New and Recent Books on Latin America

THE GRAND STRATEGY OF THE UNITED STATES IN LATIN AMERICA

Tom J. Farer

In this collection of essays, Tom Farer examines critically the stand taken by U.S. foreign policy makers on such issues as right- and left-wing dictatorships, revolution, human rights and national autonomy. In this fascinating manner, fusing sharp observations at times with polemical intent, Farer scrutinizes the key assumptions, including the "Soviet or revolutionary threat," which have guided American foreign policy for Latin America since the end of World War II. Farer describes the grand strategy of the United States in Latin America (he sees very much the same strategic assumptions guiding U.S. policy throughout the Third World) as unrealistic and misguided in terms both of U.S. interests and ideals. His essays combine a sophisticated analysis of Latin American society with assessment of U.S. policy from legal, moral and strategic perspectives.

THREE LATIN AMERICAN SOCIOLOGISTS

GINO GERMANI, PABLO GONZALES CASANOVA, FERNANDO HENRIQUE CARDOSO

Joseph A. Kahl, new Introduction by Peter B. Evans

This is the long overdue second edition of Joseph A. Kahl's masterful *Modernization, Exploitation, and Dependency* in Latin America. In the book, Kahl describes, examines and introduces the life and work of three of the most important figures in the development of comparative politics and political sociology: Gino Germani (Argentina), Pablo Gonzales Casanova (Mexico) and Fernando Henrique Cardoso (Brazil). As Peter B. Evans points out in his splendid Introduction, the book has not lost its importance and attractiveness in the years that have passed. Rather, the subsequent developments in comparative scholarship, as exemplified in the fate of modernization and dependency theory, have only highlighted the influence of the three Latin Americans.

POLITICS AND PETROLEUM IN ECUADOR

John D. Martz

In this book, John D. Martz probes the differences and similarities between military authoritarianism and democratic pluralism through an analysis of the politics of petroleum in Ecuador. Martz uses a textured and detailed analysis of global oil companies and nationalist politics to trace the growth and evolution of Ecuador's petroleum industry. Against this interplay of politics and the nationalistic struggle against multinational pressures, he compares policymaking under military and civilian government.

REVOLUTION AND REACTION: BOLIVIA 1964-1985

James M. Malloy and Eduardo Gamarra

This volume focuses on two decades of political life in Bolivia, from the overthrow of civilian president Victor Paz Estenssoro in November, 1964 until his return to office in August, 1985. The body of the book provides an account of the main contours of political economy in Bolivia from 1964 until 1985. The authors also present an interpretative analysis of the problem of regime formation in Bolivia by focusing on the alternations among various authoritarian and democratic modes of governance. In a concluding chapter the authors provide an analytical framework tying Bolivia into more regional trends concerning the questions of regime formation and transition. Bolivia is seen as an extreme case of a common set of problems that have pervaded the region during this period.
