## AGRONOMY JOURNAL

Agronomists throughout the world have found the *Agronomy Journal*, monthly publication and official organ of the American Society of Agronomy, a source of up-to-date reports on agronomic research. Workers in the fields of forages and pastures, small grain improvement, corn, fibre crops and legumes, cultural practices, and soil fertility, as well as closely allied fields of investigation find articles of lasting interest in the *Agronomy Journal*. Publication is open to members of the American Society of Agronomy.

Non-member subscriptions:

\$14.00 per year, U.S. and Canada.

\$15.00 per year elsewhere.

# A MODERN GRAIN MILL FOR QUICK, ACCURATE ANALYSIS AND MOISTURE DETERMINATION

The Casella grain mill is an efficient machine for grinding grain for quick accurate analysis and moisture determination. Because it *shears*, as it powders, the Casella mill reduces grain to an even powder without a vitiating temperature rise, and in the case of high moisture content, without forming a clogging paste. Cleaning therefore between sampling is a quick and easy process.
