

Index of Subjects

Numerals show only the initial pages concerned with the subject.

Numerals followed by the letter A refer to pages in Abstracts of Communications read at Meetings for Original Communications of The Nutrition Society.

Acetic acid

Additive effects of intraventricular injection of noradrenaline and intraruminal infusion of sodium acetate on food intake of sheep

44, 48A, 1985

The effect of supplements of fish meal and organic acids on silage intake by young cattle

44, 46A, 1985

Adenylate cyclase (EC 4.6.1.1)

Regulation of adenylate cyclase (EC 4.6.1.1) activity by its lipid environment

44, 157-165, 1985

Adipose tissue

Effects of isoenergetic concentrate and roughage diets on lipogenic enzyme activities in sheep adipose tissue

44, 113A, 1985

Responsiveness of epididymal adipose tissue to catecholamines and ponderal responsiveness to a cafeteria diet in rats

44, 81A, 1985

Adrenal activity

The relation between sex differences in growth response to trenbolone acetate and the suppression of adrenal activity in male and female rats

44, 61A, 1985

Adrenaline

Portal vein injection of adrenaline: effect on feeding in intact and vagotomized cockerels

44, 58A, 1985

 β -Adrenoreceptor agonist

Effects of a novel β -adrenoreceptor agonist (BRL 26830A) on young and adult Sprague-Dawley rats

44, 104A, 1985

Agricultural economics

An agricultural approach to the new health policy

44, 409-418, 1985

Pressures for change in the Common Agricultural Policy

44, 399-408, 1985

The economic implications of a health policy

44, 419-428, 1985

Amino acid absorption

Protein digestion and amino acid and peptide absorption

44, 63-72, 1985

Amino nitrogen

Estimation of truly absorbed amino nitrogen for grass forages

44, 153A, 1985

Ammonia treatment of straw

The effect of variety of spring barley straw and of ammonia treatment on nutritive value

44, 97A, 1985

Androgens

Effect of oestrogenic and androgenic compounds on growth and body consumption of male castrate lambs

44, 93A, 1985

Effect of oestrogenic and androgenic compounds on some endocrine and body characteristics of male castrate lambs

44, 94A, 1985

Influence of oestrogenic and androgenic compounds on blood lipids, subcutaneous fatty acid composition and the activities of certain lipogenic enzymes in sheep

44, 95A, 1985

Serine hydroxymethyltransferase (EC 2.1.2.1) activity in trenbolone acetate- and testosterone-treated rats

44, 149A, 1985

Arachidonic acid

α -Linolenic acid as a regulator of the metabolism of arachidonic acid: dietary implications of the ratio, n-6:n-3 fatty acids

44, 221-229, 1985

The percentage of arachidonic acid in triglyceride is inversely related to the total triglyceride: indication of an essential fatty acid-rich pool of triglyceride

44, 102A, 1985

Arterial disease

Diet and arterial disease—the myths and the realities

44, 363-370, 1985

Dietary lipids, platelet function and arterial thrombosis in animals and man

44, 371-378, 1985

Artificial rearing of rat pups

Highly successful artificial rearing of rat pups with rats' milk or rats' milk/milk substitute combinations

44, 100A, 1985

(Na⁺-K⁺)-ATPase

Membrane phospholipid fatty acids: relation with (Na⁺-K⁺)-ATPase in normal human erythrocytes

44, 3A, 1985

Azoxymethane

Bile acid excretion in an animal model of colon cancer in rats treated with azoxymethane

44, 111A, 1985

Barley straw

Effect of unmolassed sugar beet pulp on the rate of straw degradation in the rumens of sheep given barley straw

44, 50A, 1985

The effect of variety of spring barley straw and of ammonia treatment on nutritive value

44, 97A, 1985

Barnacle geese (*Branta leucopsis*)

Sex difference in the minimal metabolic rate of the pre-migratory barnacle goose (*Branta leucopsis*)

44, 120A, 1985

Behaviour patterns

The energy cost of some behaviour patterns in laying domestic fowl: simultaneous calorimetric, Doppler-radar and visual observations

44, 34A, 1985

Bile acid excretion

Bile acid excretion in an animal model of colon cancer in rats treated with azoxymethane

44, 111A, 1985

Bile acids

The analysis of bile acids in rat faeces with reference to colonic cancer

44, 41A, 1985

Binding capacity

- Binding of rare earths to specific feed particles
44, 117A, 1985

Body composition

- Changes in chemical composition of piglets weaned at 14 d of age 44, 107A, 1985
Effect of cafeteria-feeding on body composition of adult female Sprague-Dawley rats 44, 106A, 1985
Estimation of body fat by nuclear magnetic resonance imaging 44, 108A, 1985
Preliminary experiments to assess the suitability of whole-body neutron activation for body composition analysis in 70 kg pigs 44, 109A, 1985
The effect of energy restriction on the carcass composition of laying hens 44, 118A, 1985

Body tissue mobilization

- Body tissue mobilization in the underfed pregnant ewe 44, 62A, 1985
The effect of shearing on body tissue mobilization in pregnant sheep 44, 53A, 1985

Brown adipose tissue

- Brown adipose tissue cell sizing—a simple, histological method 44, 22A, 1985
Effect of a cafeteria diet on the metabolism of brown adipose tissue in young and old rats 44, 80A, 1985
Effect of hypophysectomy on energy balance and brown adipose tissue thermogenesis in the rat 44, 123A, 1985
Fluorescence histochemical demonstration of catecholamines in brown adipose tissue from obese and lean mice acclimated at different temperatures 44, 23A, 1985
Hypothalamic control of brown adipose tissue in Zucker lean and obese rats 44, 124A, 1985
The effect of denervation on protein synthesis in brown adipose tissue in cafeteria-fed rats 44, 122A, 1985

Cafeteria diet

- Effect of a cafeteria diet on the metabolism of brown adipose tissue in young and old rats 44, 80A, 1985
Effect of cafeteria-feeding on body composition of adult female Sprague-Dawley rats 44, 106A, 1985
Responsiveness of epididymal adipose tissue to catecholamines and ponderal responsiveness to a cafeteria diet in rats 44, 81A, 1985
The effect of denervation on protein synthesis in brown adipose tissue in cafeteria-fed rats 44, 122A, 1985

Cancer

- Bile acid excretion in an animal model of colon cancer in rats treated with azoxymethane 44, 111A, 1985
Carcinoma of the oesophagus: aspects of epidemiology and aetiology 44, 101–110, 1985
Carcinoma of the pancreas 44, 113–114, 1985
Carcinoma of the stomach 44, 111–112, 1985
Nutrition and carcinoma of the large intestine 44, 115–120, 1985

- The analysis of bile acids in rat faeces with reference to colonic cancer 44, 41A, 1985

Carbohydrate absorption

- Quantification of the functional capacity for carbohydrate absorption in man by a simple non-invasive technique 44, 126A, 1985

Carbohydrate intake

- Influence of diet on recovery from prolonged exercise 44, 28A, 1985

DL-Carnitine

- DL-Carnitine supplementation during exercise training in the rat 44, 29A, 1985

Carotene dioxygenase (EC 1.13.11.21)

- Carotene dioxygenase (EC 1.13.11.21) activity in vitamin A deficiency in pregnant rats 44, 15A, 1985

Casein supplement

- The effects of casein supplements given by abomasal infusion on the nitrogen and energy metabolism of lactating cows 44, 44A, 1985

Catecholamines

- Fluorescence histochemical demonstration of catecholamines in brown adipose tissue from obese and lean mice acclimated at different temperatures 44, 23A, 1985
Responsiveness of epididymal adipose tissue to catecholamines and ponderal responsiveness to a cafeteria diet in rats 44, 81A, 1985

Cell-mediated immunity

- Influence of dietary eicosapentaenoic (20:5 ω 3) and docosahexaenoic (22:6 ω 3) acids on cell-mediated immunity in the mouse 44, 6A, 1985

Cell sizing

- Brown adipose tissue cell sizing—a simple, histological method 44, 22A, 1985

Chewing activity

- Particle breakdown and chewing activity in sheep fed on fresh perennial ryegrass and white clover 44, 52A, 1985

Chick embryo

- Effects of parental age and lipid metabolism in the chick embryo 44, 75A, 1985

Cholesterol gallstones

- Nutrition and cholesterol gallstones 44, 127–134, 1985

Cholesterol homeostasis

- The effect of feeding cholesterol with polyunsaturated or saturated fats on cholesterol homeostasis in the rat 44, 112A, 1985

Chylomicrons

- Effect of guar gum intake on chylomicron size and composition in the rat 44, 17A, 1985

Clenbuterol

- Some preliminary observations on the immediate effects of clenbuterol on heart rate, body temperature and nitrogen retention in lambs wholly nourished by intragastric infusion 44, 150A, 1985

Colon cancer

- The analysis of bile acids in rat faeces with reference to colonic cancer 44, 41A, 1985

Common Agricultural Policy

- Pressures for change in the Common Agricultural Policy 44, 399–408, 1985

Computers and nutrition

- Calculation of nutrient intake by microcomputer
44, 36A, 1985
- The accuracy of the Engstrom Metabolic
Computer 44, 74A, 1985

Concentrate supplement

- The effect of supplementation with concentrates on
the utilization of hay from unimproved upland
pasture 44, 92A, 1985

Concentrated grape must

- Digestibility studies with sheep fed on diets based
on concentrated grape must 44, 154A, 1985

Cooking

- Soluble and available iron from raw and cooked
pigeon meat 44, 31A, 1985
- The effect of prolonged cooking on the digestibility
of legume protein 44, 30A, 1985

2-Deoxy-glucose

- The effect of portal vein infusion of 2-deoxy-
glucose and 3-methyl glucose on the food intake
of cockerels 44, 59A, 1985

Diabetes

- Effect of a high-fibre, low-fat and low-sodium diet
on white European and black West Indian type
II diabetic patients with mild hypertension
44, 69A, 1985
- One year follow-up treatment of hypertension in
type II diabetic subjects with a high cereal fibre,
low fat and low sodium dietary regimen
44, 129A, 1985
- The effects of a high unrefined carbohydrate, high
fibre, low fat and low sodium dietary regimen in
type II diabetics with moderate hypertension
44, 128A, 1985

Diaminopimelic acid

- Release of diaminopimelic acid from bacterial cell
walls by rumen protozoa 44, 142A, 1985

Dietary antigens

- Antigen absorption and immunological response in
weanling rabbits given casein or ovalbumin
44, 105A, 1985

Dietary fibre

- Effect of a high-fibre, low-fat and low-sodium diet
on white European and black West Indian type
II diabetic patients with mild hypertension
44, 69A, 1985
- Four year follow-up treatment of essential
hypertension with a high-fibre, low-fat and
low-sodium dietary regimen 44, 70A, 1985
- One year follow-up treatment of hypertension in
type II diabetic subjects with a high cereal fibre,
low fat and low sodium dietary regimen
44, 129A, 1985
- The effects of a high unrefined carbohydrate, high
fibre, low fat and low sodium dietary regimen in
type II diabetics with moderate hypertension
44, 128A, 1985
- The influence of the type of starch and of the
incorporation of soluble dietary fibre in breakfast
and lunch on the levels of glucose, insulin and
C-peptide in plasma 44, 68A, 1985

Dietary survey

- A comparison of the food habits of students from
four courses 44, 73A, 1985
- A survey of the nutrient status of the elderly
44, 39A, 1985
- The usefulness of a questionnaire in predicting the
types of food consumed in the subsequent period
of 7 d 44, 35A, 1985

Digestible energy

- Digestible and metabolizable energy values of
lactitol and lactulose for the rat and miniature
pig 44, 40A, 1985

Digestive tract

- Dietary and endogenous nitrogen in different
regions of the digestive tract of rats after a single
meal of ¹⁵N-labelled barley 44, 83A, 1985

Do-Do pill

- The Do-Do pill: potentiation of the thermogenic
effects of ephedrine by methylxanthines
44, 16A, 1985

Dog

- The horse and dog, elite athletes—why and how?
44, 267–272, 1985

Early-weaned piglet

- Changes in chemical composition of piglets weaned
at 14 d of age 44, 107A, 1985

Eicosapentaenoic acid

- Supplementation of the diet with eicosapentaenoic
acid: a possible approach to the treatment of
thrombosis and inflammation 44, 385–389, 1985

Elemental diet

- Intestinal adaptation to an elemental diet
44, 87–93, 1985

Energy balance

- Effect of hypophysectomy on energy balance and
brown adipose tissue thermogenesis in the rat
44, 123A, 1985

Energy expenditure

- Effect of ambient temperature on the energy costs
of activity by tropical cattle 44, 32A, 1985
- Energy utilization during insulin-induced hyper-
phagia in rats 44, 79A, 1985
- Prediction of energy expenditure from heart rate
measurements in exercising cattle 44, 33A, 1985

Energy intake

- The rate of response of growing turkeys to changes
in dietary energy concentration 44, 60A, 1985

Energy metabolism

- The effects of casein supplements given by
abomasal infusion on the nitrogen and energy
metabolism of lactating cows 44, 44A, 1985

Energy value

- Prediction of the energy value of diets for pigs
44, 55A, 1985

Environmental temperature

- Effect of ambient temperature on the energy costs
of activity by tropical cattle 44, 32A, 1985
- Factors limiting endurance exercise in hot and cold
environments 44, 72A, 1985

- Fluorescence histochemical demonstration of catecholamines in brown adipose tissue from obese and lean mice acclimated at different temperatures 44, 23A, 1985
- Intake and digestibility of foods by Ayrshire cattle and Asiatic buffaloes maintained at moderate and high temperatures 44, 43A, 1985
- The effect of acute cold exposure on mitochondrial GDP binding in brown adipose tissue of *ob/ob* mice before and after the development of insulin resistance 44, 5A, 1985
- Ephedrine**
The Do-Do pill: potentiation of the thermogenic effects of ephedrine by methylxanthines 44, 16A, 1985
- Essential fatty acids**
Species comparisons of the effect of essential fatty acid deficiency on fatty acid composition of liver total phospholipids 44, 101A, 1985
The effects of dietary intake of essential fatty acids on prostaglandin and leukotriene synthesis 44, 181-187, 1985
The percentage of arachidonic acid in triglyceride is inversely related to the total triglyceride: indication of an essential fatty acid-rich pool of triglyceride 44, 102A, 1985
- Ethanol**
Changes in liver fatty acid composition and total triglycerides induced by ethanol in the Syrian golden hamster 44, 10A, 1985
Effects of γ -linolenic acid and antioxidant administration on alcoholic fatty liver in the rat 44, 11A, 1985
- Exercise**
Blood lactate concentration during one-leg exercise with normal and low muscle glycogen concentration in the non-exercising leg 44, 125A, 1985
DL-Carnitine supplementation during exercise training in the rat 44, 29A, 1985
Effects of sodium bicarbonate ingestion on maximal exercise 44, 26A, 1985
Exercise and obesity in a national birth cohort 44, 25A, 1985
Exercise and the promotion of health 44, 297-302, 1985
Factors limiting endurance exercise in hot and cold environments 44, 72A, 1985
Impact of marginal vitamin intake on physical performance in healthy young men 44, 27A, 1985
Influence of diet on recovery from prolonged exercise 44, 28A, 1985
Nutritional aspects of exercise-induced fatigue 44, 245-256, 1985
The biochemistry and physiology of the muscle cell 44, 235-243, 1985
The effect of vitamin and mineral supplements and health foods on physical endurance and performance 44, 283-295, 1985
The energy cost of exercise 44, 273-282, 1985
The hormonal response to exercise 44, 257-266, 1985
The horse and dog, elite athletes— why and how? 44, 267-272, 1985
- Faecal flora**
Response of human faecal flora of a volunteer to a change in diet 44, 130A, 1985
- Fatty acids**
Changes in liver fatty acid composition and total triglycerides induced by ethanol in the Syrian golden hamster 44, 10A, 1985
Correlation of linoleic acid composition of erythrocyte membrane choline phosphoglyceride fraction with electrophoretic mobility in multiple sclerosis patients following a diet rich in polyunsaturates 44, 8A, 1985
Effect of alteration of dietary fat on erythrocyte electrophoretic mobility in people with multiple sclerosis 44, 9A, 1985
Effects of γ -linolenic acid and antioxidant administration on alcoholic fatty liver in the rat 44, 11A, 1985
Electroretinography of rodents reared on diets deficient in essential fatty acids and supplemented with either linoleic acid (18:2n6) or linolenic acid (18:3n3) 44, 7A, 1985
Influence of dietary eicosapentaenoic (20:5 ω 3) and docosahexaenoic (22:6 ω 3) acids on cell-mediated immunity in the mouse 44, 6A, 1985
Influence of fish-oil supplements on man 44, 391-397, 1985
 α -Linolenic acid as a regulator of the metabolism of arachidonic acid: dietary implications of the ratio, n-6:n-3 fatty acids 44, 221-229, 1985
Membrane phospholipid fatty acids: relation with (Na⁺-K⁺)-ATPase in normal human erythrocytes 44, 3A, 1985
Supplementation of the diet with eicosapentaenoic acid: a possible approach to the treatment of thrombosis and inflammation 44, 385-389, 1985
The effect of feeding cholesterol with polyunsaturated or saturated fats on cholesterol homeostasis in the rat 44, 112A, 1985
- Fertility**
The effect of molybdenum on fertility in the cow 44, 82A, 1985
- Fibrinolytic system**
Nutritional influences on the fibrinolytic system 44, 379-384, 1985
- Fish**
A vital role for aquatic resources in feeding a hungry world 44, 19-29, 1985
- Fishmeal**
The effect of oestradiol implantation on the response to fishmeal in calves offered silage 44, 115A, 1985
The effect of supplements of fish meal and organic acids on silage intake by young cattle 44, 46A, 1985
- Fish oils**
Influence of fish-oil supplements on man 44, 391-397, 1985
- Food antigens**
Factors influencing intestinal uptake of food antigens 44, 81-86, 1985

Food intake

- Additive effects of intraventricular injection of noradrenaline and intraruminal infusion of sodium acetate on food intake of sheep
44, 48A, 1985
- Do chickens consider a glucose solution to be food or water?
44, 57A, 1985
- Feeding systems and food intake by housed dairy cows
44, 355-362, 1985
- Gastrointestinal influences on short-term regulation of food intake in pigs
44, 56A, 1985
- Intake and digestibility of foods by Ayrshire cattle and Asiatic buffaloes maintained at moderate and high temperatures
44, 43A, 1985
- Neural and hormonal mechanisms regulating food intake
44, 303-311, 1985
- Sensory involvement in the control of food intake in poultry
44, 303-311, 1985
- Similarities and differences between intake control mechanisms in pigs, chickens and ruminants
44, 331-338, 1985
- The control of herbage intake in the grazing ruminant
44, 339-346, 1985
- The effect of energy restriction on the carcass composition of laying hens
44, 118A, 1985
- The effect of portal vein infusion of 2-deoxyglucose and 3-methyl glucose on the food intake of cockerels
44, 59A, 1985
- The importance of voluntary feed intake in pigs
44, 347-353, 1985
- The metabolic response to protein deficiency in relation to the concentration of dietary protein
44, 19A, 1985
- The physiological determination of meal size in pigs
44, 323-330, 1985
- The usefulness of a questionnaire in predicting the types of food consumed in the subsequent period of 7 d
44, 35A, 1985
- Food intolerance**
- Food intolerance
44, 121-125, 1985

Galactose tolerance

- The effects of L-alanine, L-leucine, L-tryptophan and glucagon on galactose tolerance in man
44, 67A, 1985
- The influence of the sex of the individual and of the menstrual cycle on galactose tolerance
44, 127A, 1985

Gallstones

- Nutrition and cholesterol gallstones
44, 127-134, 1985

Gastrointestinal function

- Factors influencing intestinal uptake of food antigens
44, 81-86, 1985
- Gastrointestinal influences on short-term regulation of food intake in pigs
44, 56A, 1985
- Immunological response to food
44, 73-80, 1985
- Intestinal adaptation to an elemental diet
44, 87-93, 1985
- Protein digestion and amino acid and peptide absorption
44, 63-72, 1985
- The gut hormone response to food
44, 53-61, 1985

Gastrointestinal hormones

- The gut hormone response to food
44, 53-61, 1985

GDP binding

- The effect of acute cold exposure on mitochondrial GDP binding in brown adipose tissue of *ob/ob* mice before and after the development of insulin resistance
44, 5A, 1985

Glucagon

- The effects of L-alanine, L-leucine, L-tryptophan and glucagon on galactose tolerance in man
44, 67A, 1985

Glucocorticoid production

- Growth stimulation in female rats by inhibition of glucocorticoid production
44, 21A, 1985

Glucose

- Do chickens consider a glucose solution to be food or water?
44, 57A, 1985
- The effect of ruminal infusions of propionic acid or abomasal infusion of glucose on plasma insulin secretion in non-lactating cows
44, 45A, 1985

Glucose absorption

- The influence of the type of starch and of the incorporation of soluble dietary fibre in breakfast and lunch on the levels of glucose, insulin and C-peptide in plasma
44, 68A, 1985
- The use of the rabbit to study the effect of guar gum on the absorption of glucose from the small intestine
44, 148A, 1985

Glucose fermentation

- A calorimetric investigation of heat production during glucose fermentation in rumen fluid
44, 140A, 1985

Glucose metabolism

- Kinetics of glucose metabolism in newborn lambs
44, 90A, 1985

Glycogen

- Blood lactate concentration during one-leg exercise with normal and low muscle glycogen concentration in the non-exercising leg
44, 125A, 1985

Goslings

- The growth of goslings up to 9 weeks of age
44, 119A, 1985

Growth

- Effect of oestrogenic and androgenic compounds on growth and body consumption of male castrate lambs
44, 93A, 1985
- Energy balance and growth of malnourished children with systemic infection
44, 14A, 1985
- Growth stimulation in female rats by inhibition of glucocorticoid production
44, 21A, 1985
- The effects of the synthetic androgen Stanozolol on muscle growth and protein turnover in male and female rats
44, 20A, 1985
- The growth of goslings up to 9 weeks of age
44, 119A, 1985
- The rate of response of growing turkeys to changes in dietary energy concentration
44, 60A, 1985
- The relation between sex differences in growth response to trenbolone acetate and the suppression of adrenal activity in male and female rats
44, 61A, 1985
- The relationship between fractional growth rate and fractional rate of protein synthesis within a population of growing broilers
44, 76A, 1985

- Variability in the energy cost of growth in rats: effect of dietary protein concentration and plane of nutrition 44, 131A, 1985
- Guar gum**
Effect of guar gum intake on chylomicron size and composition in the rat 44, 17A, 1985
The use of the rabbit to study the effect of guar gum on the absorption of glucose from the small intestine 44, 148A, 1985
- Health foods**
How people judge the healthiness of foods 44, 12A, 1985
- Health policy**
An agricultural approach to the new health policy 44, 409-418, 1985
The economic implications of a health policy 44, 419-428, 1985
- Heat production**
A calorimetric investigation of heat production during glucose fermentation in rumen fluid 44, 140A, 1985
The energy cost of some behaviour patterns in laying domestic fowl: simultaneous calorimetric, Doppler-radar and visual observations 44, 34A, 1985
- Hepatic denervation**
Hepatic denervation alters insulin secretory response to propionate in sheep 44, 114A, 1985
- Histological method**
Brown adipose tissue cell sizing—a simple, histological method 44, 22A, 1985
- Homoarginine**
Chemical labelling of dietary protein by trans-formation of lysine to homoarginine: a new technique to follow intestinal digestion and absorption 44, 133A, 1985
- Hormones**
Neural and hormonal mechanisms regulating food intake 44, 303-311, 1985
The hormonal response to exercise 44, 257-266, 1985
- Horse**
The horse and dog, elite athletes—why and how? 44, 267-272, 1985
- Hospital dietetics**
Hospital dietetics: the dietician's needs 44, 137, 1985
Hospital dietetics: the doctor's needs 44, 135-136, 1985
- Hyperphagia**
Energy utilization during insulin-induced hyperphagia in rats 44, 79A, 1985
- Hypertension**
Effect of a high-fibre, low-fat and low-sodium diet on white European and black West Indian type II diabetic patients with mild hypertension 44, 69A, 1985
Four year follow-up treatment of essential hypertension with a high-fibre, low-fat and low-sodium dietary regimen 44, 70A, 1985
One year follow-up treatment of hypertension in type II diabetic subjects with a high cereal fibre, low fat and low sodium dietary regimen 44, 129A, 1985
The effects of a high unrefined carbohydrate, high fibre, low fat and low sodium dietary regimen in type II diabetics with moderate hypertension 44, 128A, 1985
- Hypophysectomy**
Effect of hypophysectomy on energy balance and brown adipose tissue thermogenesis in the rat 44, 123A, 1985
- Hypothalamus**
Hypothalamic control of brown adipose tissue in Zucker lean and obese rats 44, 124A, 1985
- Immune response**
Immunological response to food 44, 73-80, 1985
Membrane lipid modification and immune function 44, 201-209, 1985
- Immunological response**
Antigen absorption and immunological response in weanling rabbits given casein or ovalbumin 44, 105A, 1985
- Indomethacin**
Inhibition by indomethacin of the insulin stimulation of muscle protein synthesis in post-absorptive rats 44, 2A, 1985
- Infant nutrition**
Metabolic balance studies in the very low birth weight infant 44, 37A, 1985
- Inositol**
Inositol phospholipid and phosphatidic acid metabolism in response to membrane receptor activation 44, 167-172, 1985
- Insulin**
Energy utilization during insulin-induced hyperphagia in rats 44, 79A, 1985
Hepatic denervation alters insulin secretory response to propionate in sheep 44, 114A, 1985
Inhibition by indomethacin of the insulin stimulation of muscle protein synthesis in post-absorptive rats 44, 2A, 1985
Membranes and the response to insulin 44, 211-220, 1985
The effect of ruminal infusions of propionic acid or abomasal infusion of glucose on plasma insulin secretion in non-lactating cows 44, 45A, 1985
The effect of shearing on plasma glucose, free fatty acid, growth hormone and insulin concentrations in the pregnant ewe 44, 136A, 1985
The response in insulin, glucose and amino acids in the plasma of sheep to changes in rumen fermentation 44, 139A, 1985
- Interleukin 1**
Decreased protein synthesis in skin, muscle and bone after interleukin 1 production by *Escherichia coli* endotoxin in rats 44, 71A, 1985
- Intestinal gas**
Intestinal gas 44, 145-146, 1985

Intra-gastric nutrition

Effect of protein infusion on excretion of purine derivatives in steers nourished by intra-gastric nutrition 44, 138A, 1985

Some preliminary observations on the immediate effects of clenbuterol on heart rate, body temperature and nitrogen retention in lambs wholly nourished by intra-gastric infusion 44, 150A, 1985

Iron

Soluble and available iron from raw and cooked pigeon meat 44, 31A, 1985

Iron absorption

A role for riboflavin in iron absorption? 44, 66A, 1985

Irritable bowel syndrome

Irritable bowel syndrome 44, 141-143, 1985
The irritable bowel controversy 44, 139-140, 1985

Lactate

Blood lactate concentration during one-leg exercise with normal and low muscle glycogen concentration in the non-exercising leg 44, 125A, 1985

Lactation

Effect of cafeteria-feeding on body composition of adult female Sprague-Dawley rats 44, 106A, 1985

Effect of pregnancy and lactation on muscle protein metabolism in sheep 44, 77A, 1985

Response of cows raising two calves to different levels of energy and undegradable protein 44, 151A, 1985

The effect of supplementation on non-ammonia nitrogen flows at the abomasum of lactating grazing ewes 44, 63A, 1985

The effects of casein supplements given by abomasal infusion on the nitrogen and energy metabolism of lactating cows 44, 44A, 1985

The production performance of ewes on 'adequate'- and 'low'-sodium diets 44, 86A, 1985

Lactitol

Digestible and metabolizable energy values of lactitol and lactulose for the rat and miniature pig 44, 40A, 1985

Lactulose

Digestible and metabolizable energy values of lactitol and lactulose for the rat and miniature pig 44, 40A, 1985

Large intestine

Nutrition and carcinoma of the large intestine 44, 115-120, 1985

Legume protein

The effect of prolonged cooking on the digestibility of legume protein 44, 30A, 1985

Leucine metabolism

Leucine metabolism by rumen bacteria in vivo 44, 143A, 1985

Leukotrienes

The effects of dietary intake of essential fatty acids on prostaglandin and leukotriene synthesis 44, 181-187, 1985

 α -Linolenic acid

α -Linolenic acid as a regulator of the metabolism of arachidonic acid: dietary implications of the ratio, n-6:n-3 fatty acids 44, 221-229, 1985

Lipid metabolism

Effects of parental age and lipid metabolism in the chick embryo 44, 75A, 1985

Lipids

Regulation of adenylate cyclase (EC 4.6.1.1) activity by its lipid environment 44, 157-165, 1985

Lipogenic enzymes

Effects of isoenergetic concentrate and roughage diets on lipogenic enzyme activities in sheep adipose tissue 44, 113A, 1985

Liver fat

Changes in liver fatty acid composition and total triglycerides induced by ethanol in the Syrian golden hamster 44, 10A, 1985

Effects of γ -linolenic acid and antioxidant administration on alcoholic fatty liver in the rat 44, 11A, 1985

Liver phospholipids

Species comparisons of the effect of essential fatty acid deficiency on fatty acid composition of liver total phospholipids 44, 101A, 1985

Low birth weight infant

Metabolic balance studies in the very low birth weight infant 44, 37A, 1985

Lysine

Chemical labelling of dietary protein by transformation of lysine to homoarginine: a new technique to follow intestinal digestion and absorption 44, 133A, 1985

The efficiency of utilization of lysine by weanling rats 44, 132A, 1985

Maize starch

The effect of level of feeding and inclusion of a maize starch supplement on rumen digesta pool size and turnover 44, 51A, 1985

Malnutrition

Effect of zinc supplementation on the composition of newly synthesized tissue in children recovering from malnutrition 44, 110A, 1985

Marker

Chemical labelling of dietary protein by transformation of lysine to homoarginine: a new technique to follow intestinal digestion and absorption 44, 133A, 1985

Membrane function

Alterations in membrane function, organization and composition in the obese *ob/ob* mouse 44, 189-200, 1985

Trace elements and vitamins in membrane function 44, 173-179, 1985

Membrane phospholipids

Membrane phospholipid fatty acids: relation with (Na⁺-K⁺)-ATPase in normal human erythrocytes 44, 3A, 1985

Membrane probes

The effect of food deprivation on adipocyte plasma membranes as detected by two fluorescent membrane probes 44, 4A, 1985

Membrane receptors

Inositol phospholipid and phosphatidic acid metabolism in response to membrane receptor activation 44, 167-172, 1985

Membrane structure

α -Linolenic acid as a regulator of the metabolism of arachidonic acid: dietary implications of the ratio, n-6:n-3 fatty acids 44, 221-229, 1985

Membrane lipid modification and immune function 44, 201-209, 1985

Some principles of membrane structure 44, 147-156, 1985

Membranes

Membranes and the response to insulin 44, 211-220, 1985

Regulation of adenylate cyclase (*EC* 4.6.1.1) activity by its lipid environment 44, 157-165, 1985

The effects of dietary intake of essential fatty acids on prostaglandin and leukotriene synthesis 44, 181-187, 1985

Workshop report: are diet-induced changes of practical importance in nutrition? 44, 231-233, 1985

Menstrual cycle

The influence of the sex of the individual and of the menstrual cycle on galactose tolerance 44, 127A, 1985

Metabolic rate

Sex difference in the minimal metabolic rate of the pre-migratory barnacle goose (*Branta leucopsis*) 44, 120A, 1985

Metabolizable energy

A deterministic model to predict truly metabolizable energy of graminaceous forages 44, 152A, 1985

3-Methyl glucose

The effect of portal vein infusion of 2-deoxyglucose and 3-methyl glucose on the food intake of cockerels 44, 59A, 1985

Microbial enzymes

The use of particle-bound microbial enzymes to predict the rate of degradation of plant fibre in the rumen 44, 98A, 1985

Microbial nitrogen

Turnover of microbial nitrogen in the rumen of phosphorus-depleted sheep 44, 145A, 1985

Micro-organisms

Food from micro-organisms 44, 13-17, 1985

Milk-fat triglycerides

The distribution of triglycerides in the milk fat of Friesian and Jersey cows 44, 91A, 1985

Milk formulae

Metabolic balance studies in the very low birth weight infant 44, 37A, 1985

Milk substitute

Highly successful artificial rearing of rat pups with rats' milk or rats' milk/milk substitute combinations 44, 100A, 1985

Mineral supplements

The effect of vitamin and mineral supplements and health foods on physical endurance and performance 44, 283-295, 1985

Model

A deterministic model to predict truly metabolizable energy of graminaceous forages 44, 152A, 1985

Molybdenum

The effect of molybdenum on fertility in the cow 44, 82A, 1985

Monensin

Effect of monensin on net synthesis of thiamin and microbial protein in the rumen of cows 44, 146A, 1985

Multiple sclerosis

Correlation of linoleic acid composition of erythrocyte membrane choline phosphoglyceride fraction with electrophoretic mobility in multiple sclerosis patients following a diet rich in polyunsaturates 44, 8A, 1985

Effect of alteration of dietary fat on erythrocyte electrophoretic mobility in people with multiple sclerosis 44, 9A, 1985

Muscle biochemistry

The biochemistry and physiology of the muscle cell 44, 235-243, 1985

Neutron activation

Preliminary experiments to assess the suitability of whole-body neutron activation for body composition analysis in 70 kg pigs 44, 109A, 1985

Nitrogen digestibility

Dietary and endogenous nitrogen in different regions of the digestive tract of rats after a single meal of ¹⁵N-labelled barley 44, 83A, 1985

Estimation of true nitrogen digestibility in cattle by a modified nylon bag technique 44, 116A, 1985

Nitrosamines

Nutrition and nitrosamine formation 44, 95-100, 1985

Non-ammonia nitrogen

The effect of supplementation on non-ammonia nitrogen flows at the abomasum of lactating grazing ewes 44, 63A, 1985

Noradrenaline

Additive effects of intraventricular injection of noradrenaline and intraruminal infusion of sodium acetate on food intake of sheep 44, 48A, 1985

Nuclear magnetic resonance imaging

Estimation of body fat by nuclear magnetic resonance imaging 44, 108A, 1985

Nutrient intake

Calculation of nutrient intake by microcomputer 44, 36A, 1985

Nutrition education

A comparison of the food habits of students from four courses, 44, 73A, 1985

How people judge the healthiness of foods 44, 12A, 1985

Nylon-bag technique

Estimation of true nitrogen digestibility in cattle by a modified nylon bag technique 44, 116A, 1985

Obesity

Alterations in membrane function, organization and composition in the obese *ob/ob* mouse 44, 189–200, 1985

Effect of cafeteria-feeding on body composition of adult female Sprague-Dawley rats 44, 106A, 1985

Effects of a novel β -adrenoreceptor agonist (BRL 26830A) on young and adult Sprague-Dawley rats 44, 104A, 1985

Exercise and obesity in a national birth cohort 44, 25A, 1985

Hypothalamic control of brown adipose tissue in Zucker lean and obese rats 44, 124A, 1985

The Do-Do pill: potentiation of the thermogenic effects of ephedrine by methylxanthines 44, 16A, 1985

The effect of acute cold exposure on mitochondrial GDP binding in brown adipose tissue of *ob/ob* mice before and after the development of insulin resistance 44, 5A, 1985

Oesophagus

Carcinoma of the oesophagus: aspects of epidemiology and aetiology 44, 101–110, 1985

Oestradiol

The effect of oestradiol implantation on the response to fishmeal in calves offered silage 44, 115A, 1985

Oestrogens

Effect of oestrogenic and androgenic compounds on growth and body consumption of male castrate lambs 44, 93A, 1985

Effect of oestrogenic and androgenic compounds on some endocrine and body characteristics of male castrate lambs 44, 94A, 1985

Influence of oestrogenic and androgenic compounds on blood lipids, subcutaneous fatty acid composition and the activities of certain lipogenic enzymes in sheep 44, 95A, 1985

Old age

A survey of the nutrient status of the elderly 44, 39A, 1985

Pancreas

Carcinoma of the pancreas 44, 113–114, 1985

Pastoralists

Contrasting patterns of seasonal weight change within a rural community in the Sahel 44, 13A, 1985

Peptide utilization

The uptake of peptides and amino acids by rumen bacteria 44, 144A, 1985

Perennial ryegrass

Particle breakdown and chewing activity in sheep fed on fresh perennial ryegrass and white clover 44, 52A, 1985

Phosphatidic acid

Inositol phospholipid and phosphatidic acid metabolism in response to membrane receptor activation 44, 167–172, 1985

Phosphorus

The absorption and faecal losses of phosphorus by mature sheep 44, 49A, 1985

Phosphorus deficiency

The effect of phosphorus deficiency on rumen microbial activity 44, 141A, 1985

Turnover of microbial nitrogen in the rumen of phosphorus-depleted sheep 44, 145A, 1985

Platelet function

Dietary lipids, platelet function and arterial thrombosis in animals and man 44, 371–378, 1985

Polyunsaturated fats

The effect of feeding cholesterol with polyunsaturated or saturated fats on cholesterol homeostasis in the rat 44, 112A, 1985

Pregnancy

Body tissue mobilization in the underfed pregnant ewe 44, 62A, 1985

Carotene dioxygenase (*EC* 1.13.11.21) activity in vitamin A deficiency in pregnant rats 44, 15A, 1985

Effect of pregnancy and lactation on muscle protein metabolism in sheep 44, 77A, 1985

Fluid and electrolyte balance during pregnancy in ewes on 'adequate'- and 'low'-sodium diets 44, 87A, 1985

Protein synthesis during implantation in ewes: interaction between the endometrium and trophoblast 44, 135A, 1985

The effect of shearing on body tissue mobilization in pregnant sheep 44, 53A, 1985

The effect of shearing on plasma glucose, free fatty acid, growth hormone and insulin concentrations in the pregnant ewe 44, 136A, 1985

The production performance of ewes on 'adequate'- and 'low'-sodium diets 44, 86A, 1985

Propionate

Hepatic denervation alters insulin secretory response to propionate in sheep 44, 114A, 1985

Propionic acid

The effect of ruminal infusions of propionic acid or abomasal infusion of glucose on plasma insulin secretion in non-lactating cows 44, 45A, 1985

The effect of supplements of fish meal and organic acids on silage intake by young cattle 44, 46A, 1985

Prostaglandins

The effects of dietary intake of essential fatty acids on prostaglandin and leukotriene synthesis 44, 181–187, 1985

Protein deficiency

The metabolic response to protein deficiency in relation to the concentration of dietary protein 44, 19A, 1985

Protein degradation

Potential use of proteolytic rumen bacteria for assessing feed protein degradability *in vitro* 44, 54A, 1985

Protein digestion

Protein digestion and amino acid and peptide absorption 44, 63-72, 1985

Protein-energy malnutrition

Energy balance and growth of malnourished children with systemic infection 44, 14A, 1985

Protein quality

The unsuitability of the weanling rat for assessing the protein quality of duodenal digesta from lucerne (*Medicago sativa*) silage-feed sheep 44, 84A, 1985

The use of growing rats in the assessment of the protein quality of bovine duodenal digesta 44, 147A, 1985

Protein supplement

Voluntary food intake and growth responses in store lambs given protein supplements to grass silage 44, 47A, 1985

Protein synthesis

Decreased protein synthesis in skin, muscle and bone after interleukin 1 production by *Escherichia coli* endotoxin in rats 44, 71A, 1985

Inhibition by indomethacin of the insulin stimulation of muscle protein synthesis in post-absorptive rats 44, 2A, 1985

Protein synthesis during implantation in ewes: interaction between the endometrium and trophoblast 44, 135A, 1985

The effect of denervation on protein synthesis in brown adipose tissue in cafeteria-fed rats 44, 122A, 1985

The relationship between fractional growth rate and fractional rate of protein synthesis within a population of growing broilers 44, 76A, 1985

Protein turnover

Effect of pregnancy and lactation on muscle protein metabolism in sheep 44, 77A, 1985

Protein turnover in preterm infants by determining the enrichment of ¹⁵N in ammonia: a comparison of tracers 44, 96A, 1985

The effects of the synthetic androgen Stanozolol on muscle growth and protein turnover in male and female rats 44, 20A, 1985

Whole-body protein turnover in chronic renal failure and the effect of continuous ambulatory peritoneal dialysis 44, 18A, 1985

Purine derivatives

Effect of protein infusion on excretion of purine derivatives in steers nourished by intragastric nutrition 44, 138A, 1985

Rare earths

Binding of rare earths to specific feed particles 44, 117A, 1985

Renal failure

Changes in sensitivity and preferences for salt during dialysis 44, 99A, 1985

Whole-body protein turnover in chronic renal failure and the effect of continuous ambulatory peritoneal dialysis 44, 18A, 1985

Retinal lipids

Electroretinography of rodents reared on diets deficient in essential fatty acids and supplemented with either linoleic acid (18:2n6) or linolenic acid (18:3n3) 44, 7A, 1985

Riboflavin

A role for riboflavin in iron absorption? 44, 66A, 1985

Rumen bacteria

Potential use of proteolytic rumen bacteria for assessing feed protein degradability in vitro 44, 54A, 1985

Rumen digesta pool size

The effect of level of feeding and inclusion of a maize starch supplement on rumen digesta pool size and turnover 44, 51A, 1985

Rumen metabolism

A calorimetric investigation of heat production during glucose fermentation in rumen fluid 44, 140A, 1985

Effect of monensin on net synthesis of thiamin and microbial protein in the rumen of cows 44, 146A, 1985

Effect of tonicity in the contents of the stomach and duodenum and in blood on parotid salivary secretion in sheep 44, 137A, 1985

Ruminal metabolism of lactic acid in sheep receiving a diet of sugar beet pulp and hay 44, 85A, 1985

The reponse in insulin, glucose and amino acids in the plasma of sheep to changes in rumen fermentation 44, 139A, 1985

The use of particle-bound microbial enzymes to predict the rate of degradation of plant fibre in the rumen 44, 98A, 1985

Rumen micro-organisms

Leucine metabolism by rumen bacteria in vivo 44, 143A, 1985

Release of diaminopimelic acid from bacterial cell walls by rumen protozoa 44, 142A, 1985

The effect of phosphorus deficiency on rumen microbial activity 44, 141A, 1985

The uptake of peptides and amino acids by rumen bacteria 44, 144A, 1985

Turnover of microbial nitrogen in the rumen of phosphorus-depleted sheep 44, 145A, 1985

Rumen protozoa

Release of diaminopimelic acid from bacterial cell walls by rumen protozoa 44, 142A, 1985

Ruminant nutrition

Effects of isoenergetic concentrate and roughage diets on lipogenic enzyme activities in sheep adipose tissue 44, 113A, 1985

Salivary secretion

Effect of tonicity in the contents of the stomach and duodenum and in blood on parotid salivary secretion in sheep 44, 137A, 1985

Seasonal weight change

Contrasting patterns of seasonal weight change within a rural community in the Sahel 44, 13A, 1985

Serine hydroxymethyltransferase (EC 2.1.2.1)

Serine hydroxymethyltransferase (EC 2.1.2.1) activity in trenbolone acetate- and testosterone-treated rats 44, 149A, 1985

Sex differences

The relation between sex differences in growth response to trenbolone acetate and the suppression of adrenal activity in male and female rats 44, 61A, 1985

Shearing

The effect of shearing on plasma glucose, free fatty acid, growth hormone and insulin concentrations in the pregnant ewe 44, 136A, 1985

Shorn ewes

The effect of shearing on body tissue mobilization in pregnant sheep 44, 53A, 1985

Silage

The effect of oestradiol implantation on the response to fishmeal in calves offered silage 44, 115A, 1985

The unsuitability of the weanling rat for assessing the protein quality of duodenal digesta from lucerne (*Medicago sativa*) silage-feed sheep 44, 84A, 1985

Silage intake

The effect of supplements of fish meal and organic acids on silage intake by young cattle 44, 46A, 1985

Voluntary food intake and growth responses in store lambs given protein supplements to grass silage 44, 47A, 1985

Sodium

Effect of a high-fibre, low-fat and low-sodium diet on white European and black West Indian type II diabetic patients with mild hypertension 44, 69A, 1985

Fluid and electrolyte balance during pregnancy in ewes on 'adequate'- and 'low'-sodium diets 44, 87A, 1985

Four year follow-up treatment of essential hypertension with a high-fibre, low-fat and low-sodium dietary regimen 44, 70A, 1985

One year follow-up treatment of hypertension in type II diabetic subjects with a high cereal fibre, low fat and low sodium dietary regimen 44, 129A, 1985

The effects of a high unrefined carbohydrate, high fibre, low fat and low sodium dietary regimen in type II diabetics with moderate hypertension 44, 128A, 1985

The production performance of ewes on 'adequate'- and 'low'-sodium diets 44, 86A, 1985

Sodium bicarbonate

Effects of sodium bicarbonate ingestion on maximal exercise 44, 26A, 1985

Sodium chloride

Changes in sensitivity and preferences for salt during dialysis 44, 99A, 1985

Stanozolol

The effects of the synthetic androgen Stanozolol on muscle growth and protein turnover in male and female rats 44, 20A, 1985

Starch

The influence of the type of starch and of the incorporation of soluble dietary fibre in breakfast and lunch on the levels of glucose, insulin and C-peptide 44, 68A, 1985

Starvation

The effect of food deprivation on adipocyte plasma membranes as detected by two fluorescent membrane probes 44, 4A, 1985

Stomach

Carcinoma of the stomach 44, 111-112, 1985

Straw degradation

Effect of unmolassed sugar beet pulp on the rate of straw degradation in the rumens of sheep given barley straw 44, 50A, 1985

Sugar beet pulp

Effect of unmolassed sugar beet pulp on the rate of straw degradation in the rumens of sheep given barley straw 44, 50A, 1985

Ruminal metabolism of lactic acid in sheep receiving a diet of sugar beet pulp and hay 44, 85A, 1985

The effect of supplementation on non-ammonia nitrogen flows at the abomasum of lactating grazing ewes 44, 63A, 1985

Sympathetic nervous system

The effect of denervation on protein synthesis in brown adipose tissue in cafeteria-fed rats 44, 122A, 1985

Thermogenesis

The Do-Do pill: potentiation of the thermogenic effects of ephedrine by methylxanthines 44, 16A, 1985

Thiamin

Effect of monensin on net synthesis of thiamin and microbial protein in the rumen of cows 44, 146A, 1985

Thrombosis

Diet and arterial disease—the myths and the realities 44, 363-370, 1985

Dietary lipids, platelet function and arterial thrombosis in animals and man 44, 371-378, 1985

Influence of fish-oil supplements on man 44, 391-397, 1985

Nutritional influences on the fibrinolytic system 44, 379-384, 1985

Supplementation of the diet with eicosapentaenoic acid: a possible approach to the treatment of thrombosis and inflammation 44, 385-389, 1985

Trace elements

Trace elements and vitamins in membrane function 44, 173-179, 1985

Trenbolone acetate

Effect of oestrogenic and androgenic compounds on growth and body consumption of male castrate lambs 44, 93A, 1985

Effect of oestrogenic and androgenic compounds on some endocrine and body characteristics of male castrate lambs 44, 94A, 1985

- Influence of oestrogenic and androgenic compounds on blood lipids, subcutaneous fatty acid composition and the activities of certain lipogenic enzymes in sheep 44, 95A, 1985
- Serine hydroxymethyltransferase (*EC* 2.1.2.1) activity in trenbolone acetate- and testosterone-treated rats 44, 149A, 1985
- The relation between sex differences in growth response to trenbolone acetate and the suppression of adrenal activity in male and female rats 44, 61A, 1985
- Triglycerides**
- The distribution of triglycerides in the milk fat of Friesian and Jersey cows 44, 91A, 1985
- Tropical cattle**
- Effect of ambient temperature on the energy costs of activity by tropical cattle 44, 32A, 1985
- Intake and digestibility of foods by Ayrshire cattle and Asiatic buffaloes maintained at moderate and high temperatures 44, 43A, 1985
- Prediction of energy expenditure from heart rate measurements in exercising cattle 44, 33A, 1985
- Truly absorbed amino nitrogen**
- Estimation of truly absorbed amino nitrogen for grass forages 44, 153A, 1985
- Unconventional foods**
- A vital role for aquatic resources in feeding a hungry world 44, 19-29, 1985
