

Earth and Environmental Science

Transactions of the Royal Society of Edinburgh

volume 106 part 4 2016

Special Issue

Form, Function and Palaeobiology

Published by The RSE Scotland Foundation, 22–26 George Street, Edinburgh EH2 2PQ

The Royal Society of Edinburgh is committed to the widespread dissemination of scientific knowledge and has published the *Transactions of the Royal Society of Edinburgh* since 1785, when James Hutton's 'Theory of the Earth' was published in volume 1. The journal evolved to the *Transactions of the Royal Society of Edinburgh: Earth Sciences* in 1980 and is now (as from 2007) the *Earth and Environmental Science Transactions of the Royal Society of Edinburgh*. Through this journal, the Society continues to encourage and support the international Earth and Environmental Science communities by:

- publishing a journal of international standing and authorship;
- publishing substantial papers on all scientific aspects of **the Earth and its surface environments**;
- publishing without page or colour charges;
- reproducing photographs and artwork to the highest standard, where appropriate at a size larger than is customary; and
- aiming to have papers reviewed within three months by at least two referees of international standing; and usually publishing within six months of acceptance.

The Editorial Board welcomes original manuscripts in the Earth and Environmental Sciences. It also welcomes proposals for Special Issues in these areas.

Editorial Board (as at June 2016)

Donald DAVIDSON (<i>Chairman & Editor-in-Chief</i>), University of Stirling <i>Soil science; soil conservation; anthropogenic impacts on soils; soil biodiversity; geoarchaeology</i>	Adrian FINCH (<i>Editor</i>), University of St Andrews <i>Geochemistry; mineralogy; petrology</i>
Mike BENTON (<i>Editor</i>), University of Bristol <i>Vertebrate palaeontology; mass extinctions; palaeobiology; fossil reptiles; Permian; Triassic; macroevolution</i>	John GORDON (<i>Editor</i>), University of St Andrews <i>Geodiversity; geoconservation; Quaternary research</i>
Mike BILLETT (<i>Editor</i>), University of Stirling <i>Soil and surface water biogeochemistry; carbon cycling</i>	Alistair MCGOWAN (<i>Editor</i>), BioGeoD, Edinburgh <i>Palaeobiology; biodiversity; invertebrate palaeontology; the Fossil record</i>
Rob BINGHAM (<i>Editor</i>), University of Edinburgh <i>Subglacial environments; landscape evolution</i>	Andrew ROSS (<i>Editor</i>), National Museums Scotland, Edinburgh <i>Invertebrate palaeontology; palaeobiology; palaeoecology; palaeoenvironment; palaeoclimate</i>
Paul BISHOP (<i>Editor</i>), University of Glasgow <i>Geomorphology; long-term landscape evolution & tectonics; Cenozoic geology</i>	Phil STONE (<i>Editor</i>), British Geological Survey, Edinburgh <i>Scottish and South Atlantic regional geology and tectonics</i>
Kevin EDWARDS (<i>Editor</i>), University of Aberdeen <i>Environmental change in northern Europe & North Atlantic; Palynology; palaeoecology; Quaternary science; environmental archaeology</i>	Alan WERRITTY (<i>Editor</i>), University of Dundee <i>Water resources & climatic change; flood hydrology & geomorphology; river sediments; geomorphic sensitivity; history of geography</i>
Tony FALLICK (<i>Editor</i>), University of Glasgow <i>Isotope biogeosciences; economic geology; dating & geochronology; the Palaeoproterozoic & Neoproterozoic</i>	Paul YOUNGER (<i>Editor</i>), University of Glasgow <i>Engineering, hydrogeology, hydrochemistry, hydrology</i>

COPYRIGHT: It is the policy of the Royal Society of Edinburgh not to charge any royalty for the production of a single copy of any one article made for private study or research. Specific permission will not be required for photocopying multiple copies of copyright material, to be used for *bona fide* educational purposes, provided this is done by a member of the staff of the university, school or other comparable institution, for distribution without profit to student members of that institution, and provided the copies are made from the original journal. Requests for the copying or reprinting of any article for any other purpose should be sent to the Journals & Archive Officer at the Royal Society of Edinburgh. (publications@theRSE.org.uk).

Earth and Environmental Science Transactions of the Royal Society of Edinburgh is published as one volume of four parts per year, usually in a combination of single and double issues.

Volume 107 (2017) will provisionally be published in three parts - one double issue and two single issues

An annual subscription to *EESTRSE* costs GBP344/ USD631 (Print plus Online); or GBP299/ USD544 (Online only).

Orders should be placed with Cambridge University Press, Journals Fulfilment Department, UPH, Shaftesbury Road, Cambridge CB2 8BS, UK. Telephone: +44 (0)1223 326070; Fax: +44 (0)1223 325150; email: journals@cambridge.org

EESTRSE is indexed/abstracted in the following: Current Contents/Physical, Chemical & Earth Sciences; Biosciences Information Service; Geoabstracts; GEOBASE; Mineralogical Abstracts; Science Citation Index; SciSearch; VINITI (All-Russian Institute of Scientific and Technical Information); *Zoological Record*.

CONTENTS

Sergio F. VIZCAÍNO, Euan N. K. CLARKSON and Brigitte SCHOENEMANN Form, Function and Palaeobiology: Preface	207
Brigitte SCHOENEMANN and Euan N. K. CLARKSON Vision in fossilised eyes	209
J. ECHEVARRÍA, S. E. DAMBORENEA and M. O. MANCENÍDO Constructional morphology of the shell/ligament system in opisthogyrate rostrate bivalves	221
Carlos Roberto A. CANDEIRO, Philip J. CURRIE, Caio L. CANDEIRO and Lílían P. BERGQVIST Tooth wear and microwear of theropods from the Late Maastrichtian Marília Formation (Bauru Group), Minas Gerais State, Brazil	229
Paula BONA, Ariana PAULINA CARABAJAL and Zulma GASPARINI Neuroanatomy of <i>Gryposuchus neogaeus</i> (Crocodylia, Gavialoidea): a first integral description of the braincase and endocranial morphological variation in extinct and extant gavialoids	235
Yanina HERRERA, Marta S. FERNÁNDEZ, Susana G. LAMAS, Lisandro CAMPOS, Marianella TALEVI and Zulma GASPARINI Morphology of the sacral region and reproductive strategies of Metriorhynchidae: a counter-inductive approach	247
Federico J. DEGRANGE The hind limb morphometry of terror birds (Aves, Cariamiformes, Phorusrhacidae): their functional implications for substrate preferences and locomotor lifestyle	257
Sebastian ECHARRI, Marcos D. ERCOLI, M. Amelia CHEMISQUY, Guillermo TURAZZINI and Francisco J. PREVOSTI Mandible morphology and diet of the South American extinct metatherian predators (Mammalia, Metatheria, Sparassodonta)	277
N. TOLEDO, M. S. BARGO, S. F. VIZCAÍNO, G. DE IULIIS and F. PUJOS Evolution of body size in anteaters and sloths (Xenarthra, Pilosa): phylogeny, metabolism, diet and substrate preferences	289
Guillermo H. CASSINI, Santiago Hernández DEL PINO, Nahuel A. MUÑOZ, M. V. Walter G. ACOSTA, Mercedes FERNÁNDEZ, M. Susana BARGO and Sergio F. VIZCAÍNO Teeth complexity, hypsodonty and body mass in Santacrucian (Early Miocene) notoungulates (Mammalia)	303
Nahuel A. MUÑOZ, G. H. CASSINI, Adriana M. CANDELA and Sergio F. VIZCAÍNO Ulnar articular surface 3-D landmarks and ecomorphology of small mammals: a case study of two early Miocene typotheres (Notoungulata) from Patagonia	315
J. TARQUINI, N. TOLEDO, C. C. MORGAN and L. H. SOIBELZON The forelimb of † <i>Cyonasua</i> sp. (Procyonidae, Carnivora): ecomorphological interpretation in the context of carnivorans	325
Marcos D. ERCOLI Morpho-functional analysis of the mastoid region of the extinct South American mustelid † <i>Stipanicia pettorutii</i>	337
