A Student's Book on Soils & Manures

SIR E. J. RUSSELL

This well-known practical text-book
for students of Agriculture was first
published in 1915, has been reprinted
eight times, and is still in constant
demand. The author has revised this
fourth edition to take account of
changes in agricultural science and
technology.

THE EMPIRE JOURNAL OF EXPERIMENTAL AGRICULTURE

THIS JOURNAL offers agricultural research workers a medium for disseminating the records and results of their investigations on the feeding and management of live stock, cultivation and manuring of crops, trial of farm machinery, agricultural economics, and experimental technique.

Vol. XVIII. No. 71

CONTENTS

July 1950

COLIN MAHER: Soil Conservation in Kenya Colony. Pt. I. Factors affecting Erosion, Soil Characteristics, and Methods of Conservation

D. J. WATSON: Inflammability of Cereal Crops in Relation to Water-content

I. SIRRY, A. M. EL-SOKKARY and H. A. HASSAN: Milk Production of Egyptian Sheep. With Plate 8

W. G. TEMPLEMAN and D. J. HALLIDAY: Pt. II. The Effect of Plant-growth Regulators upon Cereal Crops.

REGINALD CHILD: Recent Research on the Coconut Palm with Special Reference to Ceylon.

MUKHTAR SINGH: Confounding in Split-plot Designs with Restricted Randomization of Sub-plot Treatments.

R. O. DAVIES, W. E. J. MILTON and J. R. LLOYD: Pasture Productivity in Mid-Wales: Pt. I. Experimental Methods of Measurement. With Plate 9.

A. W. S. HUNTER and F. H. WHITE: Breeding for Disease-resistance in Canada. Pt. III. Horticultural Crops and Tobacco.

R. G. H. WILSHAW: Agronomic and Breeding Research on Rice, Oil-palms, and Cacao in Malaya. Pt. I. Rice.

Royal 8vo. 7s. 6d. net. Annual subscription (four numbers) 20s. post free.

REDCLIFFE N. SALAMAN

The History & Social Influence of the Potato

'Throughout its pages there is much of practical interest to farmers, especially on methods of cultivation, old and new, but above all the book makes good reading. It is written by one of the world's leading scientific workers on the potato, who began life as a doctor of medicine and has never lost the doctor's realistic view of humanity. There is also something of Faust about it all... It is a doctor's vision of Man, Potatoes and the Devil.'

E. C. LARGE in *Agriculture*. 50s. net

Potato Varieties

NATURE, reviewing the book when it was first published, said of it that it 'certainly constitutes the best text-book extant on the scientific problems of potato-breeding. As such, it should prove a welcome addition to the library of the scientific worker and, especially in regard to varieties, to that of the enlightened agriculturist.'

AGRONOMY JOURNAL

Volume 42

October, 1950

Number 10

- Plant Studies with Radioactive Sodium, by Chester D. Leonard and Stephen J. Toth
- The Effect of Cropping Systems and Soil Treatment on the Water-stable Aggregates in a Claypan Soil in Southeastern Kansas, by David D. Neher
- The Estimation of Oil Percentage in Safflower Seed and the Association of Oil Percentage with Hull and Nitrogen Percentages, Seed Size, and Degree of Spininess of the Plant, by C. E. Claassen, W. G. Ekdahl and G. M. Severson
- Reaction of Wheat Varieties with Known Genes for Resistance to Races of Bunt, *Tilletia caries* and *T. foetida*, by F. N. Briggs and C. S. Holton
- A Comparison of Cage and Mower Strip Methods with Grazing Results in Determining Production of Dairy Pastures, by R. E. Wagner, M. A. Hein, J. B. Shepherd and R. E. Ely
- The Use of Soft Resin Content for Evaluating Hops, *Humulus lupulus* L., by K. R. Keller, D. E. Bullis and R. A. Magee
- The Differential Response of Two Soil Associations to Rock Phosphate, by R. S. Smith
- Disease Reaction and Agronomic Qualities of Oats Selections from a Columbia×Victoria-Richland Cross, by J. M. Poehlman and C. H. Kingsolver
- The Effect of Selection for Combining Ability Within Segregating Lines of Corn, by John H. Lonnquist
- A Method of Adjustment for Calculating Comparable Yields in Variety Tests, by R. E. Patterson
- The Influence of Acid-forming and Neutralized Fertilizers on the Soil Reaction and Nutrient Level in the Irish Potato Row During the Growing Season, by E. M. Runton, Jr., F. W. Bell and M. E. Taylor
- The Use of Agronomists in Time of National Emergency, by C. L. W. Swanson, Wm. A. Albrecht, W. H. Leonard, J. B. Peterson and S. C. Vandecaveye

Subscription prices: \$10.00 per year, postpaid, in the United States and Canada; single copy price, \$1.00. All other subscriptions, \$11.00; single copies, \$1.10

CONSTANT research in the science of machine milking has done much to increase the quality of milk, and the economy of its production throughout many parts of the world. Much has yet to be done and Gascoignes are working for universally better milk production under ideal conditions.
