Journal of Policy History

The *Journal of Policy History* provides an interdisciplinary forum for scholars concerned with the application of historical perspectives to public policy studies. The journal aims to encourage research into the formation and development of public policy while encouraging the application of diverse methods and theories to public policy and their politics within a historical perspective. In addition to social scientists and historians, the journal seeks to inform policy makers through a historical approach to public policy.

The *Journal of Policy History* is intended to give voice to scholars interested in understanding public policies and their development through historical inquiry and interpretation. The journal publishes historical studies of specific policy areas and policy institutions, and explores continuities and shifts in policy over time. The journal encourages interdisciplinary research into the origins and development of public policy in the United States and other countries. Comparative historical approaches to the development of public policies are also welcomed.
