

**Jems Communications congratulates the
National Association of EMS Physicians on ten years
of outstanding service to the distinguished
EMS professionals across the United States and Canada.**

*The mission of NAEMSP is
"to foster excellence and provide
medical leadership so that all
individuals and communities receive
quality out-of-hospital emergency
medical services." To this end
NAEMSP has worked tirelessly.
We invite PDM readers to join us
in saluting NAEMSP's efforts.*

For information about joining NAEMSP write to:
National Association of EMS Physicians
230 McKee Place, Suite 500
Pittsburgh, PA 15213 800/228-3677

All memberships include a subscription to *Prehospital and Disaster Medicine*,
discount meeting rates, newsletter and access to the EMS database.

The word on the street is Nellcor.

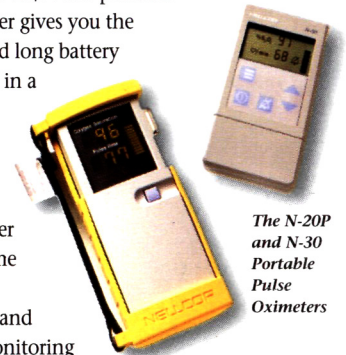

When you need performance, and you need it to go.

The Nellcor EMS series represents the leading edge in rugged patient safety monitoring performance. So no matter what you're looking for, you're assured of the product quality, support, training and service that has made the Nellcor name synonymous with pulse oximetry.

Two pulse oximeters for reliable, flexible, hassle-free SpO₂ assessment.

Our new N-20/N-20P portable pulse oximeter gives you the durability and long battery life you need in a hand-held portable monitor.

Our N-30 pulse oximeter offers the same assurance of precise SpO₂ and pulse rate monitoring and simple operation as the N-20, in a conveniently small size.

The N-20P and N-30 Portable Pulse Oximeters

Two alternatives for emergency or transport ET/CO₂ monitoring.

Nellcor's N-60 STAT CAP™ airway CO₂ indicator is a rugged, hand-held monitor that's ideal for verifying correct endotracheal tube placement during emergencies or transport.

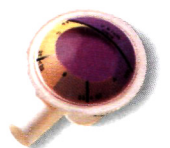

Ideal for ambulances, crash carts and emergency departments, the EASY CAP® disposable, colorimetric detector gives you fast and easy ET/CO₂ assessment for up to two hours.

The N-60 STAT CAP Airway CO₂ Indicator

The Nellcor EMS Series.

If you're looking for cost-effective, dependable, sophisticated monitoring technology designed for the real world, Nellcor not only has the products you want, it has them to go. Call today for more information.
