

BULLETIN

Volume 7 (1972)

of the Australian Mathematical Society

Number 2

Eric Warren	<i>A note on a result of K. D. Magill, Jr</i>	161
F. W. Wilke	<i>Pseudo-fields and doubly transitive groups</i>	163
K. R. Pearson	<i>On the units of a modular group ring</i>	169
Joe Howard and Kenneth Melendez	<i>Sufficient conditions for a continuous linear operator to be weakly compact</i>	183
William M. Pender	<i>Classical groups over division rings of characteristic two</i>	191
E. J. G. Pitman	<i>Simple proofs of Steck's determinantal expressions for probabilities in the Kolmogorov and Smirnov tests</i>	227
Jennifer Wallis and Albert Leon Whiteman	<i>Some classes of Hadamard matrices with constant diagonal</i>	233
B. J. Noye	<i>On the differential equation for the conventional tide-well system</i>	251
Joan Cooper and Jennifer Wallis	<i>A construction for Hadamard arrays</i>	269
William Haebich	<i>The multiplier of a regular product of groups</i>	279
Anne Penfold Street	<i>Maximal sum-free sets in abelian groups of order divisible by three: Corrigendum</i>	317
William M. Pender	<i>Classical groups over division rings of characteristic two: Corrigenda and an acknowledgement</i>	319
Abstracts of Australasian PhD theses		
Neil Charles Powers	<i>Operator theory on quaternionic Hilbert spaces</i>	297
John Llewellyn Hickman	<i>An investigation of several finiteness criteria relative to Zermelo-Fraenkel set theory</i>	300
M. P. Quine	<i>Multitype Galton-Watson processes</i>	301
William Ian Robertson	<i>Wave packet scattering and time delay</i>	303
John K. Adams	<i>The theory of waves in dispersive systems and its application to problems in physical oceanography</i>	305
Brailey Sims	<i>On numerical range and its application to Banach algebras</i>	307
R. F. Matlak	<i>Study of limit cycles of an autonomous system of differential equations</i>	309
Robert Edward Robson	<i>Transport phenomena in neutral and ionized gases</i>	312
Keith William Robson	<i>Strongly magnetic, rapidly rotating main-sequence stars</i>	313
Howard John Connell	<i>Theory and applications of the interaction between surface waves and currents in water of varying depth</i>	315

Bull. Austral. Math. Soc. Vol. 7 (1972) No. 2, pp. 161-319

THE UNIVERSITY OF QUEENSLAND PRESS
ST LUCIA, QUEENSLAND 4067

THE AUSTRALIAN MATHEMATICAL SOCIETY

President: G. Szekeres University of New South Wales
Secretary: W. Pye Secondary Teachers' College,
Swanston Street, Parkville, Victoria 3052, Australia
Treasurer: V. G. Hart Department of Mathematics,
University of Queensland
St Lucia, Queensland 4067, Australia.

(These officers serve until May 1973)

Membership and correspondence

Applications for membership, notices of change of address or title or position, and other correspondence, except as noted below, should be sent to the Secretary (address above). Subscriptions and correspondence related to accounts should be sent to the Treasurer (address above). Correspondence about the distribution of the Society's JOURNAL and BULLETIN, and orders for back numbers, should be sent to the Business Manager, whose address is the same as the Treasurer's (above).

Publications

The JOURNAL of the Australian Mathematical Society began publication in 1959, and now appears in two volumes, each of four parts, annually. Manuscripts for publication should be sent to the Editor:

Professor B. Mond,
Department of Mathematics,
La Trobe University,
Bundoora, Victoria 3083, Australia,

or to one of the Associate Editors listed in a recent part of the JOURNAL.

The BULLETIN of the Australian Mathematical Society began publication in 1969. Two volumes of three numbers each are published annually. Manuscripts for publication should be sent to the Editor:

Professor B. H. Neumann,
Department of Mathematics,
Institute of Advanced Studies,
Australian National University,
POB4, Canberra, ACT 2600, Australia,

or to the Associate Editor, Dr L. G. Kovács, at the same address.

Authors receive 50 free offprints of their papers and may order more at cost. Offprint orders and correspondence about proofs should be sent to one of the Assistant Editors:

Associate Professor A. McMullen, or
Department of Mathematics,
Royal Military College,
Duntroon, ACT 2600, Australia.

Dr. S. Yamamuro,
Department of Mathematics,
Institute of Advanced Studies,
Australian National University,
POB4, Canberra, ACT 2600, Australia.
