

INDEX TO VOL. LXXXVIII.

The General Index covers original articles, reviews and the epitome, and includes subjects dealt with as well as the titles of articles.

The following names are printed in SMALL CAPITALS: authors of original articles and of books reviewed. Names of authorities referred to in the text are in ordinary type.

(R.) indicates a *Review*; the title of the book reviewed is followed by the author's name, thus: "Psycho-analysis and its Derivatives, by H. Crichton-Miller (R.)."

(E.) indicates the *Epitome* section; the title of the abstract is followed by the author's name, thus: "Age and human ability. Miles, W. R. (E.)."

The names of authors referred to in the Epitome section are listed in Part II.

PART I.—GENERAL INDEX.

- Acetylcholine and histamine, the action of several perfect and imperfect sympathomimetic drugs on the vascular effects of. Bariéty, M., and Kohler, D. (E.), 645
- " and prostigmine, the effects of intra-arterial injection of, in normal man. Harvey, A. M., Lilienthal, J. I., jun., and Talbot, S. A. (E.), 645
- " content of the central nervous system, cholinesterase activity and. Cortell, R., Feldman, J., and Gellhorn, E. (E.), 631
- " convulsant action of. Moussatché, H., and Dias, M. V. (E.); 645
- " effect of, on the spinal cord. Beritov, I. S., and Bakuradze, A. (E.), 478
- " metabolism, relation between vitamin B₁ and. Brücke, F. T., and Sarkander, H. (E.), 625
- " the action of, on the spinal cord. Beritov, I. S., and Bakuradze, A. (E.), 380
- " the distribution of, in the peripheral and central nervous systems. MacIntosh, F. C. (E.), 380
- Acoustic area of the monkey (*Macaca mulatta*), the. Ades, H. W., and Felder, R. (E.), 465
- Acromegaly, the hormone treatment of, by E. L. Hutton and M. Reiss, 550
- Adrenaline apnoea, the mechanism of. Acevedo, D. (E.), 374
- " effect of, on nerve action potentials. Büllring, E., and Whitteridge, D. (E.), 635
- After-images, disturbances of coloured, in hypoglycaemia. Vujič, V., and Ristič, J. (E.), 155
- Agnosia, acoustic. Ombredane, A. (E.), 372
- Alcohol absorption and intoxication. Rinkel, M., and Myerson, A. (E.), 590
- " "adaption" of the central nervous system to varying concentrations of, in the blood. Mirsky, I., *et al.* (E.), 376
- " addiction and its treatment. Bowman, K. M., and Jellinek, E. M. (E.), 372
- " and epilepsy. Lennox, W. G. (E.), 379
- " the effect of, on mental activity. Wechsler, D. (E.), 644
- " " " on the central nervous system. Eggleton, M. G. (E.), 183
- Alcoholic addiction, conditioned reflex therapy of. Voegtlin, W. L., Lemere, W., and Broz, W. R. (E.), 648
- " patients, chronic, neuropathological findings in the brain and spinal cord of. Alexander I. (E.), 384
- " the chronic, as a neurotic and dreamer. Karpman, B. (E.), 364
- Alcoholica, encephalopathia. Joliffe, N., and Wortis, H. (E.), 452
- Alpha rhythm, conscious time judgments related to conditioned time intervals and voluntary control of the. Jasper, H., and Shagass, C. (E.), 362
- " " in man, conditioning of the occipital. Jasper, H., and Shagass, C. (E.), 362
- " " see also under E.E.G.
- Amaurotic family idiocy, a congenital form of. Norman, R. M., and Wood, N. (E.), 464
- Amines, blood, by D. Richter and M. Lee, 127
- Ammonium chloride and camphorated oil in ether, convulsion treatment of schizophrenia, by Martinez, P., and De la Vega, P. (E.), 153
- Amnesia, retrograde, and thixotropy. Roosen, R. (E.), 466
- Amnesic syndrome, the. Lidz, T. (E.), 594
- Amphetamine sulphate (benzedrine), a pharmacologic and clinical re-evaluation of. Cameron, W. M., and Kasantin, J. (E.), 376
- " " " as a corrective for the depression of sedative medication in epilepsy. Robinson, L. J. (E.), 349
- " " gastro-intestinal motility in the albino rat after administration of. Smith, E., and Penrod, K. E. (E.), 376
- " " see also under Benzedrine.

- Amyotrophic lateral sclerosis. Davison C. (E.), 455
- ANDERSON, E. W., psychiatric syndromes following blast, 328
- Anesthetics, local, studies of the detoxication of. Wastl, H. (E.), 646
- Angioma simplex of the pons. Neuberger, K. T., and Silcott, W. L. (E.), 464
- Anoxia, modification of resistance to, with special reference to high altitude flying. Barash, A. L., Eckman, M., and Malomut, N. (E.), 631
- Anticonvulsant activities of 1-diethylacetyl-5, 5-cyclopentamethylene biuret, sodium diphenylhydantoinate and sodium pentobarbital in mice. Anderson, H. H., and P'an, S. Y. (E.), 642
- " substances, the chemistry of. Putnam, T. J., and Merritt, H. H. (E.), 642
- Anxiety and failure in examinations, three cases of. Sutherland, J. D. (E.), 357
- " and its Treatment, by J. Y. Dent. (R.), 142
- Apraxia phenomena in aphasia patients. Imura, T. (E.), 620
- " the unsolved problems of, and some solutions. Nielsen, J. M. (E.), 188
- Arhinencephaly with incomplete separation of the cerebral hemispheres, by G. W. T. H. Fleming and R. M. Norman, 341
- Army, invalidism from, owing to mental disabilities, by R. F. Tredgold, 444
- Arsenical preparations, the influence of organic, on spirochaetal infections of the central nervous system: III. Hozyo, T. (E.), 646
- Arsenious and arsenic acids, morphological changes in the nerve cells of the sympathetic trunk of the frog caused by injection of. Skoblenok, S. (E.), 648
- Arsenobenzene preparations, the influence of, on the retention of relapsing fever spirochaetes introduced into the cerebrospinal fluid of rabbits. Hozyo, T. (E.), 646
- Art, abstract as an expression of human problems. Schilder, P., and Levine, E. L. (E.), 612
- Ascorbic acid-tolerance test and its application to senile and schizophrenic patients, the oral. Stotz, E., Shinnars, B. M., and Chittick, R. A. (E.), 625
- Association, the psychosis of, by L. G. M. Page, 545
- Avertin narcosis, the arousal effects of picrotoxin and coramine. Maloney, A. H. (E.), 644
- Avitaminosis, differences in the changes of the peripheral nerves and nerve endings in experimental, A, B or C. Sekizima, K. (E.), 384
- Axon, effects evoked in an, by the electric activity of a contiguous one. Arvanitaki, A. (E.), 615
- Barbital poisoning, treatment of acute. Bouckaert, J. J., and Marri, R. (E.), 644
- Barbiturate poisoning, acute, the role of picrotoxin in the treatment of. Richards, R. K., and Menaker, J. G. (E.), 644
- " the blood, during prolonged narcosis, by R. F. Chatfield and D. N. Parfitt, 566
- Barbiturates and the liver. Richards, R. K., and Appel, M. (E.), 643
- " colorimetric determination of some, in urine and blood. Belenits'ka, D. S. (E.), 644
- " studies on: XXV. Green, M. W., and Masulin, R. R. (E.), 643
- Barbituric acid derivatives, metrazole in the treatment of poisoning by. Kalliner, S., and Rudberg, T. (E.), 378
- Behavior, the internal environment and, blood-sugar variations and brain function. Gellhorn, E. (E.), 159
- Benzedrine, antagonism of, to the central depressant effort of morphine. Handley, C. A., and Abreu, B. E. (E.), 376
- " effect of, on fatigue of the central nervous system. Simonson, E., Enzer, N., and Flicker, D. A. (E.), 650
- " use of, in the treatment of chronic alcoholism. Rosenbaum, M., and Lams, L. (E.), 590
- " see also under Amphetamine.
- BERLINER, F., and MAYER-GROSS, W., observations in hypoglycaemia. III: C.S.F. sugar and coma, 82
- " " observations in hypoglycaemia. IV: Body temperature and coma, 419
- Beta erythroidine hydrochloride, clinical trial of, in hypertonic and in hyperkinetic states. Eisenstein, V. W., and Tarlan, M. (E.), 168
- Biochemical disturbances in mental disorders. Meduna, L. J., Genty, F. J., and Urse, V. G. (E.), 456
- Biophysics, Mathematical, by N. Rashevsky. (R.), 145
- Bistovol as an adjuvant to malaria in general paralysis, by R. Pakenham-Walsh, 344
- Blast, psychiatric syndromes following, by E. W. Anderson, 328
- Blood-flow in schizophrenia and other abnormal mental states, peripheral. Abramson, D. I., Schkloven, N., and Katzenstein, K. H. (E.), 174
- " intracranial, in dementia paralytica, cerebral atrophy and schizophrenia. Rosenbaum, *et al.* (E.), 598
- BLYTH, Wm., pentothal sodium narcoanalysis, 504
- Body resistance, the measurement of, by bridge methods, by W. Grey Walter, 306

- Brain, action of electrolytes on the metabolism of. Noyons, A. K. M., and van Goor, H. (E.), 472
- „ and other tissues, iron-induced oxidations in. Panimon, F., Horwitt, M. K., and Gerard, R. W. (E.), 638
- „ biologically active substances of the metabolism of: II. Gerchikova, K. A. (E.), 383
- „ cells in hypnotic poisoning, isoelectric point of. Aizawa, T. (E.), 637
- „ changes in, after electrically induced convulsions in cats. Alpers, B. J., and Hughes, J. (E.), 592
- „ „ in pertussis with convulsions. Dolgopol, V. B. (E.), 353
- „ chemical changes in, produced by injury and anoxia. Stone, W. E., Marshall, C., and Nims, L. F. (E.), 631
- „ comparative study of the metabolism of the infant and adult. Himwich, H. E. (E.), 635
- „ cortex, respiration of, effect of inorganic ions on. Canzanelli, A., Rogers, G., and Rapport, D. (E.), 639
- „ effect of the products of the metabolism of, on the tone of the smooth muscles. Gerchikova, K. A. (E.), 382
- „ extracts, glycolysis and phosphorylation in. Ochoa, S. (E.), 472
- „ in sickle-cell anemia, the. Wertham, F., Mitchell, N., and Angrist, A. (E.), 598
- „ in various conditions of the vegetative nervous system, carbohydrate and mineral metabolism in the. Lokshina, E. S. (E.), 638
- „ iron in the. Gold, P., and Horwitt, M. K. (E.), 638
- „ lesions, organic, and degeneration of moral conduct. Meyer, J. E. (E.), 181
- „ mechanism of glycolysis in, in animals in different stages of ontogenesis. Khaikina, B. I. (E.), 385
- „ metabolism of cretins, effect of thyroid medication on. Himwich, H. E., *et al.* (E.), 586
- „ „ the effect of, on the formation of glycogen and bile in the liver. Gerchikova, K. A. (E.), 637
- „ „ VIII: The effects of electric shock and some newer drugs. Wortis, S. B., *et al.* (E.), 452
- „ metabolites, influence of the vegetative nervous system on the biological properties of the. Lokshina, E. S. (E.), 382
- „ „ the influence of the neurovegetative system on the character of. Rosin, Ya. A., and Krichevskaya, E. (E.), 383
- „ morphine and barbiturates in. Favarger, P. (E.), 644
- „ of animals of various ages, glycolysis in the. Epel'baum, S. E., and Skvirskaya, E. V. (E.), 632
- „ of infant and adult dogs, comparative studies on the metabolism of the. Himwich, H. E., and Fazekas, J. F. (E.), 638
- „ oxidation, human, the availability of ethyl alcohol for. Goldfarb, W., and Wortis, J. (E.), 634
- „ oxidations, inhibition of, by a convulsant barbiturate. Fuhrman, F. A., Martin, A. W., and Dille, J. M. (E.), 477, 479
- „ respiration, thyroid and. Rossiter, F. J. (E.), 636
- „ the influence of growth and myelination in the deposition and metabolism of lipides in the. Waelsch, H., Sperry, W. M., and Stoyanoff, V. A. (E.), 475
- „ the metabolism of, and the humorally active substances of the central nervous system. Rubel, V. M., Frid, A. I., and Kislinskii, A. N. (E.), 380
- „ the relation between the metabolism of, and the condition of the haematoencephalic barrier. IV: Nitrogen metabolism of the brain. Kassil, G. N. (E.), 382
- „ tissue fixed in formalin, the swelling of. Watanabe, E. (E.), 632
- „ „ observations on the carbohydrate metabolism of, with special reference to the potassium effect. Kimura, Y. (E.), 637
- „ „ oxygen consumption, o-phenanthroline as accelerator of. Panimon, F., Horwitt, M. K., and Gerard, R. W. (E.), 638
- „ „ the nature of the organic acids in. Epshtein, Ya. A. (E.), 635
- „ „ the oxidation of various sugars by. Bernheim, F., and M. L. C. (E.), 381
- „ tissues, changes in the metabolic processes in, in bromocamphor epilepsy. Szörenyi, E. T., Kucherova, L. L., and Fuks, K. M. (E.), 385
- „ „ *in vitro*, effect of certain antiseptics on the respiration of. Manifold, M. C. (E.), 477
- „ tumors, experimental. Zimmerman, H. M., and Arnold, H. (E.), 471
- „ volume, changes in, during anaesthesia. White, J. C., *et al.* (E.), 649
- „ see also under Cerebral.
- BRODY, M. B., the measurement of dementia, 317
- „ a psychometric study of dementia, 512
- Bromides, blood. Liebman, S., and Richman, E. (E.), 614
- Bulbocapnine, action of, on extrapyramidal tract. Nehara, T. (E.), 376
- „ an analysis of the action of, in spinal animals. Ward, J. W., and Kolb, L. C. (E.), 478
- BUROS, O. K., the Nineteen-Forty Mental Measurements Year-book. (R.), 144

- Calcium and strontium salts, effect of, on the action of sodium pentobarbital. Cole, V. V. (E.), 478
- „ of young rats, effect of rickets and ergosterol on the brain and liver. Linder, G. C. (E.), 380
- Carbohydrate metabolism in the central and peripheral nervous system. Epel'baum, S. E. (E.) 631
- „ „ in narcosis. Fedorov, I. I. (E.), 477
- Carbon disulfide absorption and intoxication, mental symptoms following. Braceland, F. J. (E.), 647
- „ „ poisoning in cats, neuropathologic changes in experimental. Ferraro, A., Jervis, G. A., and Flicker, D. A. (E.), 650
- „ flocculation test in the spinal fluid, the diagnostic value of the colloidal. Szanto, P. B., Burack, S., and Kreisler, O. (E.), 629
- Cardiazol fits in birds, the mechanisms involved in the production of. Noriega, G., and Rolondo, H. (E.), 374
- „ and pernocton, clinical experimental observations on the intracarotid injection of. Yasukoti, G. (E.), 477
- „ therapy, a year of. Villocian, J. M., and Sanchez Garcia, A. (E.), 152
- „ „ cerebral changes caused by. Becker, M. P. (E.), 374
- „ treatment, a case of hysterical stupor recovering after, by W. L. Neustatter, 440
- „ see also under Convulsions and Metrazole.
- Cardiotonic action, the central origin of. Hukuda, T. (E.), 378
- CARTER, A. BARHAM, the prognostic factors of adolescent psychoses, 31
- Catatonia, hyperthyrotic: a schizophrenic symptom-complex, by R. E. Hemphill, 1
- Central nervous system, direct action of chemical agents on. Shtern, L. S., *et al.* (E.), 383
- Cephalin, the nitrogenous constituent of. Blix, G. (E.), 636
- Cerebellar action potentials in response to stimulation of the cerebral cortex in monkeys and cats. Dow, R. S. (E.), 615
- „ atrophy, familial cortical. Hall, B., Noad, K. B., and Latham, O. (E.), 187
- „ disorders of locomotion in dogs, the mechanism of. Schmelkin, D. G. (E.), 639
- Cerebral anoxia and ether anesthesia. Courville, C. B. (E.), 648
- „ cortex, the response of the, to local application of strychnine nitrate. Dusser de Barenne, J. G., *et al.* (E.), 648
- „ dominance, concerning transfer of, in the function of speech. Needles, W. (E.), 613
- „ evolution, side lights on, brain size of lower vertebrates and degree of cortical folding. Bonin, G. v. (E.), 610
- „ hemisphere, right, an evaluation of the physical and mental capabilities following removal of the. Karnosh, L. J., and Gardner, W. J. (E.), 638
- „ tissue, the metabolism of, the concentration of oxygen and Warburg's technique. Noyons, A. K. M., and van Goor, H. (E.), 634
- „ see also under Brain.
- Cerebrosides, determination of. Brand, F. C., and Sperry, W. M. (E.), 473
- Cerebrospinal fluid and serum, the influence of acidosis and alkalosis on the physico-chemical properties of. Utevskaia, L., and Rutberg, R. (E.), 385
- „ „ changes following cerebrovascular accidents. Brown, C. H. (E.), 474
- „ „ chloride in blood and, in newborn infants. Okuda, S. (E.), 386
- „ „ cisternal and lumbar, in relation to normal values. Lima, T., Tancredi, F., and dos Reis, J. B. (E.), 184
- „ „ determination of iron in the. Vonkennel, J., and Tilling, T. (E.), 474
- „ „ findings in swineherd's meningitis. Wehrin, H. (E.), 475
- „ „ inorganic phosphorus of blood and. Okuda, S. (E.), 386
- „ „ obstetrical and gynaecological study on the amount of vitamin C in the. Wakabayasi, K., *et al.* (E.), 474
- „ „ of newborn infants, acetone content of blood and. Okuda, S. (E.), 629
- „ „ „ contents of non-protein nitrogen in blood and. Okuda, S. (E.), 629
- „ „ „ „ iodic number of blood and. Okuda, S. (E.), 629
- „ „ „ „ sugar in blood and. Okuda, S. (E.), 629
- „ „ „ „ total fat content of blood and. Okuda, S. (E.), 629
- „ „ of patients with anterior acute poliomyelitis, heat flocculation reaction of. Perelli, C. (E.), 475
- „ „ protein values determined by tyrosine equivalent method. Marron, T. U. (E.), 474
- „ „ space, injection of heavy water into the. Stern, K., and Dancey, T. E. (E.) 475
- „ „ the diagnostic value of the Takata-Ara reaction in the. Szanto, P. B., and Burack, S. (E.), 629
- „ „ the influence of the direct injection of tetanus antitoxin into, on the development of tetanus. Shtern, L. A., *et al.* (E.), 479
- „ „ the non-protein nitrogen content of. Kurth, W. (E.), 386

- Cerebrospinal fluid**, the reagin content of. London, McK. (E.), 630
 " " total protein in the alcoholic psychoses. Rosen, S. R. (E.), 630
 " " vitamin C content of blood and. Bory, J. (E.), 386
- CHATFIELD, R. F.**, and **PARFITT, D. N.**, the blood barbiturate during prolonged narcosis, 566
- Chemical factors of nerve stimulation in the eating reflex.** Berger, E. N. (E.), 634
- Child art** as aid to the diagnosis of juvenile neurosis. Harms, E. (E.), 348
- Cholesterinemia**, peculiarities in the development of, in experimental mechanical jaundice. Petyunin, I. A. (E.), 473
- Cholesterol**, blood, in asphyxia, the cerebral origin of cholesterinemia. Petyunin, I. A. (E.), 472
 " content of brain in nutritional encephalomalacia of vitamin E-deficient chicks. Adamstone, F. B. (E.), 384
- Cholinesterase activity and acetylcholine content of the central nervous system.** Cortell, R., Feldman, J., and Gellhorn, E. (E.), 631
 " in sciatic nerve of vitamin B₁-deficient pigeons. Pighini, G. (E.), 625
 " serum, and anxiety, by D. Richter and M. Lee, 428
 " " and depression, by D. Richter and M. Lee, 435
 " and the vegetative system. Gal, L. (E.), 381
- Chorea**, a contribution to the study of chronic Huntington's. Pupo, P. P. (E.), 184
 " Sydenham's. Tancredi, F. (E.), 184
- Chronaxie**, optic, effect of acoustic and olfactory stimuli upon, Bogoslovsky, A. L. (E.), 639
- Civilian population** suffers small psychological damage. Gillespie, R. D. (E.), 639
- Cocaine**, a method for the rapid isolation and spectrographic measurement of, from brain tissue. Strait, L. A., Aird, A. B., and Weiss, S. (E.), 479
- Coccarboxylase and vitamin B₁** in central nervous system. Cedrangolo, F. (E.), 625
- Cold**, the effect of, on mental disorders. Talbot, J. H., and Tillotson, K. J. (E.), 359
- Coma**, hypoglycemic, a statistical study of temperature in. Tietz, E. B., Nadler, C., and Klemperer, E. (E.), 478
- Conceptual Thinking in Schizophrenia**, by E. Hamfmann and J. Kasanin (R.), 583
- Conchology**, a new application of. Moore, M., and Gray, M. G. (E.), 467
- Concussion**, experimental cerebral. Denny-Brown, D., and Russell, W. R. (E.), 185
- Conditioned extinction of a reflex in the spinal dog.** Shurrager, P. S., and Cutler, E. (E.), 362
 " reflex hypoglycaemia, glucosuria and hyperglycaemia. Savchenko, V. A. (E.), 472
- Convulsions**, experimental. Musaelyan, S. H. (E.), 641
 " induced, on the relation between schizophrenia, epilepsy and. Yde, A., Lohse, E., and Faurbye, A. (E.), 584
 " of early life, and their relation to the chronic convulsive disorders and mental defect. Thom, D. A. (E.), 586
 " the electrocardiographic changes observed during artificially produced. Lieberman, A. A., and Liebert, E. (E.), 641
 " see also under Cardiazol, Electric, Epilepsy, Metrazole, Vertebral fractures.
- Convulsive mechanism in idiopathic hypoparathyroidism.** McQuarrie, I., Hansen, A. E., and Ziegler, M. R. (E.), 476
 " treatment of hysteria and psychasthenia. y Rosas, F. (E.), 374
 " shock therapy, prevention of traumatic complications by magnesium sulphate. Yaskin, H. E. (E.), 175
- Cooling drugs and cooling centers.** Rosenthal, F. E. (E.), 640
- Coramine treatment of the "reversible" psychosis.** Skorodin, B. (E.), 613
- Corpus callosum and anterior commissure**, cortical origin and distribution of, in chimpanzee (*Pan satyrus*). Bailey, P., Garol, H. W., and McCulloch, W. S. (E.), 363
 " " and anterior commissure, cortical origin and distribution of, in the monkey (*Macaca mulatta*). McCulloch, W. S., and Garol, H. W. (E.), 363
 " " psychobiological studies following section of the. Akelaitis, A. J. E. (E.), 159
 " " studies in: I. Smith, K. O., and Akelaitis, A. J. E. (E.), 594
 " striatum and thalamus of a partially decorticate monkey. Ranson, S. W., S. W., jun., and M. (E.), 351
- Cortex**, adaptation of the human, to continuous stimulation and after-depression of the rhythms. Spielberg, P. I. (E.), 604
- Cortical frequency spectrum in epilepsy.** Gibbs, F. A., Lennox, W. G., and Gibbs, E. L. (E.), 355
 " stimulation in the monkey, characteristics of after-discharge following. Sapirstein, M. R. (E.), 355
- Corticotrophic hormone in the treatment of involutional melancholia with hypopituitarism and pituitary cachexia**, by R. E. Hemphill and M. Reiss, 559
- Couvade in modern England**, the. Inman, W. S. (E.), 357
- Creatinine excretion in schizophrenics.** Horvath, S. M., and Corwin, W. (E.), 379
- CRUMBIE, J. R.**, and **McGREGOR, J. S.**, prefrontal leucotomy, 534
- Curare**: a preventive of traumatic complications in convulsive shock therapy. Bennett, A. E. (E.), 157
 " central effect of. Euler, U. S. v., and Wahlund, H. (E.), 642

- CURRAN, DESMOND, some experiences amongst naval personnel, 494
 Cycliton and sodium barbital, the antagonism between. Algostino, E. (E.), 644
- Dark adaptation, the nature of. Craik, K. J. W., and Vernon, M. D. (E.), 183
- DAVIE, T. M., Hamlet's "madness," 449
- Decerebrate rigidity, pharmacological studies of. Noriega, G., and Rolondo, H. (E.), 374
- Delinquency and the E.E.G. Brown, W. T., and Solomon, C. I. (E.), 586
- Delinquent behavior problem children, E.E.G. studies in. Brill, N., *et al.* (E.), 586
- Delirium tremens and acute alcoholic hallucinosis, the treatment of. Silverman, I. J. (E.), 648
- " " chemical studies in. Cohn, C. (E.), 473
- " " the role of abstinence in. Sheps, J. G. (E.), 613
- Dementia, a psychometric study of, by M. B. Brody, 512
- " paralytica, the etiology of the psychosis of, with a preliminary report of the treatment of a case of this psychosis with metrazol. Kenyon, V. B., and Rapaport, D. (E.), 365
- " praecox, the aetiology and mechanism of. Stern, E. S. (E.), 357
- " the measurement of, by M. B. Brody, 317
- " see also under Paresis.
- Demyelination of the central nervous system, experimental. Wyndham, R. A. (E.), 471
- Demyelinating processes in the nervous system, acute. Akelaitis, A. J. E., and Garvey, G. H. (E.), 366
- DENT, J. Y., Anxiety and its Treatment (R.), 142
- Dentate nuclei, the significance of lesions in, apparently consecutive to disease of the frontal lobes. Smyth, G. E. (E.), 185
- Deproteinizing reagent for blood and cerebro-spinal fluid chemistry. Supplement I and II. Krautman, B. (E.), 628
- Diencephalo-pituitary system, the relation between and thyroid investigated by the modification of the influence of spinal puncture on the metabolic rate. Roncoroni, C., and Casacci, A. (E.), 630
- Diencephalon, pseudokalk in the. Kasuga, Y. (E.), 381
- " spontaneous and reflex emotional responses differentiated by lesions in the. Kessler, M. M. (E.), 367
- Dilantin hyperplastic gingivitis. Ziskin, D. E., Stowe, L. R., and Zegarelli, E. V. (E.), 356
- Disseminated sclerosis, demonstration of myelolytic substances. Weil, A., and Heilbrunn, G. (E.), 475
- " " see also under Multiple sclerosis.
- Dream, study of a. Adler, G. (E.), 357
- Drunkennes, a study of pathological, by N. P. Moore, 570
- Dullness as an epileptic equivalent. Putnam, T. J., and Merritt, H. H. (E.), 170
