

# UNLOCK THE ANSWERS

## Rafter Radiocarbon dating services and Stable Isotope science

Our isotope services help you unlock the answers to ecological and environmental history. Whether you seek knowledge of “a moment in time” from radiocarbon dating, or “inside knowledge” of isotope processes, Rafter Radiocarbon and GNS Science can provide the answers.

- 8–10 week reporting times and 3 week express services for  $^{14}\text{C}$
- radiometric  $^{14}\text{C}$  dating for large samples
- bone C and N analysis (%C, %N,  $\delta^{13}\text{C}$ ,  $\delta^{15}\text{N}$ , C:N)
- free consulting and calibration services
- 2–4 wk turnaround for stable isotope analysis
- analysis of  $\delta^{13}\text{C}$ ,  $\delta^{15}\text{N}$ ,  $\delta^{34}\text{S}$ ,  $\delta^{18}\text{O}$  and  $\delta\text{D}$  values for all sample types; 10% discount when 5 isotopes ordered
