts before A.D. 1200, except Sanskrit loan words used only in Buddhist texts and Arabic and Persian loan words which entered the language with Islam, and gives an etymological analysis and outline of the subsequent history of most of them. £24

A Descriptive Geography

Patricia M. Bartz

The book opens with a brief survey of Korean history and culture. Later chapters are divided into a systematic geographical analysis of the country and then descriptions of its regions. 64 photographs

The Industrial Colony

A Political, Social and Economic Survey
